### HANDMADE BASKETS FROM NATURE'S COLOURFUL MATERIALS

---

*Search Press Limited* In almost every country in the world, there is a tradition of basketmaking, using plants that are indigenous to that particular area. But today, the plastic bag and cardboard box have replaced the basket's role of years gone by. However, there is something quite irresistible about the smell and the tactile appeal of a country hedgerow basket which is not only home-made but is sometimes even home-grown. This book aims to revive interest in the traditional and useful craft of basketmaking. Susie Vaughan offers a fascinating, step-by-step description of how to make a delightful selection of strong, natural-looking and colourful baskets, mostly using materials which have been gathered from hedgerows, woods and gardens. Firstly, she covers the few tools required, then goes on to give a detailed, illustrated description of materials which can either be gathered from the annual prunings of a wide selection of bushes, or those which are farmed and can be bought from specialist suppliers. Her detailed step-by-step description of making a basket is accompanied by numerous diagrams and full-colour photographs to help explain the finer points of detail. She then explores variations in design, both of the shape of the basket and the alternative weaving patterns that can be employed to make the finished work that much more special. Finally, a superb gallery of photographs of finished baskets is included to provide you with ideas and motivation to go on to more adventurous projects.

*Createspace Independent Publishing Platform* **Natural Soap Making Cookbook 150 Unique Soap Making Recipes** If you are reading this description, then I can safely assume that you either read my other book "Natural & Organic Soap Making Alchemy," or you are already a pro in the world of soap making craft. Either way, you already know the three most popular soap making methods. Cold Process Method Melt and Pour Method Hot Press Method In this recipe book, I share many recipes for each of these methods. Even though you may prefer just one of these methods over the others but I can honestly say after five years of making all different kinds of soaps that each of these methods have their own unique soap creating techniques that the others don't. Did you know that there is a soap that can reduce cellulite? How about the soap that can cure acne and other skin blemishes? My son's acne disappeared after using a soap that one of my friends made (that is how I got interested in soap making). There are many medicinal and other benefits of using homemade natural soaps. I divided each of the soap making methods into 3 categories Floral Scented Soaps Unique Soaps Medicated Soaps In each category, I listed 10 of my best recipes, most of which are truly unique. Additionally, I added three additional chapters with 10 recipes in each that are becoming very popular lately. Glycerin Soaps Liquid and Laundry Soaps Goat Milk Soaps But before you buy this book, I would prefer you take a glance at the table of content and look through all of my 150 recipes and see if any of them peak your interest. Welcome to the world of soulful aroma and beautiful colors of freshly homemade soaps!
