Weaving Made Easy

17 Projects Using a Simple Loom

F+W Media, Inc. The weaving expert and author of *Handwoven Home* crafts a beginner's guide that's "destined to become a classic reference book . . . stellar!" (*Blisstree.com*). *Weaving Made Easy* is the beginning weavers' ultimate guide to making fun, simple, and functional weaving projects from start to finish. It features seventeen simple projects made on the rigid heddle loom, a small, portable, and affordable weaving loom. *Weaving Made Easy* includes: A step-by-step guide on getting started weaving; weaving vocab 101, tools and materials explained, the basics of warp and weft, and how to start weaving Clear instructions for how to make various practical fabrics, from drapery to sturdy scarves and bags to belts, placemats, rugs, and more Tips and techniques for color, design, construction, and embellishment in weaving are also included. With clear, concise step-by-step photographs and instructions, this is the ideal book for beginning weavers. "Most of the featured projects are designed with either earth or jewel tones, causing the woven stitches to pop from the pages of the book." —*Detroit News* "Gipson focuses on inexpensive, easy-to-use rigid heddle looms in this much-needed addition, including an extensive overview of weaving basics and a collection of accessible, attractive patterns." —*Library Journal*

The Weaver's Idea Book

Creative Cloth on a Rigid Heddle Loom

Penguin New and experienced weavers alike are always on the lookout for new weave-structure patterns. *The Weaver's Idea Book* presents a wide variety of patterns for the simple rigid-heddle loom, accompanied by harness drafts for multishaft looms. The techniques include leno, Brooks bouquet, soumak, and embroidery on fabric. Each chapter contains weaving patterns along with swatches illustrating the techniques, accompanied by step-by-step photography. The book is arranged by structure or type of weave, from variations on plain weave to doubleweave. With traditional patterns from around the world, bands, and fabrics woven on two double heddles, *The Weaver's Idea Book* brings together a variety of ways to create exquisite cloth. Weaving tips and tricks help weavers at all levels achieve their textile dreams. In addition to pattern drafts, Jane offers project ideas that guide the reader through creating functional woven projects, from wearables to home decor. Weaving, especially on rigid-heddle looms, is enjoying a resurgence, and contemporary weavers are in need of a book to bridge the divide between basic books and complex text designed for advanced weavers with sophisticated tools. Celebrating the immense potential for creativity possible with the simplest of tools, *The Weaver's Idea Book* eBook opens new avenues for exploration on both the rigid-heddle and multishaft looms.

The Ice-Cream Makers

A Novel

Simon and Schuster In the far north of Italy lies the valley of the ice-cream makers: about a dozen villages where, for generations, people have specialised in making ice cream. Giuseppe Talamini claims it was actually invented here. Every spring his family sets off for the ice-cream parlour in Rotterdam, returning to the mountains only in winter. Eldest son Giovanni Talamini decides to break with this tradition by pursuing a literary career. But then one day his younger brother Luca approaches him with a highly unusual request. Now Giovanni faces a dilemma: serve the family's interests one last time or choose his own path in life, once and for all.

The Fog of Peace

A Memoir of International Peacekeeping in the 21st Century

Brookings Institution Press No small number of books laud and record the heroic actions of those at war. But the peacekeepers? Who tells their stories? At the beginning of the 1990s, the world exited the cold war and entered an era of great promise for peace and security. Guided by an invigorated United Nations, the international community set out to end conflicts that had flared into vicious civil wars and to unconditionally champion human rights and hold abusers responsible. The stage seemed set for greatness. Today that optimism is shattered. The failure of international engagement in conflict areas ranging from Afghanistan to Congo and Lebanon to Kosovo has turned believers into skeptics. The Fog of Peace is a firsthand reckoning by Jean-Marie Guéhenno, the man who led UN peacekeeping efforts for eight years and has been at the center of all the major crises since the beginning of the 21st century. Guéhenno grapples with the distance between the international community's promise to protect and the reality that our noble aspirations may be beyond our grasp. The author illustrates with personal, concrete examples—from the crises in Afghanistan, Iraq, Congo, Sudan, Darfur, Kosovo, Ivory Coast, Georgia, Lebanon, Haiti, and Syria—the need to accept imperfect outcomes and compromises. He argues that nothing is more damaging than excessive ambition followed by precipitous retrenchment. We can indeed save many thousands of lives, but we need to calibrate our ambitions and stay the course.

