Cicero Tusculan disputations. Vol. 18 in twenty-eight volumes. [Vol.] 18. Tusculan disputations. (Tusculanarum disputationum). Transl. by J. E. King. (Repr.). The Tusculan Disputations of Cicero. [Translated by W. H. Main.] An Account of Col. Crockett's Tour to the North and Down East In the Year of Our Lord One Thousand Eight Hundred and Thirty-four. His Object Being to Examine the Grand Manufacturing Establishments of the Country; and Also to Find Out the Condition of Its Literature and Morals, the Extent of Its Commerce, and the Practical Operation of "The Experiment" ... Beware the Evil Eye Volume 2 The Evil Eye in the Bible and the Ancient World—Greece and Rome Wipf and Stock Publishers In the present volume, Elliott addresses the most extensive sources of Evil Eye belief in antiquity--the cultures of Greece and Rome. In this period, features of the belief found in Mesopotamian and Egyptian sources are expanded to the point where an "Evil Eye belief complex" becomes apparent. This complex of features associated with the Evil Eye--human eye as key organ of information, eye as active not passive, eye as channel of emotion and dispositions, especially envy, arising in the heart, possessors, victims, defensive strategies, and amulets--is essential to an understanding of the literary references to the Evil Eye. This volume, along with chapter 2 of volume 1, sets and illuminates the context for examining Evil Eye belief and practice in the Bible and the biblical communities (the focus of volume 3). Beware the Evil Eye, 4-Volume Set The Evil Eye in the Bible and the Ancient World Wipf and Stock Publishers In the Sermon on the Mount, Jesus of Nazareth makes reference to one of the oldest beliefs in the ancient world--the malignity of an Evil Eye. The Holy Scriptures in their original languages contain no less than twenty-four references to the Evil Eye, although this is obscured by most modern Bible translations. John H. Elliott's Beware the Evil Eye describes this belief and associated practices, its history, its

voluminous appearances in ancient cultures, and the extensive research devoted to it over the centuries in order to unravel this enigma for readers who have never heard of the Evil Eye and its presence in the Bible. The four volumes cover the ancient world from Sumer to the Middle Ages. Cicero's *Tusculan Disputations* Also *Treatises On the Nature of the Gods, and On the Commonwealth* Time in Antiquity *Routledge* Time in Antiquity explores the different perceptions of time from Classical antiquity, principally through the technology designed to measure, mark or tell time. The material discussed ranges from the sixth century BC in archaic Greece to the 3rd century AD in the Roman Empire, and offers fascinating insights into ordinary people's perceptions of time and time-keeping instruments. *Abandoned to Lust Sexual Slander and Ancient Christianity* *Columbia University Press* Through careful, innovative readings, Jennifer Knust explores the writings of Paul, Justin Martyr, Irenaeus of Lyons, and other early Christian authors who argued that Christ alone made self-mastery possible. Rejection of Christ led to both immoral sexual behavior and, ultimately, alienation and punishment from God. Knust considers how Christian writers participated in a long tradition of rhetorical invective, a rhetoric that was often employed to defend status and difference. Christians borrowed, deployed, and reconfigured classical rhetorical techniques, turning them against their rulers to undercut their moral and political authority. Knust also examines the use of accusations of licentiousness in conflicts between rival groups of Christians. Portraying rival sects as depraved allowed accusers to claim their own group as representative of "true Christianity." *Pursuits of Wisdom Six Ways of Life in Ancient Philosophy from Socrates to Plotinus* *Princeton University Press* This is a major reinterpretation of ancient philosophy that recovers the long Greek and Roman tradition of philosophy as a complete way of life--and not simply an intellectual discipline. Distinguished philosopher John Cooper traces how, for many ancient thinkers, philosophy was not just to be studied or even used to solve particular practical problems. Rather, philosophy--not just ethics but even logic and physical theory--was literally to be lived. Yet there was great disagreement about how to live philosophically: philosophy was not one but many, mutually opposed, ways of life. Examining this tradition from its establishment by Socrates in the fifth century BCE through Plotinus in the third century CE and the eclipse of pagan philosophy by Christianity, *Pursuits of Wisdom* examines six central philosophies of living--Socratic, Aristotelian, Stoic, Epicurean, Skeptic, and the Platonist life of late antiquity. The book describes the shared assumptions that allowed these thinkers to conceive of their philosophies as ways of life, as well as the distinctive ideas that led them to widely different conclusions about the best human life. Clearing up many common misperceptions and simplifications, Cooper explains in detail the Socratic devotion to philosophical discussion about human nature, human life, and human good; the Aristotelian focus on the true place of humans within the total system of the natural world; the Stoic commitment to dutifully

