COMPREHENSIVE OBJECTIVE BOOK FOR AIEEE

Golden Bells

NOTHING IN THIS BOOK IS TRUE, BUT IT'S EXACTLY HOW THINGS ARE, 15TH ANNIVERSARY EDITION

North Atlantic Books *Nothing in This Book Is True, But It's Exactly How Things Are is an account of humankind's function within the grand celestial battle between internal and external knowledge. Author Bob Frissell gives a compelling account of our planetary ascent into higher consciousness, presenting a big-screen view of the Earth through the experience of the Ascended Masters, Thoth, Babaji, and Drunvalo*

Melchizedek. Pulling in all manner of conspiracy theories from the Secret Government to the Philadelphia Experiment, Frissell proposes both a core transdimensional shift based on the Mayan calendar and a personal Rapture mediated through the connected, affirmed breaths of rebirthing that his teacher Melchizedek used to travel from the other side of the universe to here—breathing your own spacecraft (merkaba) out of and around your aura in order to travel through the astral realms. The 15th anniversary edition of this cult classic is revised and expanded with new illustrations and 50 pages of important new information on the Lucifer Rebellion, the solar storm, and the final three breaths of the merkaba meditation.

BRINGING CLASSES INTO THE PUBLIC LIBRARY

A HANDBOOK FOR LIBRARIANS

McFarland *With so much competing for the time of today's students, youth services librarians have an especially challenging job. How can they reach their target audience? One of the surest ways is the promotion—through the local school system—of a series of class visits to the public library. But where to begin? Choosing a grade level, contacting school officials and teachers, and planning age-appropriate programs are among the many steps that librarians must take—but may feel unprepared for. Encouraging the collaboration of professionals in public libraries and local schools, this comprehensive guide presents a detailed framework for a versatile program of class visits. Written by two public librarians with firsthand experience, it describes, in a step-by-step format, how to accomplish a structured series of class visits. The book addresses procedures, planning and implementation, and offers suggestions for both elementary and secondary school visits. Informational packets*

and other print materials are provided for each level. Possible challenges are discussed, with thoughts on their impact on the overall program and ways to find workable solutions. The appendices contains easily adaptable templates including sample schedules, letters to teachers and evaluation forms.

NO PLANET B

THE TEEN VOGUE GUIDE TO THE CLIMATE CRISIS

Haymarket Books *Teen Vogue*, the fresh voice of a generation of activists, curates a dynamic collection of timely pieces on the climate justice movement. Using a feminist, indigenous, antiracist, internationalist lens the book paints a picture of a world in climate crisis and presents bold, courageous ideas for how to save it. Featuring introductions from leading climate activists, *No Planet B* is essential reading for everyone fighting for a Green New Deal and more.

MEDIA AND WATER

COMMUNICATION, CULTURE AND PERCEPTION

Bloomsbury Publishing As flooding, drought and water scarcity become more pronounced due to climate change, so the way in which these events are presented in the media assumes greater significance. In particular, the media plays an important role in shaping the public perception and understanding of water issues, and debates around extreme weather events more generally. Joanne Garde-Hansen's book offers a sustained and comprehensive exploration of media representations of water. Drawing on a wide range of media - including newspapers, digital, photography, radio, television and video, as well as empirical research on media and memory - she examines how drought, flooding and water management have been portrayed in the media, both historically and in the contemporary world. The use of the media by water institutions to manage public perceptions and the use of digital media by the public to engage with water companies is also included. A particular feature of the book is an examination of water and gender in developed nations. One of the first books to look at media representations of water, this pioneering work provides valuable insights for both scholarly and professional water research.

PHILOSOPHICAL THEORIES OF PROBABILITY

Routledge *The Twentieth Century* has seen a dramatic rise in the use of probability and statistics in almost all fields of research. This has stimulated many new philosophical ideas on probability. *Philosophical Theories of Probability* is the first book to present a clear, comprehensive and systematic account of these various theories and to explain how they relate to one another. Gillies also offers a distinctive version of the propensity theory of probability, and the intersubjective interpretation, which develops the subjective theory.

TEST OF FAITH, LEADER'S GUIDE

SCIENCE AND CHRISTIANITY UNPACKED

Test of FAITH *This visually stunning, award-winning, three part documentary uses interviews with ten top scientists and theologians to introduce some big questions and address the many challenging issues raised by the sciences. It shows that science is compatible with genuine faith in God. The Test of faith course comes with accompanying resources developed by the Faraday Institute for Science and Religion ideally tailored to unpack the issues raised in the documentary. The book tells the stories of the scientists featured in the video materials as they share their life, stories and reflections on science and faith. The study guide allows small groups to explore science-faith issues by choosing topics and discussing them at a level and pace that suits the group. The Leader's guide supplements the study guide with suggested responses to questions, critical background information and opportunities to go deeper while encouraging an open discussion of a range of views.*

TEXT-BOOK ON PRACTICAL ASTRONOMY

TEXT-BOOK ON PRACTICAL ASTRONOMY

ASTRONOMICAL OBSERVATIONS MADE AT THE OBSERVATORY OF CAMBRIDGE

THE BOY DETECTIVE FAILS

Akashic Books *In this "charming" and melancholic novel, a former child sleuth "investigates the hard-to-crack case of Lost Innocence" (Entertainment Weekly). A Chicago Tribune, Kirkus Reviews, and Booklist Book of the Year In the twilight of a mysterious childhood full of wonder, Billy Argo, boy detective, is brokenhearted to find that his younger sister and crime-solving partner, Caroline, has committed suicide. Ten years later, Billy, age thirty, returns from an extended stay at St. Vitus' Hospital for the Mentally Ill to discover the world full of unimaginable strangeness: office buildings vanish without reason, small animals turn up without their heads, and cruel villains ride city buses to complete their evil schemes. Lost within this*

unwelcoming place, Billy befriends two lonely, extraordinary children—one a science fair genius, the other a charming, silent bully. With a nearly forgotten bravery, he experiences the unendurable boredom of a telemarketing job; encounters a beautiful, desperate pickpocket; and confronts the nearly impossible solution to his sister's case. Along a path laden with hidden clues and codes, the boy detective may learn the greatest secret of all: the necessity of the unknown. "Haunted by the mystery of his sister's death and feeling that a lapse in his sleuthing may be to blame, Billy is determined to find out the reason for her suicide and to punish those responsible . . . The story of Billy's search for truth, love and redemption is surprising and absorbing. Swaddled in melancholy and gentle humor, it builds in power as the clues pile up." —Publishers Weekly "The author gives Billy a gallery of rogues to combat and even sends him to investigate the Convocation of Evil at a local hotel ('Featured Panel: To Wear a Mask?'). Meno sets himself a complicated task, marooning his straight-arrow, pulp-fiction protagonist in a world uglier than the Bobbsey Twins ever faced but refusing to go for satire. Instead, the author takes his compulsive investigator at face value." —Kirkus Reviews, starred review "Comedic, imaginative, empathic . . . investigates the precincts of grief [and] our longing to combat chaos with reason." —Booklist
