Parentology

Everything You Wanted to Know about the Science of Raising Children but Were Too Exhausted to Ask

Simon and Schuster **An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of Battle Hymn of the Tiger Mother). If**

you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

Books in Print

1989-90

R. R. Bowker

The Renewable Energy Home Handbook

Veloce Publishing Ltd Most renewable energy systems aren't new, but their use is. This handbook shows how each of the main renewable energy technologies works, along with step-by-step details of how it's installed, as well as the pros and - at least as importantly - the cons of each type of installation.

Vincent Motorcycles

The Untold Story since 1946

Veloce Publishing Ltd Despite only nine years of production, Vincents continue to be ridden regularly in rallies, hard in racing, and certainly well beyond the normal lifespan of a motorcycle. This book tells the Vincent story from 1946 until the present day, including the stories of those

significant individuals who helped to make Vincents such legendary machines.

How to restore Honda SOHC Fours

YOUR step-by-step colour illustrated guide to complete restoration

Veloce Publishing Ltd This book gives enthusiasts of the single overhead camshaft Honda Four a step-by-step guide to a full restoration. Whether it be the small but luxurious CB350/4 right through to the ground breaking CB750/4. This guide covers dismantling the motorcycle and its components, restoring and sourcing parts, paint spraying, decals and polishing. The chapters cover, Engine, frame, forks, fuel, exhaust, seat, brakes, tyres, electrics, up to the rebuild and on to safe setup and general maintenance and finally onto riding safely and storage.

How to Improve & Modify Your Caravan

Veloce Publishing Ltd This step-by-step, heavily illustrated guide shows the caravan owner and user how he or she can turn their caravan into a perfect and unique holiday retreat. It details the huge range of improvements available and - crucially - how you can apply them to your own caravan. Based on a magazine-article format, this manual is easy to use and will help you create the caravan of your dreams.

Mercedes-Benz

SL R129 Series 1989 to 2001

Veloce Publishing Ltd It's hard to believe, but the W129-series Mercedes-Benz SL was launched over 20 years ago. However, its timeless styling has kept it fresh and attractive in the eyes of a new generation of enthusiasts, as well as those returning to the car having owned one when they were still in the dealerships. A combination of superb original design and peerless engineering and build quality adds to the desirability of this series of classic German machines, and has ensured that many of these cars can still be seen in regular use today. Covering the SL's ever-changing specification, and its presence in many of the world's major markets is a

huge task, but it's all presented here in definitive detail, along with stunning contemporary photography, in a volume that will readily grace any reference library shelf or connoisseur's coffee table. Two earlier books, also published by Veloce, and covering the W113 cars and the 107-series SL and SLC, act as perfect companions to this title, which takes the SL story up to 1989.

How to Modify Your Retro Or Classic Car for High Performance

The Beginner's Guide to Classic

Motorcycle Restoration

YOUR step-by-step guide to setting up a workshop, choosing a project, dismantling, sourcing parts, renovating & rebuilding classic motorcycles from the 1970s & 1980s

Veloce Publishing Ltd In this book, seasoned motorcycle restorer Ricky Burns takes you through each of the stages of real-life restorations. Aimed at enthusiasts of all abilities, from the total beginner to those with experience already, the reader is shown each stage and process in step-by-step detail, along with the techniques, tricks and tips used by experts. From choosing a project, setting up a workshop, and preparing a motorcycle, to sourcing parts, dismantling, restoring and renovating, this book is the perfect guide for the classic motorcycle restorer.

Amedee Gordini

A True Racing Legend

Veloce Publishing Ltd This is a story of excitement, laughs, astonishment and anger - a story of the determination of a man with a dream and a passion for motor racing in the big leagues. It is the first time that the history of the always under-financed Gordini racing team has been documented in English, and the first complete story of Gordini himself in any language. This volume will appeal to new enthusiasts and old hands of Formula 1 and sports prototype racing, especially those who have owned a Gordini-badged high-performance Renault road car. It charts Gordini's early life and beginnings in motorsport, up to 1969 when Renault took over the Gordini company, keeping his name on all the racing engines until 1986, before finally resurrecting it for a performance version of the Renault Twingo and Clio in 2009. The book is packed with evocative period images from important collections, supplementary transcripts in English from many contemporary interviews, plus recollections from former employees remembering their time working with Gordini, and an exhaustive set of statistics. All the way it's a roller coaster of joy, despair, humour, and stunning images. The racing legend of 'Le Sorcier' lives on.

Making a Morgan

17 days of craftsmanship: step-by-step from specification sheet to finished car

Veloce Publishing Ltd The authors spent seventeen days at the Morgan factory in Pickersleigh Road, Malvern Link recording step-by-step - from customer's specification sheet to finished car - how individual craftsmen handbuild a Morgan. Follow this amazing journey through the factory, from craftsman to craftsman, by word and picture.

BUGATTI 57

THE LAST FRENCH BUGATTI

Veloce Publishing Ltd The concise history of the Bugatti Type 57, 57S, 64 & 101. Universal Principles of Design, Revised and Updated

125 Ways to Enhance Usability, Influence Perception, Increase Appeal, Make Better Design Decisions, and Teach Through Design

Rockport Pub **A cross-disciplinary reference of design. Pairs common design concepts with examples that illustrate them in practice.**

Modern Mathematical Statistics with Applications

Springer Nature **This 3rd edition of Modern Mathematical Statistics with Applications tries to strike a balance between mathematical foundations and statistical practice. The book provides a clear and current exposition of statistical concepts and methodology, including many examples and exercises based on real data gleaned from publicly available sources. Here is a small but representative selection of scenarios for our examples and exercises based on information in recent articles: Use of the "Big Mac index" by the publication The Economist as a humorous way to compare product costs across nations Visualizing how the concentration of lead**

levels in cartridges varies for each of five brands of e-cigarettes Describing the distribution of grip size among surgeons and how it impacts their ability to use a particular brand of surgical stapler Estimating the true average odometer reading of used Porsche Boxsters listed for sale on www.cars.com Comparing head acceleration after impact when wearing a football helmet with acceleration without a helmet Investigating the relationship between body mass index and foot load while running The main focus of the book is on presenting and illustrating methods of inferential statistics used by investigators in a wide variety of disciplines, from actuarial science all the way to zoology. It begins with a chapter on descriptive statistics that immediately exposes the reader to the analysis of real data. The next six chapters develop the probability material that facilitates the transition from simply describing data to drawing formal conclusions based on inferential methodology. Point estimation, the use of statistical intervals, and hypothesis testing are the topics of the first three inferential chapters. The remainder of the book explores the use of these methods in a variety of more complex settings. This edition includes many new examples and exercises as well as an introduction to the simulation of events and probability distributions. There are more than 1300 exercises in the book, ranging from very straightforward to reasonably challenging. Many sections have been rewritten with the goal of streamlining and providing a more accessible exposition. Output from the most common statistical software packages is included wherever appropriate (a feature absent from virtually all other mathematical statistics textbooks). The authors hope that their enthusiasm for the theory and applicability of statistics to real world problems will encourage students to pursue more training in the discipline.
