INTEGRATING THE EXPRESSIVE ARTS INTO COUNSELING PRACTICE, SECOND EDITION

THEORY-BASED INTERVENTIONS

Springer Publishing Company "When I used it, I felt it was a very valuable resource, linking work with the arts to the theoretical foundations of counseling."--Sally S. Atkins, EdD Professor Emerita Founding Director of Expressive Arts, Appalachian State "They [Students] like the activities since it helps them learn more about the counseling theory which was discussed in the Theories of Counseling class. It provides more application. Some activities are pretty detailed and class time does not allow for much practice. But, we discuss how this could be used in therapy sessions/groups... [The book] is short and very pointed in its information and use. We like it!"--Judy A. Schmidt, EdD, CRC, LPCA University of North Carolina at Chapel Hill Expanded and revised to reflect a broader understanding of the complementary approach to therapeutic treatment, this is the only text to integrate expressive arts counseling techniques with major theories of counseling and psychology. Substantial changes to the second edition include new chapters that address Neuroscience and Counseling, Trauma-Informed Counseling, Animal-Assisted Therapy, Mindfulness and Counseling, and Family Counseling, along with a greater emphasis on cultural and diversity considerations throughout. The book is updated with over 30 new interventions including animal-assisted and videographic interventions, and new information about the neuroscientific foundations of expressive arts therapies. Updated references in each chapter, and a suite of Instructor's Materials also add to value of the second edition. The text integrates expressive arts therapies with 12 commonly used treatment modalities. Each chapter reviews a particular theory and describes how expressive and creative techniques can support and be easily integrated within that orientation. Over 90 field-tested, step-by-step interventions—created by leading practitioners—offer students and clinicians techniques that can be put to use immediately. New to the Second Edition: New chapters address Neuroscience and Counseling, Trauma-Informed Counseling, Animal-Assisted Therapy, Mindfulness and Counseling, and Family Counseling and the Expressive Arts. Cultural and diversity considerations in each chapter. Updated with new references. Over 30 new interventions including videography. Instructor's materials. Key Features: Integrates expressive arts counseling techniques with 12 major theories of counseling and psychology. Presents over 90 expressive art interventions in easy, step-by-step format. Includes art, writing, bibliotherapy, drama, music, movement, dance, puppetry, and sand play. Discusses appropriate populations, settings, and diagnoses for each intervention. Includes interventions that can be put to use immediately.

A CHRISTMAS BEAU

Pelican Ventures Book Group Katie Knowles's life is going as planned. Even her long-time crush on Cameron Hilliard has fallen into place. Katie knows Cameron cares for her. Deeply. But something keeps him from committing completely. Cam Hilliard is thirty-two years old before he finds himself wading the murky waters of true love. At twenty-four, Katie's so young. So pure. So innocent. Although he's found Christ and is at peace with his past, Cam can claim none of those things. Is it fair to ask such a special woman to tie her future to his? Then Katie comes face-to-face with a ghost from a part of Cam's past, and he is forced to acknowledge the very real possibility of losing her. Suddenly their differences no longer matter. He has to find a way to set the situation right, accept the consequence of his most shameful secret, and win back Katie's trust and love. But when the clock strikes midnight on Christmas day, it'll be too late. Is their faith and love strong enough to bring them a real-life Christmas miracle?

PSYCHOLOGICAL ASPECTS OF CRISIS NEGOTIATION

CRC Press Psychological Aspects of Crisis Negotiation, Third Edition, explores the methods and strategies for confronting the nine types of subjects typically encountered in hostage/suicide sieges by correctional staff and law enforcement crisis negotiators. Strentz, an experienced negotiator who designed and directed the FBI's hostage negotiator program, lays out the critical elements that are required for a successful encounter with a hostage taker or other malfeasant. This book highlights psychological dynamics of negotiations as they apply to the negotiator, the hostage, and the subject. It discusses the predictors of surrender versus the need for a tactical intervention and examines the phases of a hostage crisis and the changing focus as the crisis develops. Referencing historical events such as the Bay of Pigs invasion and the Challenger and Columbia incidents, this text demonstrates how faulty group decision making can spell tragedy. Enhanced with case studies to put the material into context, this third edition also includes new chapters on the SWAT team/crisis negotiator interface and on the genesis of the increased incidence of mentally ill hostage takers. Based on decades of experience in the field and practical advice from a national expert, this volume arms negotiators with the knowledge and tools they need to defuse crises and increase the odds that hostages will survive.

THE SCIENTOLOGY MURDERS

Akashic Books A Florida detective pursues a killer within the Church of Scientology in this crime novel by the Edgar Award-winning author of *The Dead Detective*. A series of murders in Florida have left the police force baffled and Detective Harry Doyle's adoptive father seriously wounded. As his investigation becomes personal, Doyle—known to his peers as the Dead Detective—finds he must penetrate one of the most private institutions in the country in order to track down those responsible. Clearwater, Florida, is the spiritual center of Scientology, a religion that encourages its members to remain pure and true to their beliefs. One senior leader has a misguided young man in his employ, a twisted soul who will stop at nothing to make sure the rules are followed. With veils of secrecy surrounding the church's inner sanctum, the detectives are stonewalled at every turn. But when the investigation leads Doyle and his partners to the far reaches of Alaska, they come face-to-face with death in a form they never expected.

