Shanghai Faithful Betrayal and Forgiveness in a Chinese Christian Family [Rowman & Littlefield](#) Within the next decade, China could be home to more Christians than any country in the world. Through the 150-year saga of a single family, this book vividly dramatizes the remarkable religious evolution of the world's most populous nation. **Shanghai Faithful** is both a touching family memoir and a chronicle of the astonishing spread of Christianity in China. Five generations of the Lin family—buffeted by history's crosscurrents and personal strife—bring to life an epoch that is still unfolding. A compelling cast—a poor fisherman, a doctor who treated opium addicts, an Ivy League-educated priest, and the charismatic preacher Watchman Nee—sets the book in motion. Veteran journalist Jennifer Lin takes readers from remote nineteenth-century mission outposts to the thriving house churches and cathedrals of today's China. The Lin family—and the book's central figure, the Reverend Lin Pu-chi—offer witness to China's tumultuous past, up to and beyond the betrayals and madness of the Cultural Revolution, when the family's resolute faith led to years of suffering. Forgiveness and redemption bring the story full circle. With its sweep of history and the intimacy of long-hidden family stories, **Shanghai Faithful** offers a fresh look at Christianity in China—past, present, and future. **Close Enough to Kill** [Zebra Books](#) **Close Enough To Touch** He's their secret admirer wooing them with phone calls love letters and special gifts. Specifically, this book situates Ando's churches, particularly his world-renowned Church of the Light (1989), within the legacy of nothingness expounded by Kitaro Nishida (1870-1945), the father of the Kyoto Philosophical School. Linking Ando's Christian architecture with a philosophy originating in Mahayana Buddhism illuminates the relationship between the two religious systems, as well as tying Ando's architecture to the influence of Nishida on post-war Japanese art and culture. **Beyond Slash, Burn, and Poison Transforming Breast Cancer Stories Into Action** [Rutgers University Press](#) . **Business Schools and their Contribution to Society** [SAGE](#) Business schools are arguably some of the most influential institutions in contemporary society. The Autumn of the Ace 'Both heart-warming and heart-wrenching, the ideal book for historical fiction lovers' The South African [Random House](#) 'De Bernieres is a singular, cherishable voice' Mail on Sunday From the master of historical fiction, this book follows an unforgettable family after the Second World War. Some bonds are hard to break... Daniel Pitt was an RAF fighter in the First World War and an espionage agent for the SOE in the Second. Now the conflicts he faces are closer to home. Daniel's marriage has fractured beyond repair and Daniel's relationship with his son, Bertie, has been a failure since Bertie was a small boy. But after his brother Archie's death, Daniel is keen for new perspectives. He first travels to Peshawar to bury Archie in the place he loved best, and then finds himself in Canada, avoiding his family and friends back in England. Daniel and Bertie's different experiences of war, although devastating, also bring with them the opportunity for the two to reconnect. If only they can find a way to move on from the past... Death Waits in the Dark [Blackstone Publishing](#) It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life. Chicken Soup for the Nurse's Soul Stories to Celebrate, Honor and Inspire the Nursing Profession [Simon and Schuster](#) This collection of true stories champions the daily contributions, commitments and sacrifices of nurses. Constitutional Mythologies New Perspectives on Controlling the State [Springer Science & Business Media](#) Our societies obviously rest on common beliefs. These "myths" are tools that help us to develop and build common identities; they form the structure around which societies function. This does not imply that these beliefs are "true," in the sense that they would be supported by empirical facts. In social matters, myths have undoubtedly important functions to play even if no empirical facts support them. On the other hand, and precisely because they are not discussed, myths may be problematic: they may create illusions, conserve structures that are inefficient and unable to improve the situation of citizens. This is particularly true with constitutions. Constitutions are very important for societies: a constitution is a document — even in societies based on "unwritten" constitutions — which binds citizens together, creating unity among them, and which forms the framework within which our activities take place. As Nobel Prize laureate James Buchanan used to say: constitutions contain the rules of the social game we play in our everyday life. However, constitutions are not frequently debated by citizens. This is why we end up with common beliefs about these constitutions: they are above our heads, around us. We take them, their role, function, and nature as given. The purpose of this volume to investigate and challenge common constitutional myths. Featuring contributions from prominent economists, political scientists, and legal scholars, the chapters in this volume address such myths as "constitutions are binding social contracts," "constitutions are economic documents" and "constitutions are legal documents." Illustrating their analyses with historical and contemporary examples from the United States, Canada, and Europe, the authors build a multi-layered approach to understanding constitutions and their implications for social and political influence. Cognitive Ecologies and the History of Remembering Religion, Education and Memory in Early Modern England [Palgrave Macmillan](#) This book unites research in philosophy and cognitive science with cultural history to re-examine memory in early modern religious practices.
