The famous Linji (Rinzai) Chan master Dahui Zonggao (1089–1163) railed against "heretical silent illumination Chan" and strongly advocated kanhua (koan) meditation as an antidote. In this fascinating study, Morten Schlütter shows that Dahui's target was the Caodong (Soto) Chan tradition that had been revived and reinvented in the early twelfth century, and that silent meditation was an approach to practice and enlightenment that originated within this "new" Chan tradition. Schlütter has written a refreshingly accessible account of the intricacies of the dispute, which is still reverberating through modern Zen in both Asia and the West. Dahui and his opponents' arguments for their respective positions come across in this book in as earnest and relevant a manner as they must have seemed almost nine hundred years ago. Although much of the book is devoted to illuminating the doctrinal and soteriological issues behind the enlightenment dispute, Schlütter makes the case that the dispute must be understood in the context of government policies toward Buddhism, economic factors, and social changes. He analyzes the remarkable ascent of Chan during

the first centuries of the Song dynasty, when it became the dominant form of elite monastic Buddhism, and demonstrates that secular educated elites came to control the critical transmission from master to disciple ("procreation" as Schlütter terms it) in the Chan School. **Economy, Business and Uncertainty: New Ideas for a Euro-Mediterranean Industrial Policy Springer** This book presents original research articles addressing various aspects of economics, management and optimization. It is the only book available on the market that solely focuses on the principles of high-quality audio codec design for multichannel sound sources. This book includes three parts. The first part covers the basic topics on audio compression, such as quantization, entropy coding, psychoacoustic model, and sound quality assessment. The second part of the book highlights the current most prevalent low-bit-rate high-performance audio coding standards-MPEG-4 audio. More space is given to the audio standards that are capable of supporting multichannel signals, that is, MPEG advance audio coding (AAC), including the original MPEG-2 AAC technology, additional MPEG-4 toolsets, and the most recent aacPlus standard. The third part of this book introduces several innovate multichannel audio coding tools, which have been demonstrated to further improve the coding performance and expand the available functionalities of MPEG AAC, and is more suitable for graduate students and researchers in the advanced level. It doesn't float away like the spoken word. So many modifying adjectives and adverbs, and polarizing interchanges among talking heads, are often useless, even detrimental, to reporting the news. According to the Bureau of Labor Statistics, all newspaper publishers employed 455,000 reporters, salespeople, editors, and the like in 1990. By January, 2017 that workforce had been more than halved, and the slide continues. **Applied Security Visualization Addison-Wesley Professional** Harness new techniques that let you see what is happening on your networks and take decisive action without getting lost in a sea of data. **The Dynamics of Persuasion Communication and Attitudes in the 21st Century** *The Dynamics of Persuasion* provides a comprehensive and up-to-date introduction to persuasive communication and attitude change. America had not yet been pulled into the war in Europe, and we didn't yet know much about that strange little country across the Pacific, known as Japan. As we pick up the story in book two, Ezra is now in his early 20's, working hard for meager pay, and a long way from his family in Illinois and Indiana. He has been to a handful of states, now he thinks he would like to see the world. He enlists in the military and asks to go to the Philippines. He talks about baseball, girls, cars, and drinking, not necessarily in that order. He gets married on Independence Day, and soon after, his country also goes to war. He was on a troopship heading for the Philippines when news came over the radio about Pearl Harbor. It said, "This is not one of those Orson Wells stories like we had on Halloween a couple years before." It said, "This is the real thing." The ship was ordered back to San Francisco. He eventually does get his wish, to go to the Philippines. Come with Ezra as he becomes the wanderer, the man with Government Issue Gypsy blood. With more than 165 pictures, some in color.
