KEY=VOL - KODY SCARLET

The History of Italian Cinema A Guide to Italian Film from Its Origins to the Twenty-first Century Princeton University Press Discusses renowned masters including Roberto Rossellini and Federico Fellini, as well as directors lesser known outside Italy like Dino Risi and Ettore Scola. The author examines overlooked Italian genre films such as horror movies, comedies, and Westerns, and he also devotes attention to neglected periods like the Fascist era. He illuminates the epic scope of Italian filmmaking, showing it to be a powerful cultural force in Italy and leaving no doubt about its enduring influence abroad. Encompassing the social, political, and technical aspects of the craft, the author recreates the world of Italian cinema. Gioachino Rossini A Research and Information Guide Routledge Giochino Rossini: A Research and Information Guide is designed as a tool for those beginning to study the life and works of Gioachino Rossini as well as for those who wish to explore beyond the established biographies and commentaries. The first edition was published in 2001, and represented a survey of some 878 publications relating to the composer's life and works. The second edition is revised and updated to include the more than 150 books and articles written in the field of Rossini studies since then. Contents range from sources published in the early decades of the nineteenth century to works currently in progress. General subject areas include Rossini's biography, historical and analytical studies of his operatic and non-operatic compositions, his personal and professional associations, and the reassessment of his role in the development of nineteenth-century music. Japanese Tea Culture Art, History and Practice Routledge From its origins as a distinct set of ritualised practices in the sixteenth century to its international expansion in the twentieth, tea culture has had a major impact on artistic production, connoisseurship, etiquette, food, design and more recently, on notions of Japaneseness. The authors dispel the myths around the development of tea practice, dispute the fiction of the dominance of aesthetics over politics in tea, and demonstrate that writing history has always been an integral part of tea culture.
