**The Rainbow Swastika Conspiracy Lulu.com** *The 1930's Depression was fertile ground for Hitler's rise to power and now a 21st century world leader is arising against a background of dwindling energy resources, global warming, religious extremism, financial meltdown and the growing economic power of China, India and Saudi Arabia. David Wolfe, a Jewish sculptor, is caught up in Jewish, Christian, Muslim, Hindu and Buddhist prophecies, about Messiahs and the end of the world. He embarks on a global journey around art galleries, archaeological digs, business headquarters and religious sites. Based on a true story, this novel exposes the battle between East and West, to uncover the Rainbow Swastika Conspiracy. The book is based on Padgett's work for the Palestinian Department of Antiquities, his award winning sculpture Zoroastrian Icarus, his lectures in New York and at Tate Modern, his 2 year Tribunal case against Mr Tony Blair and the Tate Galleries, and on his prophecies made on the 7th day of the 7th month of the year 2007.*

**7.7.7. Rainbows End A Novel with One Foot in the Future Tor Books** *Four time Hugo Award winner Vernor Vinge has taken readers to the depths of space and into the far future in his bestselling novels A Fire Upon the Deep and A Deepness in the Sky. Now, he has written a science-fiction thriller set in a place and time as exciting and strange as any far-future world: San Diego, California, 2025. Robert Gu is a recovering Alzheimer's patient. The world that he remembers was much as we know it today. Now, as he regains his faculties through a cure developed during the years of his near-fatal decline, he discovers that the world has changed and so has his place in it. He was a world-renowned poet. Now he is seventy-five years old, though by a medical miracle he looks much younger, and he's starting over, for the first time unsure of his poetic gifts. Living with his son's family, he has no choice but to learn how to cope with a new information age in which the virtual and the real are a seamless continuum, layers of reality built on*

digital views seen by a single person or millions, depending on your choice. But the consensus reality of the digital world is available only if, like his thirteen-year-old granddaughter Miri, you know how to wear your wireless access—through nodes designed into smart clothes—and to see the digital context—through smart contact lenses. With knowledge comes risk. When Robert begins to re-train at Fairmont High, learning with other older people what is second nature to Miri and other teens at school, he unwittingly becomes part of a wide-ranging conspiracy to use technology as a tool for world domination. In a world where every computer chip has Homeland Security built-in, this conspiracy is something that baffles even the most sophisticated security analysts, including Robert's son and daughter-in law, two top people in the U.S. military. And even Miri, in her attempts to protect her grandfather, may be entangled in the plot. As Robert becomes more deeply involved in conspiracy, he is shocked to learn of a radical change planned for the UCSD Geisel Library; all the books there, and worldwide, would cease to physically exist. He and his fellow re-trainees feel compelled to join protests against the change. With forces around the world converging on San Diego, both the conspiracy and the protest climax in a spectacular moment as unique and satisfying as it is unexpected. This is science fiction at its very best, by a master storyteller at his peak. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. **Gravity's Rainbow Penguin** Winner of the 1974 National Book Award "A screaming comes across the sky. . ." Scientist and journalist Arthur Firstenberg disrupts this conviction by telling the story of electricity in a way it has never been told before--from an environmental point of view--by detailing the effects that this fundamental societal building block has had on our health and our planet. In *The Invisible Rainbow*, Firstenberg traces the history of electricity from the early eighteenth century to the present, making a compelling case that many environmental problems, as well as the major diseases of industrialized civilization--heart disease, diabetes, and cancer--are related to electrical pollution. **The Montauk Project - Experiments in Time Silver Anniversary Edition Sky Books (NY)** Personal story of Preston Nichols and how radar was used to manipulate matter and time itself beginning with the Philadelphia Experiment and was further

**Conspiracies of Conspiracies How Delusions Have Overrun America**  
**University of Chicago Press** It's tempting to think that we live in an unprecedentedly fertile age for conspiracy theories, with seemingly each churn of the news cycle bringing fresh manifestations of large-scale paranoia. But the sad fact is that these narratives of suspicion—and the delusional psychologies that fuel them—have been a constant presence in American life for nearly as long as there's been an America. In this sweeping book, Thomas Milan Konda traces the country's obsession with conspiratorial thought from the early days of the republic to our own anxious moment. *Conspiracies of Conspiracies* details centuries of sinister speculations—from antisemitism and anti-Catholicism to UFOs and reptilian humanoids—and their often incendiary outcomes. Rather than simply rehashing the surface eccentricities of such theories, Konda draws from his unprecedented assemblage of conspiratorial writing to crack open the mindsets that lead people toward these self-sealing worlds of denial. What is distinctively American about these theories, he argues, is not simply our country's homegrown obsession with them but their ongoing prevalence and virulence. Konda proves that conspiracy theories are no harmless sideshow. They are instead the dark and secret heart of American political history—one that is poisoning the bloodstream of an increasingly sick body politic.

