GRACE, A FREE RIDE TO HEAVEN?

Lulu.com *Definitions of grace identify one's religious affiliation in Christendom and one's attitude toward Bible content. This book gives the theological development of the word and presents evidence that the word does not mean "unmerited." THURSDAY NIGHT LIGHTS

THE STORY OF BLACK HIGH SCHOOL FOOTBALL IN TEXAS

University of Texas Press *The history of black high school football in segregated Texas: "Though this book is long overdue, it is also right on time." —Texas Observer At a time when "Friday night lights" shone only on white high school football games, African American teams across Texas burned up the gridiron on Wednesday and Thursday nights. Temple Dunbar, Austin Anderson, and other segregated high schools in the Prairie View Interscholastic League—the African American counterpart of the University Interscholastic League, which excluded black schools from membership until 1967—created an exciting brand of football that produced hundreds of outstanding players, many of whom became college All-Americans, All-Pros, and Pro Football Hall of Famers, including NFL greats such as "Mean" Joe Green, Otis Taylor, Dick "Night Train" Lane, Ken Houston, and Bubba Smith. Thursday Night Lights tells the inspiring, largely unknown story of African American high school football in Texas. Drawing on interviews, newspaper stories, and memorabilia, Michael Hurd introduces the players, coaches, schools, and towns where African Americans built powerhouse football programs under the PVIL leadership. He covers fifty years of history, including championship seasons and legendary rivalries such as the annual Turkey Day Classic game between Houston schools Jack Yates and Phillis Wheatley, which drew standing-room-only crowds of up to 40,000. In telling this story, Hurd explains why the PVIL was necessary, traces its development, and shows how football offered a potent source of pride and ambition in the black community, helping black kids succeed both athletically and educationally in a racist society. "[A] groundbreaking book." —Houston Chronicle "In America's current Colin Kaepernick-inspired moment, with sports once again taking on a conspicuous role in debates about black citizenship and the persistence of white racism, this book is especially timely and important." —Great Plains Quarterly*

HAVE YOU SEEN MY SON

Crime Rant Books *Have You Seen My Son? is Jack Olsen's powerful novel of child-snatching and a mother's obsessed hunt for her five-year-old son - "a gripping, intensely moving novel," writes Robert Daley, author of Prince of the City and Year of the Dragon. "The ending left me with tears in my eyes. There is no love like mother love, is there?" And no greater test of it than what Lael Pritcher is about to endure. One cool April day, Mike Pritcher visits the home of his estranged wife, Lael, and takes their son, Ace, for an overnight outing. "She pushed her son's black-rimmed glasses up the slope of his thin nose. He jerked away like a puppy slipping its leash. A giggle, a crunch of gravel, a single wave of a grimy hand, and her only child was gone." Gone - child-snatched, though Lael won't realize that right away, and won't understand what it means even when the police tell her it's a "domestic matter." "You got the right to snatch him back," her lawyer explains. "That's about it." So that's what she sets out to do, in one of the most suspenseful, emotion-wrenching novels in recent years. Have You Seen My Son? is Lael Pritcher's story, as she searches for her son throughout the Northwest, Canada and finally Mexico; an odyssey of near-misses and sudden reversals, searing loneliness and unshakable love, as Lael reaches deep inside herself for a resourcefulness and strength she never knew existed. Combining intimate drama with powerful suspense, this is a story with which every woman - and every man - will identify.*

ABSENT

Jill C. Baker *Carter Sutherland is a think tank executive living near D.C. His world is precise and analytical; his demeanor, reserved. Because he is partially color-blind, his black-and-white perspective is both literal and physical—until he meets client Tracee Green—a synesthete who sees words as colors. When she offers to take him on 4 sensory-rich, cerebral journeys to improve his perception and emotional intelligence, he readily agrees, not sure what to expect. What he encounters is far more astounding than he could imagine. With the power of suggestion and exotic beverages, Tracee guides him to pivotal eras in time where he assumes the personas of Arturo, Arthur, Kar, and RT. With each journey (both sensual and gut-wrenching), he learns about himself and the world around him—insights he applies to a camouflage project at work. There's no denying that Carter is attracted to his vision guide, and the feeling is mutual. Tracee delights in teasing him with innuendos and temptations, leaving him unsure about what is real and not. One thing is certain: his wife, Sarah, isn't thrilled with his visits to the Green Light Foundation. But the storyline changes from an innocent quest of self-discovery to*

something more ominous when Carter notices suspicious activities in the grand Victorian where he is treated. Convinced their operations are a front for something else, he starts to poke around. Dangerous. With the help of his son, an investigative reporter, a subplot is revealed.

