THE INVENTION OF COMMUNICATION

U of Minnesota Press A tour of the multiple usages and systems that each historic period puts forth in the name of communication. This genealogy maps the many means by which humans interact - from cataloguing others, to asserting power over them, to working together with them to build new forms of community. Included are topics such as the elaboration of warfare as a logistic; the rise of professional societies of propaganda and national propagation; the history of universal expositions and world fairs; the birth of documentary and film out of physiological investigations in the 19th century; the development of press and the popular novel; and the origins of American social science. The history runs from the circuits of exchange to the circulation of goods, people and messages, from the construction of railroads to the emergence of long-distance communication. The author brings a clarifying perspective to the ideologies and theories that accompany these transformations.

HAGUE YEARBOOK OF INTERNATIONAL LAW: VOL. 4: ANNUAIRE DE LA HAYE DE DROIT INTERNATIONAL 1991

Martinus Nijhoff Publishers This is the fourth volume of the "Hague Yearbook of International Law," which succeeds the Yearbook of the Association of Attenders and Alumni of the Hague Academy of International Law. The title "Hague Yearbook of International Law" reflects the close ties which have always existed between the AAA and the City of The Hague with its international law institutions and indicated the Editors' Intention to devote attention to developments taking place in those international law institutions, viz. the International Court of Justice, the Permanent Court of Arbitration, the Iran-United States Claims Tribunal and the Hague Conference on Private International Law. This volume contains in-depth articles on these developments and summaries of (aspects of) decisions rendered by the International Court of Justice, the Permanent Court of Arbitration and the Iran-United States Claims Tribunal. In addition, the 1991 volume contains the papers of the Thirty-fourth AAA Congress held in Montreal on "Regional Economic Integration" and "Property Rights in International Law."

DEFINING AND REDEFINING SPACE IN THE ENGLISH-SPEAKING WORLD

CONTACTS, FRICTIONS, CLASHES

Cambridge Scholars Publishing Contacts, on the individual and institutional levels and in the political and aesthetic spheres, lead to redefinitions of existing identities through frictions and, sometimes, clashes. Focusing on the material conditions of such contacts,

frictions, and clashes, this volume particularly explores their essentially spatial nature, highlighting the stakes of such definitions and redefinitions of space. Efforts at defining and mapping spaces, physical experiences of contacts, frictions and clashes, tensions between different groups or genres and literary or political competition for space and influence lead to geographical, social, political, and aesthetic, but also bodily and psychological, definitions and redefinitions.

ALLIES THAT COUNT

JUNIOR PARTNERS IN COALITION WARFARE

Georgetown University Press What qualities make an ally useful, and when is an ally more trouble than it's worth? *Allies That Count* analyzes the utility of junior partners in coalition warfare and reaches surprising conclusion. Olivier Schmitt presents detailed case-study analysis of several US allies in the Gulf War, the Kosovo campaign, the Iraq War, and the war in Afghanistan. He also includes a broader comparative analysis of more than two hundred junior partners in various interventions since the end of the Cold War. Schmitt determines which political and military variables are more likely to create utility in an ally, and he challenges the conventional wisdom that having as many states as possible in a coalition is beneficial. This analysis bridges a gap in previous studies about coalition warfare and also contributes to policy debates about a recurring defense dilemma. *Allies That Count* will be of interest to students and scholars of security studies and international relations as well as military practitioners and policymakers.

CARVED IN STONE

THE STORY OF GEORGE DILBOY

Xlibris Corporation Richard Rozakis was born in Somerville, MA during the depression years. As he grew up in the neighborhood where George Dilboy lived, hearing stories from his parents about George Dilboy and representing the family at ceremonies honoring George Dilboy, he developed a lifelong interest in the family hero. After the family relocated to San Francisco, CA there were no official ceremonies on the West Coast but his interest continued. He served in the Korean War, and after discharge became a lifetime member of George Dilboy VFW Post #529 in his hometown of Somerville, MA. He was employed in the wholesale beverage industry in San Francisco for forty years. After moving his young family to San Carlos, he was active in the local PTA fundraiser "Chicken's Ball" and his Masonic lodge. After retirement he researched his family tree and decided to write the *George Dilboy Story*. He lives in San Carlos, CA with his wife. His two children and their families live nearby and have been very helpful in his research.

AMERICAN WAR MACHINE

DEEP POLITICS, THE CIA GLOBAL DRUG CONNECTION, AND THE ROAD TO AFGHANISTAN

Rowman & Littlefield Publishers Scott explores the covert aspects of U.S. foreign policy. He presents compelling evidence to expose the extensive growth of sanctioned but illicit violence in politics and state affairs, especially when related to America's long-standing involvement with the global drug traffic.