**Sexual Jihad**  
**CreateSpace** *Sexual Jihad* is an adult, adventure, fiction novel about the world's top ranked female tennis players. They are kidnapped in an act of modern Jihad or Holy War. In Islam, this makes them sexual slaves of the devout man who captures them. The girls vanish the night before the Finals at the U.S. Open in New York. The Sheik has them drugged and shipped around the globe to Bam-e Dunya, "Roof of the World," in isolated, rugged mountains of Afghanistan's Wakhan Corridor, once part of the Silk Road to China. He keeps them in an old lion-act cage, plans to make sons with them for the coming Caliphate. Despite three wives, he lacks a son. His lineage, which goes back 1500 years, will end without a male heir. An ardent tennis fan, Sheik Prince revives the old Islamic practice, inspired by current Muslim fundamentalist scholars. The lion cage is hidden in Stable Cave Mountain, where his Golden Lion tribe was founded. The girls' situation seems hopeless. The Sheik allows them to play their final in an adjoining tennis cage. He puts on a festive camel roast to show them off and promote Sexual Jihad. An Oxford grad, handsome, confident, he videos the marathon, no-tie-break match and distributes it. Other sheiks ogle the girls, then plan to target desirable Infidel females around

the globe. Yet, in his culture, Prince, who educates tribe girls as well as boys, and bans FGM, (female genital mutilation), is considered a hero by Muslim females. Devout, loving wives support his Jihad project to make babies in a cage, "with those his right hand doth possess." **Memoirs of a Muppets Writer (You Mean Somebody Actually Writes That Stuff?)** In his 20 year affiliation with Jim Henson's Muppets Joseph A. Since before the start of this century, evidence has mounted that space is not empty. Space is filled with quantum vacuum fluctuations called zero-point energy, and this energy is a modern form of aether. Most of the physics of the past century, which led to today's standard model, fails to account for this modern aether. In relativity theory there are two types of relativity, one that includes aether and one that rejects it. Physicists choose poorly and wrongly champion the theory that rejects the modern aether. Even though many theories like this are now known to be invalid, physicists still cling to the physics of the past. The mainstream physics of the last century is a complete disaster due to physicists' failure to incorporate zero-point energy into their explanations of forces and every day phenomena. The 100 Greatest Lies in Physics catalogs many of the most outrageous mistakes in physics in hopes that physicists will do their jobs and stop lying to everyone. **The Root of Suffering Is Attachment Mindful Word** This 200-page journal is named after one of the Buddha's most famous quotes, and one of his primary teachings: "The Root of Suffering is Attachment." *white-colored paper Perfect bound 10 pt glossy cover* **The Greatest Lie on Earth Proof That Our World Is Not a Moving Globe**  
**Edward Hendrie** *This book reveals the mother of all conspiracies. It sets forth biblical proof and irrefutable evidence that will cause the scales to fall from your eyes and reveal that the world you thought existed is a myth. The most universally accepted scientific belief today is that the earth is a globe, spinning on its axis at a speed of approximately 1,000 miles per hour at the equator, while at the same time it is orbiting the sun at approximately 66,600 miles per hour. All of this is happening as the sun, in turn, is supposed to be hurtling through the Milky Way galaxy at approximately 500,000 miles per hour. The Milky Way galaxy, itself, is alleged to be racing through space at a speed ranging from 300,000 to 1,340,000 miles per hour. What most people are not told is that the purported spinning, orbiting, and speeding through space has never been proven. In fact, every scientific experiment that has ever been performed to determine the motion of the earth has proven that the earth is stationary. Yet, textbooks ignore the scientific proof that contradicts the myth of a spinning and orbiting globe. Christian schools have been hoodwinked into teaching heliocentrism, despite the clear teaching in the bible that the earth is not a sphere and does not move. This book reveals the evil forces behind the heliocentric deception, and why scientists and the Christian churches have gone along with it.*