SERVING LOCAL SCHOOLS

BRING CHRIST'S COMPASSION TO THE CORE OF YOUR COMMUNITY

Zondervan The heartbeat of every local community is found in its local schools. Yet many Christians have little to no connection with school leaders, and few churches have an active ministry presence. If you want to effectively reach your community, you must take the time to invest in school administrators, teachers, and families. Not having a relationship just isn't an option. Many schools today are facing budget crises' and financial shortfalls or declining enrollment. School leaders and teachers are more open than ever before to partnering with parents, neighbors, and churches in a sustainable way. This book shares stories and examples of how schools and churches can work together for the common good of students and the community. You'll gain a better understanding of the laws defining the line of separation between church and state, and you will learn how to best approach school leaders with creative ideas for working together. Serving Local Schools provides biblical support and practical resources to equip individuals and churches to meet the needs of local schools while faithfully witnessing to the good news found in Jesus Christ.

DHEALTH 2020 - BIOMEDICAL INFORMATICS FOR HEALTH AND CARE

PROCEEDINGS OF THE 14TH HEALTH INFORMATICS MEETS DIGITAL HEALTH CONFERENCE

IOS Press Successful digital healthcare depends on the effective flow of a complete chain of information; from the sensor, via multiple steps of processing, to the actuator, which can be anything from a human healthcare professional to a robot. Along this pathway, methods for automating the processing of information, like signal processing, machine learning, predictive analytics and decision support, play an increasing role in providing actionable information and supporting personalized and preventive healthcare concepts in both biomedical and digital healthcare systems and applications. ICT systems in healthcare and biomedical systems and devices are very closely related, and in the future they will become increasingly intertwined. Indeed, it is already often difficult to delineate where the one ends and the other begins. This book presents the intended proceedings of the dHealth 2020 annual conference on the general topic of health Informatics and digital health, which was due to be held in Vienna, Austria, on 19 and 20 May 2020, but which was cancelled due to the COVID-19 pandemic. The decision was nevertheless taken to publish these proceedings, which include the 40 papers which would have been delivered at the conference. The special topic for the 2020 edition of the conference was Biomedical Informatics for Health and Care. The book provides an overview of current developments in health informatics and digital health, and will be of interest to researchers and healthcare practitioners alike.

FURRY FANDOM CONVENTIONS, 1989-2015

McFarland Furry fandom--an adult social group interested in anthropomorphic animals in art, literature and culture--has grown since the 1980s to include an estimated 50,000 "furries." Their largest annual convention drew more than 6,000 attendees in 2015, including 1,000 dressed in "fur suits" or mascot-type animal costumes. Conventions typically include awards, organizations, art, literature and movies, encompassing a wide range of creative pursuits beyond animal costuming. This study of the furry subculture presents a history of the oft-misunderstood group and lists all conventions around the world from 1989 through 2015, including organizers, guests of honor and donations to charity.

RESEARCH DESIGN IN AGING AND SOCIAL GERONTOLOGY

QUANTITATIVE, QUALITATIVE, AND MIXED METHODS

Taylor & Francis *Research Design in Aging and Social Gerontology* provides a review of methodological approaches and data-collection methods commonly used with older adults in real-life settings. It addresses the role of normative age-related sensory, cognitive, and

functional changes, as well as the influence of generational cohort (age-period-cohort) upon each design. It discusses the role of older adults as true co-researchers; issues uniquely related to studies of persons residing in community-based, assisted, skilled, and memory-care settings; and ethical concerns related to cognitive status changes. The text concludes with detailed guidelines for improving existing data collection methods for older persons and selecting the best fitting methodologies for use in planning research on aging. Features of *Research Design in Aging and Social Gerontology* include: Descriptions and evaluations of a wide range of methodological approaches, and methods used to collect data about older persons (quantitative, qualitative, mixed, and emergent methods: photovoice, virtual environments, etc.) Ways to match research questions to selection of method without a preconceived methodological preference or dominance Real-world and applied examples along with cases from the gerontological literature "How to" sections about reading output/software reports and qualitative-analysis screenshots (from ATLAS.ti) and quantitative (SPSS) output and interpretation Pedagogical tools in every chapter such as text boxes, case studies, definitions of key terms, discussion questions, and references for further reading on chapter topics Glossary of key terms, complete sample research report, and an overview of past methodological research design work in gerontology Companion website at www.routledge.com/cw/Weil where instructors will find PowerPoint presentations, additional discussion questions, and a sample syllabus; and students will find flashcards based on glossary terms, a downloadable copy of the sample research report in the text, and links to data sets, related websites, further reading, and select gerontological journals This text is intended for upper-level undergraduates and masters students in aging and gerontology as well as students in human development, applied anthropology, psychology, public health, sociology, and social-work settings. Health care professionals, social workers, and care managers who work with older adults will also find this text a valuable resource.
