SOUTH AFRICA'S WATER GOVERNANCE HYDRAULIC MISSION (1912-2008) IN A WEF-NEXUS CONTEXT

AOSIS Geologists, physicists and ecologists currently promote the idea of a post-Holocene epoch – the Anthropocene. As a result of constant innovation and modernisation in the fields of engineering, natural science, management studies and environmental studies there has been a growing awareness of the intrinsic interaction between humankind and the environment. Humankind has become part of the environmental dynamics, to the extent that they are literally able to change ecosystems. Nowhere is the impact more evident than in the anthropogenic engagement with the hydrosphere – from the smallest pool of water to the earth's atmosphere. Comprehensive infrastructure development in water and sanitation, the growing trend to seek additional resources in the form of groundwater, desalinated seawater, and recycled wastewater, as well as special attention being given to capturing and preserving rainwater, bear evidence of a timely response to climate change, population growth and rapid development in many water-stressed regions of the world. The purpose of the book is to provide a historical overview of the manner in which South Africa's water resources have been governed from a time when the Union of South Africa was formed, in 1910, up to 2008, a time of a growing global awareness of the potential impact that climate change may have on water resources in a key region of southern Africa, notable for increasing levels of aridity and more erratic rainfall patterns. This focus on the history of water affairs in South Africa makes it possible for scholars to comprehend the contemporary transitions made in the country's water governance system since the establishment in 2014 of the Department of Water and Sanitation. The focus is on the Water-Energy-Food nexus, a strategy which holistically contemplates the governance and use of water from the perspective of the interconnection between water, energy and food as resources.

POLICE AND COUNTERINSURGENCY

THE UNTOLD STORY OF TRIPURA'S COIN CAMPAIGN

SAGE Publications India How Good Policing Can Help Fight Insurgencies In Conflict-Ridden Societies. Globally, the role of local police has been receiving increased attention following conflicts in Iraq and Afghanistan. The criminalization of insurgent networks coupled with the growing nexus of warlords and drug lords and porous borders in many conflict areas have also bolstered the case for good policing. This book makes a case for the increased role of local/state police in counterinsurgency (COIN) operations by citing the successful implementation of this strategy in the state of Tripura led by the author himself. This makes Tripura the only state after Punjab and Andhra Pradesh where the police have taken full control of such operations. The work combines rigorous scholarship and research on general policing and COIN operations with incisive analysis of multiple insurgencies/terrorist movements in India.

A SYSTEMS APPROACH TO MODELING THE WATER-ENERGY-LAND-FOOD NEXUS, VOLUME I

DEFINING AND ANALYZING THE LANDSCAPE

Momentum Press This two-volume set describes a flexible and adaptive system-based methodology and associated guidelines for the management and allocation of community-based WELF resources. Over the next 50 years, rapid population, urbanization, and economic growth worldwide will create unprecedented demands for water, energy, land, and food (WELF) resources. The discussion on how to meet human needs for WELF resources and how to guarantee their respective securities has changed over time from looking at all four sectors in isolation to understanding their interdependency through the so-called WELF nexus. The approach presented in this book responds to the overall agreement in the WELF nexus literature that the management and allocation of WELF resources at the community level need to be examined in a more systemic, multidisciplinary, participatory, and practical manner while seeking to increase synergies and reduce trade-offs. This book was written to explore the value proposition of that approach. Volume 1 focuses on defining the landscape in which the nexus operates and outlines the proposed methodology. Volume 2 explores the quantitative and qualitative modeling of the nexus and landscape using system modeling tools including system dynamics. It presents a road map for the formulation, simulation, selection, and ranking of possible intervention plans. The proposed methodology is designed to serve as a guide for different groups involved in the science and policy decision aspects of the WELF nexus within the context of community development. The methodology focuses mostly on WELF-related issues in small-scale and low-income communities where securing resources is critical to their short- and long-term livelihood and development.