FROM LIGHT INTO THE ABYSS

SWINDLING, WEB-CAMS, COLLEGE YOUTH BEHAVING BADLY

AuthorHouse We've ushered in a new era of the outlaw duo Bonnie and Clyde. There are no pistols or shotguns visible, no banks involved, and few if any wanted posters displayed in your local Post Office. The weapon of choice has become the keyboard and laptop computer. It has become a merging bacteria spreading like wildfire perilously and dangerously close to imploding on God's moral laws and His judgment upon this Nation. Call it scams, live sex cams, or our youth behaving badly, its tentacles reach all socioeconomic households in this country. Adding to this mix of immorality we have prostitution, illegal drug smuggling and its use, human slave trafficking, domestic abuse, abortion, same sex marriage, political chicanery, etc. You've just created a cocktail of criminal behavior as in the days of Sodom and Gomorrah. The question then arises out of this storm of immorality is not if; but when God will exact His wrath upon this Nation.

TORTURED LOGIC

WHY SOME AMERICANS SUPPORT THE USE OF TORTURE IN COUNTERTERRORISM

Columbia University Press Experts in the intelligence community say that torture is ineffective. Yet much of the public appears unconvinced: surveys show that nearly half of Americans think that torture can be acceptable for counterterrorism purposes. Why do people persist in supporting torture—and can they be persuaded to change their minds? In *Tortured Logic*, Erin M. Kearns and Joseph K. Young draw upon a novel series of group experiments to understand how and why the average citizen might come to support the use of torture techniques. They find evidence that when torture is depicted as effective in the media, people are more likely to approve of it. Their analysis weighs variables such as the ethnicity of the interrogator and the suspect; the salience of one's own mortality; and framing by experts. Kearns and Young also examine who changes their opinions about torture and how, demonstrating that only some individuals have fixed views while others have more malleable beliefs. They argue that efforts to reduce support for torture should focus on convincing those with fluid views that torture is ineffective. The book features interviews with experienced interrogators and professionals working in the field to contextualize its findings. Bringing empirical rigor to a fraught topic, *Tortured Logic* has important implications for understanding public perceptions of counterterrorism strategy.

FIRST LIGHT AND BEYOND

MAKING A SUCCESS OF ASTRONOMICAL OBSERVING

Springer Amateur astronomers who have been disappointed by the results of an observing session can take comfort in the guidance of this book, which advises how to still gain useful experience in seemingly "failed" nights at the telescope. In a world with imperfect seeing conditions, incredible observing sessions are often mixed with less inspiring ones, discouraging the amateur observer. This book is designed to minimize subsequent disappointment for astronomers who encounter a few bad observing sessions, helping novice observers take something worthwhile away each and every time they go out under the night sky, regardless of the observations that were originally planned. Almost every observer remembers his first sight of ringed Saturn, hanging in the blackness of space. Practitioners agree that there is something special about visual observing. Real-time observations at the eyepiece can provide fleeting yet intense feelings that connect us with the universe in unique ways. But when expectations aren't met at the eyepiece, there are other ways to profit from the practice of astronomy. These rewards, though less showy, are well worth cultivating. This is a book that will help the reader see what constitutes a "successful" visual observing session. It explains the nature of the objects that the observer is seeing and advises how best to use their equipment. There are many hints and tips about how best to locate, recall, and record observations, including suggestions for trips to areas where there are dark skies and to public observatories. Amateur astronomy is a journey from the urban backyard all the way to dark rural skies, and with this guide the journey can be smooth.

STOLEN CONSCIENCE

IKECHUKWU JOSEPH It was drizzling that Sunday morning when some sympathetic crowd gathered at the River Valley dumpsite - some crying, some others angry. No one could help. The dumpsite lay adjacent to the river, apparently for ease of evacuation of waste through the waterway. It was the helpless, pathetic, strange cry of a Dumpster baby and growling of some creatures that drew the attention of passersby. ... An unknown mother had intentionally wrapped her baby securely and placed him in an iron cage - ...with a note boldly written, "Take care of my baby." With the top of the cage properly covered from rain and sun, she placed the cage where the prowling eyes of Government waste disposal scavengers would see it. At least the unknown mother still had a mother's bowel of mercy and protective milk of compassion. But unfortunately, the wrong guys, the reptiles got there first. "Stolen Conscience" is book one of *Political Scavengers Series* and is about a dystopian state, a totalitarian government's abuse of power. The Supreme Leader's domination, manipulation and control of the people. A story of misuse of technology, drugs in population control, gene mutation, oppressive regime, press censorship, human right violations, secret police and secret killings and their repercussions. How a young man, Aaron Bo of unknown origin led a revolution that deposed the oppressor who was rejected by the cult that installed him. His punishment was that he was declared a scavenger. Rejected by his cult, people and God.