accepting Zeus's plans; the Epicurean pursuit of pleasure through tranquil activities that exercise perception, thought, and feeling; the Skeptical eschewal of all critical reasoning in forming their beliefs; and, finally, the late Platonist emphasis on spiritual concerns and the eternal realm of Being. Pursuits of Wisdom is essential reading for anyone interested in understanding what the great philosophers of antiquity thought was the true purpose of philosophy--and of life. The Gentleman in Black Cicero on the Emotions Tusculan Disputations 3 and 4 *University of Chicago Press* The third and fourth books of Cicero's Tusculan Disputations deal with the nature and management of human emotion: first grief, then the emotions in general. In lively and accessible style, Cicero presents the insights of Greek philosophers on the subject, reporting the views of Epicureans and Peripatetics and giving a detailed account of the Stoic position, which he himself favors for its close reasoning and moral earnestness. Both the specialist and the general reader will be fascinated by the Stoics' analysis of the causes of grief, their classification of emotions by genus and species, their lists of oddly named character flaws, and by the philosophical debate that develops over the utility of anger in politics and war. Margaret Graver's elegant and idiomatic translation makes Cicero's work accessible not just to classicists but to anyone interested in ancient philosophy and psychotherapy or in the philosophy of emotion. The accompanying commentary explains the philosophical concepts discussed in the text and supplies many helpful parallels from Greek sources. This neglect is somewhat surprising given the fact that Kierkegaard was extremely well read in Latin from his early youth when he attended the Borgerdyd School in Copenhagen. Kierkegaard's interest in the Roman authors is perhaps best evidenced by his book

collection. In his private library he had a long list of Latin titles and Danish translations of the standard Roman authors in any number of different genres. His extensive and frequent use of writers such as Cicero, Horace, Terence, Seneca, Suetonius and Ovid clearly warrants placing them in the select group of his major sources. The chapters in this volume demonstrate that Kierkegaard made use of the Roman sources in a number of different ways. His readings from the Borgerdyd school seem to have stuck with him as an adult. He constantly refers to Roman authors, such as Livy, Nepos, and Suetonius for colourful stories and anecdotes. In addition, he avails himself of pregnant sayings or formulations from the Roman authors, when appropriate. But his use of these authors is not merely as a rhetorical source. He is also profoundly interested in the Roman philosophy of Cicero, Seneca and Marcus Aurelius. Similarly, just as he is fascinated by Tacitus' portrayal of the early Christians, so also he is amused by the humour of Terence and Apuleius. In short, the Roman authors serve to enrich any number of different aspects of Kierkegaard's authorship with respect to both content and form. The articles may be of substantial length, and include critical notices of major books. OSAP is now published twice yearly, in both hardback and paperback. "Have you seen the latest OSAP?" is what scholars of ancient philosophy say to each other when they meet in corridors or on coffee breaks. Whether you work on Plato or Aristotle, on Presocratics or sophists, on Stoics, Epicureans, or Sceptics, on Roman philosophers or Greek Neoplatonists, you are liable to find OSAP articles now dominant in the bibliography of much serious published work in your particular subject: not safe to miss." - Malcolm Schofield, Cambridge University "OSAP was founded to provide a place for long pieces on major issues in ancient philosophy. In the years since, it has fulfilled this role with great success, over and over again publishing groundbreaking papers on what seemed to be familiar topics and others surveying new ground to break. It represents brilliantly the vigour--and the increasingly broad scope--of scholarship in ancient philosophy, and shows us all how the subject should flourish." - M.M.
