THE PIED PIPER OF TUCSON

Signet Book It was Life and Time magazines that turned a local story from Tucson, Arizona, into a national abomination. Reporters came from all over, to be sure, but on March 4, 1966, Life printed an ominous photo of the desert landscape where three girls had disappeared and the story of Charles Howard Schmid, Jr., or "Smitty," became international news. He had been arrested four months earlier on November 11, just after marrying a fifteen-year-old girl whom he'd met on a blind date. The article was published even before the juries in two separate trials had decided his fate. Dubbed "The Pied Piper of Tucson," for his ability to get girls to fall for him, he stood five feet, four inches tall, but added three more inches by padding his stack-heeled cowboy boots with rags and tin cans. He also dyed his reddish-brown hair black, used pancake make-up, whitened his lips, and applied a fake mole to his left cheek-a "beauty" mark. Arrogant and narcissistic, he came from a wealthy family, so he used the niceties he could buy to impress young high school girls. He adopted the droopy-eyed look associated with Elvis, his idol, and acquired a rock musician's mystique. His tiny house on his parents' property was the scene of many parties. Tucson society was not merely shaken by the murders of three of their young women but by what the details of those murders revealed about its adolescent population-sex clubs, drinking parties, blackmail, cover-ups for murder, and even connections with the crime underworld. Parents suddenly became more strict, more aware now that their kids weren't safe and maybe weren't even behaving properly. When kids looked to someone like Charles Schmid for answers, there was something terribly wrong.

PHILOSOPHY FOR DUMMIES

John Wiley & Sons Philosophy at its best is an activity more than a body of knowledge. In an ancient sense, done right, it is a healing art. It's intellectual self-defense. It's a form of therapy. But it's also much more. Philosophy is map-making for the soul, cartography for the human journey. It's an important navigational tool for life that too many modern people try to do without. *Philosophy For Dummies* is for anyone who has ever entertained a question about life and this world. In a conversational tone, the book's author - a modern-day scholar and lecturer - brings the greatest wisdom of the past into the challenges that we face now. This refreshingly different guide explains philosophical fundamentals and explores some of the strangest and deepest questions ever posed to human beings, such as How do we know anything? What does the word good mean? Are we ever really free? Do human beings have souls? Is there life after death? Is there a God? Is happiness really possible in our world? This book is chock full of all those questions you may have long wanted to think about and talk with someone about, but have never had the time or opportunity to tackle head on. *Philosophy For Dummies* invites you to discuss the issues you find in the guide, share perspectives, and compare thoughts and feelings with someone you respect. You'll find lots of material to mull over with your friends or spouse, including thoughts on When to doubt, and when to doubt our doubts The universal demand for evidence and

proof The four dimensions of human experience Arguments for materialism Fear of the process of dying Prayers and small miracles Moral justification for allowing evil The ancient philosopher Socrates (fifth century, B.C.) thought that, when it comes to the Ultimate Questions, we all start off as dummies. But if we are humbly aware of how little we actually know, then we can really begin to learn. Philosophy For Dummies will put you on the path to wising up as you steer through the experience called life.

THE BEST AND THE BRIGHTEST

Modern Library David Halberstam's masterpiece, the defining history of the making of the Vietnam tragedy, with a new Foreword by Senator John McCain. "A rich, entertaining, and profound reading experience."—The New York Times Using portraits of America's flawed policy makers and accounts of the forces that drove them, *The Best and the Brightest* reckons magnificently with the most important abiding question of our country's recent history: Why did America become mired in Vietnam, and why did we lose? As the definitive single-volume answer to that question, this enthralling book has never been superseded. It is an American classic. Praise for *The Best and the Brightest* "The most comprehensive saga of how America became involved in Vietnam. . . . It is also the Iliad of the American empire and the Odyssey of this nation's search for its idealistic soul. *The Best and the Brightest* is almost like watching an Alfred Hitchcock thriller."—The Boston Globe "Deeply moving . . . We cannot help but feel the compelling power of this narrative. . . . Dramatic and tragic, a chain of events overwhelming in their force, a distant war embodying illusions and myths, terror and violence, confusions and courage, blindness, pride, and arrogance."—Los Angeles Times "A fascinating tale of folly and self-deception . . . [An] absorbing, detailed, and devastatingly caustic tale of Washington in the days of the Caesars."—The Washington Post Book World "Seductively readable . . . It is a staggeringly ambitious undertaking that is fully matched by Halberstam's performance. . . . This is in all ways an admirable and necessary book."—Newsweek "A story every American should read."—St. Louis Post-Dispatch