NEXUS OF EMPIRE

NEGOTIATING LOYALTY AND IDENTITY IN THE REVOLUTIONARY BORDERLANDS, 1760S-1820S

"Featuring compelling biographical essays on individuals from the key groups who experienced the rapid shifts in national boundaries in the Gulf region, this work opens an exciting new perspective on the problems of identity and loyalty in a transnational world."--Rafe Blaufarb, author of *Bonapartists in the Borderlands* "A sparkling set of insightful essays that illuminates the interplay of natives, settlers, maroons, and slaves in a pivotal borderland contested by rival empires. Local, imperial, and racial identities overlapped in a shifting kaleidoscope of power, resistance, and adaptation."--Alan Taylor, author of *The Divided Ground: Indians, Settlers, and the Northern Borderland of the American Revolution Between 1760 and 1820*, many groups in North America grappled with differences of identity, nationality, and loyalty tested by revolutionary challenges. Less dramatic, perhaps, but no less important were the stories of individuals redefining themselves as they struggled to survive and prosper in times of both war and peace. Nexus of Empire turns the focus on the people who inhabited one of the continent's most dynamic borderlands-- the Gulf of Mexico region--where nations and empires competed for increasingly important strategic and commercial advantages. The essays in this collection do not focus primarily on national groups or large military conflicts. Instead, they examine the personal experiences of men and women, Native Americans, European colonists, free people of color, and slaves, analyzing the ways in which these individuals defined and redefined themselves amid a world of competing loyalties. With its biographical approach, this volume humanizes the promise and perils of living, working, and fighting in a region experiencing constant political upheaval and economic uncertainties. It offers intriguing glimpses into a fast-changing world in which individuals' attitudes and actions reveal the convoluted balancing acts of identities that characterized this population and this era. JEWISH MIGRATION AND THE ARCHIVE

Routledge Migration is, and has always been, a disruptive experience. Freedom from oppression and hope for a better life are counter-balanced by feelings of loss – loss of family members, of a home, of personal belongings. Memories of the migration process itself often fade quickly away in view of the new challenges that await immigrants in their new homelands. This volume asks, and shows, how migration memories have been kept, stored, forgotten, and indeed retrieved in many different archives, in official institutions, in heritage centres, as well as in personal and family collections. Based on a variety of examples and conceptual approaches – from artistic approaches to the family archive via ‘smell and memory as archives’, to a cultural history of the suitcase – this volume offers a new and original way to write Jewish history and the history of Jewish migration in the context of personal and public memory. The documents reflect the transitory character of the migration experience, and they tell stories of longing and belonging. This book was originally published as a special issue of Jewish Culture and History.

DISSONANT ARCHIVES

CONTEMPORARY VISUAL CULTURE AND CONTESTED NARRATIVES IN THE MIDDLE EAST

Bloomsbury Publishing The 'archive' is often viewed as a collection of historical documents that records and orders information about people, places and events. This view nevertheless obscures a crucial point: the archive, whilst subject to the vagaries of time and history, can also determine the future. This point has gained urgency in modern-day North Africa and the Middle East where the archive has come to the fore as a site of social, historical, theoretical, and political contestation. *Dissonant Archives* is the first book to consider the ways in which contemporary artists from the Middle East and North Africa – including Emily Jacir, Walid Raad, Jananne Al Ani, Basel Abbas and Ruanne Abou-Rahme, Mariam Ghani, Zineb Sedira, and Akram Zaatari – are utilizing and disrupting the function of the archive and, in so doing, highlighting a systemic, perhaps irrevocable, crisis in institutional and state-ordained archiving across the region. In exploring and producing archives, be they alternative, interrogative or fictional, these artists are not simply questioning the authenticity, authority or authorship of the archive; rather, they are unlocking its regenerative, radical potential. The result provides essential insights into the nexus between art and politics in the contemporary Middle East.

THE MUELLER REPORT

THE FINAL REPORT OF THE SPECIAL COUNSEL ON RUSSIAN INTERFERENCE IN THE 2016 PRESIDENTIAL ELECTION

Courier Dover Publications This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

REVOLUTION ON THE HUDSON: NEW YORK CITY AND THE HUDSON RIVER VALLEY IN THE AMERICAN WAR OF INDEPENDENCE

W. W. Norton & Company The untold story of the fight for the Hudson River Valley, control of which, both the Americans and the British firmly believed, would determine the outcome of the Revolutionary War. No part of the country was more contested during the American Revolution than New York City, the Hudson River, and the surrounding counties. Political and military leaders on both sides viewed the Hudson River Valley as the American jugular, which, if cut, would quickly bleed the rebellion to death. So in 1776, King George III sent the largest amphibious force ever assembled to seize Manhattan and use it as a base from which to push up the Hudson River Valley for a grand rendezvous at Albany with an impressive army driving down from Canada. George Washington and every other patriot leader shared the king's fixation with the Hudson. Generations of American and British historians have held the same view. In fact, one of the few things that scholars have agreed upon is that the British strategy, though disastrously executed, should have been swift and effective. Until now, no one has argued that this plan of action was lunacy from the beginning. *Revolution on the Hudson* makes the bold new argument that Britain's attempt to cut off New England never would have worked, and that doggedly pursuing dominance of the Hudson ultimately cost the crown her colonies. It unpacks intricate military maneuvers on land and sea, introduces the personalities presiding over each side's strategy, and reinterprets the vagaries of colonial politics to offer a thrilling response to one of our most vexing historical questions: How could a fledgling nation have defeated the most powerful war machine of the era? George C. Daughan—winner of the prestigious Samuel Eliot Morrison Award for Naval Literature—integrates the war's naval elements with its political, military, economic, and social dimensions to create a major new study of the American Revolution. *Revolution on the Hudson* offers a much clearer understanding of our founding conflict, and how it transformed a rebellion that Britain should have crushed into a war they could never win.