The Evolution of American Urban Society

Prentice Hall In over three centuries of growth and change, American cities have exerted forces that have been both centrifugal -- pulling people, resources, and interest toward them -- and centripetal -- sending out goods, services, and ideas. The story of how these forces evolved over time encompasses almost every aspect of American history. Always cognizant of change over time, this

book explores the ways that urban development influenced people's lives and on the ways people shaped the urban environment. A city is simultaneously a social, economic, and political entity, and Howard P. Chudacoff and Judith E. Smith have taken care to examine each of these dimensions of urban life. Their focus is on urban society: its institutions, its activities, and, especially, its people. In this, the Sixth Edition, Chudacoff and Smith pay particular attention to issues of race, ethnicity, gender, the built environment, regional differentials, and emerging cultural forms such as rock and rap music. New material has been added on the environmental impact of cities and suburbs and on the new racial and ethnic mix produced by the most recent immigration trends. In addition, the final chapter has been expanded to take into account issues relating to the presidential administration of George W. Bush and to the consequences of the terrorist attacks of September 11, 2001. Book jacket.

Jock Sturges

New Work 1996-2000

Scalo Verlag Ac Building on his first monograph, Jock Sturges presents us with a new body of work that strikes the same chords of beauty and evolution that we find in his earlier images, but with a more intense dramatic and metaphoric intention. His new work often has an almost theatrical effect on the viewer -- seeming to emanate directly from the lives of the artist's models. The settings, the subjects, the sumptuous lighting will all be familiar to longtime admirers of Sturges' ongoing body of work. As his experience as a photographer has deepened and his relationships with his growing subjects spans decades of collaboration, both subjects and photographer have found more to say to each other. The new photographs include diptychs of clothed/nude models, pictures of true mutual trust, as well as never-before seen color photographs! This large format book takes direct aim at Jock Sturges' long-standing vision as his large format, 8x10 view-camera always demanded the large exhibition prints that were to follow. Thanks to the brilliant combination of computer-driven advances in modern printing techniques and the old-world attention to detail and craftsmanship, this book sets a new standard for the reproduction of artworks.

Orbit Books For decades now Gardner Dozois has been presenting his annual selection of the very best of recently published SF stories, both by undisputed masters of the genre and by outstanding up-and-coming writers. It has been voted Year's Best Anthology by the readers of Locus magazine an unparalleled eighteen times and remains the definitive anthology for both diehard sci-fi fans and newcomers to the genre. Without fail, Dozois pinpoints the previous year's most exciting and ambitious science fiction, showcasing truly exceptional contemporary writing. This year's collection is better than ever, comprising 33 fantastic stories by writers of the calibre of Robert Reed, Aliette de Bodard, Alastair Reynolds, Carrie Vaughn, Ian R. MacLeod and Jay Lake. The Mammoth Book of Best New SF 27 includes, as ever, Dozois's extensive recommended reading guide and his illuminating and incisive summation of the year in science fiction. Praise for previous editions: 'This annual compilation of the previous year's best short stories and novellas, together with a comprehensive summation of the state of the genre and an extensive "honourable mentions" list, has become an institution over the past three decades.' Guardian 'Quantity as well as quality . . . every piece is a treasure.' The Times 'For more than a quarter century, Gardner Dozois's Mammoth Book of Best New SF has defined the field. It is the most important anthology, not only annually, but overall.' Charles N. Brown, publisher of Locus 'New authors rub shoulders with old hands, and strong work from relative novices Hannu Rajaniemi and Lavie Tidhar suggest that SF's future is as bright as ever.' Financial Times 'The most respected editor in the field.' George R. R. Martin
