FORD DIFFERENTIALS

HOW TO REBUILD THE 8.8 AND 9 INCH

CarTech Inc The Ford 8.8- and 9-inch rear differentials are two of the most popular and best-performing differentials on the market. While the 8.8-inch differential is commonly used in late-model Mustangs, the 9-inch is the more popular and arguably the most dominant high-performance differential for muscle cars, hot rods, custom vehicles, and race cars. Built from 1957 to 1986, the 9-inch Ford differential is used in a huge range of high-performance Ford and non-Ford vehicles because of its rugged construction, easy-to-set-up design, and large aftermarket support. The 9-inch differential effectively transmits power to the ground for many classic Fords and hot rods of all types, but it is the choice of many GM muscle car owners and racers as well. These differentials have been used extensively and proven their mettle in racing and high-performance applications. The Ford 8.8- and 9-inch must be rebuilt after extensive use

and need a variety of different ratios for top performance and special applications. This Workbench book provides detailed step-by-step photos and information for rebuilding the differentials with the best equipment, installing the gear sets, and converting to Posi-Traction for a variety of applications. It describes how to disassemble the rear end, identify worn ring and pinion gears, other damage or wear, and shows step-by-step rebuilding of the differential. It also explains how to select the right differential hardware, bearings, seals, and other parts, as well as how to set ring and pinion backlash so that the rear end operates at peak efficiency. Aftermarket 9-inch performance differentials from manufacturers including Currie, Moser and Strange are reviewed and you learn how to rebuild and set up these high-performance aftermarket differentials. In addition, this book provides a comprehensive identification chart to ensure readers properly identify the model and specifics of the 9-inch differential. Chapters include axle identification, inspection, and purchasing axles for rebuilding; differential tear down; ring and pinion gear removal; inspection and reassembly; drive axle choices; and more.

THE RAINBOW

ABSOLUTELY HEARTBREAKING WORLD WAR 2 HISTORICAL FICTION BASED ON A TRUE STORY

Bookouture There, on the dusty floorboards, was a piece of paper, folded neatly. A newspaper article, written in German, alongside a faded picture of two men in Nazi uniforms staring at the camera. I was about to place it back in the box of forgotten things when something in the text jumped out at me. My breath caught in my chest. I know that name. London, present day. Isla has grown up hearing her beloved grandad's stories about his life as a child in pre-war Poland and as a young soldier bravely fighting the Germans to protect his people. So she is shocked and heartbroken to find, while collecting photos for his 95th birthday celebration, a picture of her dear grandfather wearing a Nazi uniform. Is everything she thought she knew about him a lie? Unable to question him due to his advanced dementia, Isla wraps herself in her rainbow-coloured scarf, a memento of his from the war, and begins to hunt for the truth behind the photograph. What she uncovers is more shocking than she could have ever anticipated - a tale of childhood sweethearts torn apart by family duty, and how one young man risked his life, his love and the respect of his own people, to secretly fight for justice from inside the heart of the enemy itself... An heartbreaking novel of love, betrayal and a secret passed down through a family. Inspired by an incredible true story. Perfect for fans of *The Tattooist of Auschwitz*, *We Were the Lucky Ones* and *The Alice Network*. Readers absolutely love *The Rainbow*: 'Oh my gosh... this book broke me... it will stay with me for a very long time... heart-breaking, poignant, gripping and compelling I felt every emotion... I read this book in one sitting.' Fiction Vixen Reads, ☐☐☐☐ 'Will rip your heart out... It has heartache, pain, loss, joy, and sorrow. It's a great WWII historical fiction... heartbreaking.'