CANNABIS

GLOBAL HISTORIES

MIT Press Cannabis consumption, commerce, and control in global history, from the nineteenth century to the present day. This book gathers together authors from the new wave of cannabis histories that has emerged in recent decades. It offers case studies from Africa, Asia, the Americas, Europe, and the Middle East. It does so to trace a global history of the plant and its preparations, arguing that Western colonialism shaped and disseminated ideas in the nineteenth century that came to drive the international control regimes of the twentieth. More recently, the emergence of commercial interests in cannabis has been central to the challenges that have undermined that cannabis consensus. Throughout, the determination of people around the world to consume substances made from the plant has defied efforts to stamp them out and often transformed the politics and cultures of using them. These texts also suggest that globalization might have a cannabis history. The migration of consumers, the clandestine networks established to supply them, and international cooperation on control may have driven much of the interconnectedness that is a key feature of the contemporary world.

ISLAMIC ATTITUDES TO ISRAEL

Routledge This book draws on the research of some of the leading scholars in the fields of Jewish-Islamic relations, the Israeli-Arab conflict and political Islam. These highly topical essays examine the relationship between Israel and the Islamic world from both a thematic and geo-strategic perspective. Divided into two distinct sections, the first section of the book deals with issues relating to contemporary Jewish-Muslim relations and, in particular, looks at the attitude towards the Jewish state amongst opinion-makers, religious institutions and leaders in the Muslim world. Key issues such as the Islamic attitude to Palestinian suicide-bombing, and Arab anti-Semitism are addressed here. The second section examines the attitude of key Muslim nations – Egypt, Iran, Turkey, Indonesia and Pakistan – to the Jewish state, and charts the evolving, bilateral relationship between these nations and Israel from the birth of the Jewish State in 1948 up to the present day. This book was previously published as a special issue of the journal *Israel Affairs*.

STUDIES IN ETYMOLOGY AND ETIOLOGY

WITH EMPHASIS ON GERMANIC, JEWISH, ROMANCE AND SLAVIC LANGUAGES

Universidad de Alicante Dictionaries usually give only brief treatment to etymologies and even etymological dictionaries often do not lavish on them the attention which many deserve. To help fill the gap, the author deals in depth with several etymologically problematic words in various Germanic, Jewish, Romance, and Slavic languages, all of which have hitherto either been misetymologized or not etymologized at all. Sometimes, he succeeds in cracking the nut. Sometimes, he is able only to clear away misunderstanding and set the stage for further treatment. Usually, he marshals not only linguistic but also historical and cultural information. Since this book also discusses methodology, it has the makings of an introduction to the science, art, and craft of etymology. David L. Gold is the founder of the Jewish Name and Family Name File, the Jewish English Archives, and the Association for the Study of Jewish Languages, as well as the editor of *Jewish Language Review* and *Jewish Linguistic Studies*.

WATER SECURITY

PRINCIPLES, PERSPECTIVES AND PRACTICES

Routledge The purpose of this book is to present an overview of the latest research, policy, practitioner, academic and international thinking on water security—an issue that, like water governance a few years ago, has developed much policy awareness and momentum with a wide range of stakeholders. As a concept it is open to multiple interpretations, and the authors here set out the various approaches to the topic from different perspectives. Key themes addressed include: Water security as a foreign policy issue The interconnected variables of water, food, and human security Dimensions other than military and international relations concerns around water security Water security theory and methods, tools and audits. The book is loosely based on a masters level degree plus a short professional course on water security both given at the University of East Anglia, delivered by international authorities on their subjects. It should serve as an introductory textbook as well as be of value to professionals, NGOs, and policy-makers.

RELATIVELY SPEAKING

ENGLISH STUDIES FROM ARCHIVES TO PROSPECTS

VOLUME 1 - LITERATURE AND CULTURAL STUDIES

Cambridge Scholars Publishing When we think about what it is we do in academic literary studies, we do so taking account of time – the time of the institution in which this disciplinary practice takes place, and the history of the discipline itself. Since literary studies engage contemporary issues and how they impact the reader, we must also acknowledge processes and events outside the field. The contributions to this volume engage with the idea of temporality not only in Anglophone literature studies, but in the humanities as a whole. In the first section, the literary contributions show that the humanities owe a debt to the past – new paradigms question and challenge the validity of older ones without necessarily discarding them. The second section shows how the disciplinary archive can be modified and expanded to engage its present condition, while the last deals with what that condition forebodes. Despite the range of perspectives adopted here, all contributions echo the history of the discipline of literary studies itself, its present condition, and the possibilities for its survival in an age in which the relevance of humanities is being disputed.