27000 ENGLISH-FRENCH WORDS DICTIONARY WITH DEFINITIONS

27000 DICTIONNAIRE DES MOTS ANGLAIS-FRANÇAIS AVEC DÉFINITIONS

THE CONTAMINATION OF THE EARTH

A HISTORY OF POLLUTIONS IN THE INDUSTRIAL AGE

MIT Press *The trajectories of pollution in global capitalism, from the toxic waste of early tanneries to the poisonous effects of pesticides in the twentieth century. Through the centuries, the march of economic progress has been accompanied by the spread of industrial pollution. As our capacities for production and our aptitude for consumption have increased, so have their byproducts--chemical contamination from fertilizers and pesticides, diesel emissions, oil spills, a vast "plastic continent" found floating in the ocean. The Contamination of the Earth offers a social and political history of industrial pollution, mapping its trajectories over three centuries, from the toxic wastes of early tanneries to the fossil fuel energy regime of the twentieth century.*

L'ÉTAT PROFOND AMÉRICAIN

DLL PRESSE DIFFUSION S'appuyant sur plus de quatre décennies de recherches, Peter Dale SCOTT nous offre une analyse inédite de l'"Etat profond américain", un système informel et méconnu, dont l'influence sur l'Histoire contemporaine est absolument majeure. En dehors du cadre légal, cet Etat derrière l'Etat public conditionne secrètement les politiques officielles de Washington - voire les contredit ou les neutralise. Observateur politique de premier plan, SCOTT décrit le processus de militarisation croissante des Etats-Unis, en particulier depuis le 11 Septembre. Il explique également l'origine de la "dérive sécuritaire" (écoutes et surveillance illégales, détentions massives, usage de la torture, assassinats ciblés) et de l'accroissement des inégalités de revenus que connaît ce pays depuis la guerre du Vietnam. L'Etat profond constitue aujourd'hui un système quasi institutionnalisé dans des agences (comme la CIA et la NSA) qui échappent au contrôle démocratique. Mais il ne se limite pas à ces services secrets, et l'auteur décrit notamment l'influence excessive d'entreprises privées telles que Booz Allen Hamilton (l'ex-employeur d'Edward Snowden) et la SAIC : 70 % des budgets du Renseignement aux Etats-Unis étant aujourd'hui sous-traités. Derrière ce système opaque, où la distinction entre "public" et "privé" semble pour le moins ténue, il retrace l'influence traditionnelle des banquiers et des avocats de Wall Street alliés aux "supermajors", les plus grandes compagnies pétrolières internationales. Il explique ainsi comment les pétromonarchies du golfe Persique, les entreprises de défense états-uniennes et Wall Street ont ensemble et progressivement formé un Etat profond supranational - qui mène des politiques parfois radicalement opposées aux intérêts nationaux des Etats-Unis, de son peuple et de ses institutions. Un travail remarquable qui clôt avec brio la trilogie entamée avec *La Route vers le nouvel ordre mondial* et *La Machine de guerre américaine*...

ECONOMIC AND SOCIAL HISTORY OF THE WORLD WAR. (FRENCH SERIES)

NEW PERSPECTIVES ON THE HISTORY OF POLITICAL ECONOMY

Springer *This volume offers a snapshot of the resurgent historiography of political economy in the wake of the ongoing global financial crisis, and suggests fruitful new agendas for research on the political-economic nexus as it has developed in the Western world since the end of the Middle Ages. New Perspectives on the History of Political Economy brings together a select group of young and established scholars from a wide variety of disciplinary backgrounds—history, economics, law, and political science—in an effort to begin a re-conceptualization of the origins and history of political economy through a variety of still largely distinct but complementary historical approaches—legal and intellectual, literary and philosophical, political and economic—and from a variety of related perspectives: debt and state finance, tariffs and tax policy, the encouragement and discouragement of trade, merchant communities and companies, smuggling and illicit trades, mercantile and colonial systems, economic cultures, and the history of economic doctrines more narrowly construed. The first decade of the twenty-first century, bookended by 9/11 and a global financial crisis, witnessed the clamorous and urgent return of both 'the political' and 'the economic' to historiographical debates. It is becoming more important than ever to rethink the historical role of politics (and, indeed, of government) in business, economic production, distribution, and exchange. The artefacts of pre-modern and modern political economy, from the fourteenth through the twentieth centuries, remain monuments of perennial importance for understanding how human beings grappled with and overcame material hardship, organized their political and economic communities, won great wealth and lost it, conquered and were conquered. The present volume, assembling some of the brightest lights in the field, eloquently testifies to the rich and powerful lessons to be had from such a historical understanding of political economy and of power in an economic age.*
