New Dimensions for Educating Youth

A Bicentennial Conference Report

on America's Secondary Schools The Palgrave Handbook of Artistic and Cultural Responses to War since 1914

The British Isles, the United States and Australasia

Springer This handbook explores a diverse range of artistic and cultural responses to modern conflict, from Mons in the First World War to Kabul in the twenty-first century. With over thirty chapters from an international range of contributors, ranging from the UK to the US and Australia, and working across history, art, literature, and media, it offers a significant interdisciplinary contribution to the study of modern war, and our artistic and cultural responses to it. The handbook is divided into three parts. The first part explores how communities and individuals responded to loss and grief by using art and culture to assimilate the experience as an act of survival and resilience. The second part explores how conflict exerts a powerful influence on the expression and formation of both individual, group, racial, cultural and national identities and the role played by art, literature, and education in this process. The third part moves beyond the actual experience of conflict and its connection with issues of identity to explore how individuals and society have made use of art and culture to commemorate the war. In this way, it offers a unique breadth of vision and perspective, to explore how conflicts have been both represented and remembered since the early twentieth century.

Choices and Challenges

Lessons in Faith, Hope, and Love

Wordclay Choices and Challenges is a fresh way of looking at humanity's relationships with God and each other. Based on the concept that while God loves us He does not exist to serve humanity but that we exist to serve God, Alan Greer confronts and debunks the atheistic notion that since our world and its multitude of religions are demonstrably imperfect with each and every one of us not being protected from all harm, God can not exist because if He did He would have prevented all such imperfections. Greer likewise challenges the other extreme that two to four thousand years ago God laid down a series of laws and rules that can not under any circumstances be changed or broken. Instead Greer shows how God has taught us how and when to break those rules in favor of new and better ones. Choices and Challenges demonstrates that God has an ongoing purpose for each of us and for humanity as a whole that stretches into the far distant future.

Waveform Politics

Equilibrium Pattern

Lulu.com "Waveform Politics Volume Four; Equilibrium Pattern begins in the aftermath of the Coalition of the Willing's 2003 war in Iraq continuing to the apocalyptic tsunami of Dec 26, 2004. These essays regard U.S. and world issues from Gary Gibson's point of view as an interested U.S. citizen with a descriptive and prescriptive character. The Waveform Politics series examined social philosophical questions of the relation of an ordinary American citizen to politics: Is it really possible to understand or positively affect complex and interrelated national and international political subjects in real time? The essays were written in a contentious on-line environment and treat a vast survey of public affairs, philosophical, religious and social issues. This author's book was published a few days before the tsunami, which occurred on his birthday. The largest X-Ray stellar event to reach the earth also reached the earth about the 26th of Dec 2004, perhaps accompanied by a gravity wave from the center of the explosive event occurring approximately 50,000 years ago to journey toward the Earth at the speed of light and perhaps eventually help to trigger a tectonic shift causing the giant wave. 697 pages"

A Thousand Points of Light

Page Publishing Inc Beautiful and determined, an outcast Senegalese woman clings relentlessly to dreams of her beloved savior, a lost folklore hero, returning to her from across the ocean. Broken but wise, a devoted griot painfully witnesses and faithfully tells her dogged plight, loving her from afar and mostly in vain. Committed American volunteers zealously navigate a developing culturally rich African country, becoming intimately immersed, and sometimes, unwittingly entangled. Alienated and frustrated, one unsuspecting volunteer bitterly chronicles his uneasy experiences with unsparring criticism. A desperate journey, an unspoken heart, patriotic dedication, and a candid diary lyrically meld into a seamless mystical reality with surprising results. Inspired by his US Peace Corps service during George H. W.

Bush's presidency, A Thousand Points of Light, Marc-Vincent Jackson's insightful debut novel, is an artfully written and engaging tale of interwoven lives and voices in 1980s Senegal. It magically recounts an unappreciated Fatou Ka's burning quest to be reunited with her true love, who turns out to be Malcolm Lavelle King, an unlikely tragic antihero from Los Angeles serving as a disgruntled development volunteer.

Jewish Responses to Anti-Semitism in Germany, 1870-1914

A Study in the History of Ideas

ISD LLC This book is a study of a community under attack, and its goal is to describe, analyze, and illuminate the response of that community to a series of unexpected and deeply threatening developments. Just a few years after achieving full civil emancipation in 1871, the Jews of Germany were confronted with a sudden surge of anti-Jewish hostility different from anything they had ever experienced before. The new "anti-Semitism" (the word was coined at this time) was complex movement emanating from diverse groups in German society and using a variety of tactics and ideological formulations. Dr. Ragins' study is an attempt to understand how the German Jewish community responded to anti-Semitism during the decades before World War I, and, especially, why it reacted as it did. The central argument of the book is that German Jewry defended itself against modern anti-Semitism with all the ideological, legal, and organizational weapons at its disposal, and that the liberal Jews of Germany mounted the best possible defenses which could be achieved in their historical circumstances. Among the topics treated are the emergence of the Centralverein, the attempt to form a common front with the Orthodox community against the anti-Semites, and the responses of Jewish spokesmen to the racial ideologies which made their first appearance in public discussion during this period. Just as Jewish liberation reached what may have been its culmination, however, a serious dissent from the position of the established community was created by the young people of Herzl's Zionist movement, and this dramatically new development is studied in some detail. In analyzing the way in which the first German Zionists responded to anti-Semitism, we understand something about the power as well as the limitations of Jewish liberalism, and we also comprehend the rise of an ideology that was to have great significance in the Jewish future.

Communities in Action

Pathways to Health Equity

National Academies Press In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Working with Young Offenders

Bloomsbury Publishing This book offers a comprehensive and critical account of the changes introduced into the UK youth justice system by the 1998 Crime and Disorder legislation, and its implications for youth justice managers and professionals. It identifies strategies for the practitioner that address the impact of crime, the social predicament of the young offender and the effectiveness of formal and informal mechanisms of social control and social support, thereby showing ways of coming to grips with one of the most serious problems besetting the poorest members of our society.
