Toyota Production System

An Integrated Approach to Just-In-Time

Springer Science & Business Media The just-in-time (JIT) manufacturing system is an internal system in use by its founder, Toyota Motor Corporation, but it has taken on a new look. Toyota Production System, Second Edition systematically describes the changes that have occurred to the most efficient production system in use today. Since the publication of the first edition of this book in 1983, Toyota has integrated JIT with computer integrated manufacturing technology and a strategic information system. The JIT goal of producing the necessary items in the necessary quantity at the necessary time is an internal driver of production and operations management. The addition of computer integrated technology (including expert systems by artificial intelligence) and information systems technology serve to further reduce costs, increase quality, and improve lead time. The new Toyota production system considers how to adapt production schedules to the demand changes in the marketplace while satisfying the goals of low cost, high quality, and timely delivery. The first edition of this book, Toyota Production System, published in 1983, is the basis for this book. It was translated into many languages including Spanish, Russian, Italian, Japanese, etc., and has played a definite role in inspiring production management systems throughout the world.

Unstoppable

Unstoppable is a word defined as "difficult or impossible to preclude or stop." As a human quality, it is something that we associate with people such as sports superstars, those who do whatever it takes to inspire others and lead teams to the greatest of victories. Sometimes, an idea or person can become unstoppable. Unstoppable, like Charles Lindbergh crossing the Atlantic in a solo flight when no one had thought it was possible, or track star Roger Bannister breaking the four-minute mile barrier. Not everyone can be an explorer or a great athlete, but anyone can be unstoppable in their chosen endeavors in life. If you are willing to possess an unwavering determination to succeed and a consistent willingness to learn and evolve, you can become unstoppable and triumph too. This book is about a personal struggle, one in which the author awoke from a coma after a terrible accident and faced a life of permanent paralysis. A long battle of driven determination resulted in Yanni Raz regaining his health and becoming a self-made millionaire after migrating from his native Israel to the United States. Through careers as a musician, a Starbucks barista, a salesman, a real estate whiz, a professional poker player

and a hard money lender, Yanni learned reliable principles and the skills necessary for success. *Unstoppable* covers many topics including controlling your life, making the best decisions, creating new opportunities, properly assessing signals, expertly negotiating, and succeeding by storytelling across the media landscape. You'll learn about integrity in business, asset diversification, and many other life tips that thousands of people learn from Yanni on a daily basis. It is time to become fearless and lead a powerful life. With Yanni's new book *Unstoppable*, you can do just that.

Kingdom of Twilight

MacLehose Press A "powerful and original" (*The Times*) historical saga that follows the quest for identity, redemption and home in the wake of World War II. One night in autumn 1944, a gunshot echoes through the alleyways of a small town in occupied Poland. An SS officer is shot dead by a young Polish Jew, Margarita Ejenstain. In retaliation, his commander orders the execution of thirty-seven Poles--one for every year of the dead man's life. First hidden by a sympathetic German couple, Margarita must then flee the brutal advance of the Soviet army with her newborn baby. So begins a thrilling panorama of intermingled destinies and events that reverberate from that single act of defiance. *Kingdom of Twilight* follows the lives of Jewish refugees and a German family resettled from Bukovina, as well as a former SS officer, chronicling the geographical and psychological dislocation generated by war. A quest for identity and truth takes them from refugee camps to Lübeck, Berlin, Tel Aviv, and New York, as they try to make sense of a changed world, and of their place in it. Hypnotically lyrical and intensely moving, Steven Uhly's epic novel is a finely nuanced yet shattering exploration of universal themes: love, hatred, doubt, survival, guilt, humanity, and redemption.

Poetic Licence

People-smuggling, high-level corruption and murder test the boundaries of truth and freedom. Fremantle, early 21st century. Within the space of a few days there is a murder, the mysterious appearance of an asylum-seeker, the announcement of an impending election and a chill crawling around Art Lazaar's belly that is a feeling of a different evil. Art Lazaar is a writer with a poetic licence that ties him to a past he can't escape. He works in the shadows for an unknown government agency while doubling as an academic. In the week the election is announced, he receives a call from an enigmatic homeless man connected to that same past: he must protect a young asylum seeker running from those who murdered her brother. It's not a request he can refuse. As the situation escalates, Lazaar is threatened with arrest, kidnapped, tortured and left for dead in the street, while the suspects disappear, die, or leave the country in the nick of time until he is left with no choice, a buried truth, and the only weapon in his arsenal ? Spellbinding, suspenseful, populated by complex characters in a world deeply etched in our psyches, this thrilling, propulsive story does not let the politics of truth and freedom rest easily.

The Coffin Confessor

[Penguin Group Australia](#) *Imagine you are dying with a secret. Something you've never had the courage to tell your friends and family. Or a last wish – a task you need carried out before you can rest in peace. Now imagine there's a man who can take care of all that, who has no respect for the living, who will do anything for the dead. Bill Edgar is the Coffin Confessor – a one-of-a-kind professional, a man on a mission to make good on these last requests on behalf of his soon-to-be-deceased clients. And this is the extraordinary story of how he became that man. Bill has been many things in this life: son of one of Australia's most notorious gangsters, homeless street-kid, maximum-security prisoner, hard man, family man, car thief, professional punching bag, philosopher, inventor, private investigator, victim of horrific childhood sexual abuse and an activist fighting to bring down the institutions that let it happen. A survivor. As a little boy, he learned the hard way that society is full of people who fall through the cracks – who die without their stories being told. Now his life's work is to make sure his clients' voices are heard, and their last wishes delivered: the small-town grandfather who needs his tastefully decorated sex dungeon destroyed before the kids find it. The woman who endured an abusive marriage for decades before finding freedom. The outlaw biker who is afraid of nothing . . . except telling the world he is in love with another man. The dad who desperately needs to track down his estranged daughter so he can find a way to say he's sorry, with one final gift. Confronting and confounding, heartwarming and heartbreaking, *The Coffin Confessor* is a compelling story of survival and redemption, of a life lived on the fringes of society, on both sides of the law – and what that can teach you about living your best life . . . and death.*

Political Memory in and After the Persian Empire

[SBL Press](#) *Various disciplines that deal with Achaemenid rule offer starkly different assessments of Persian kingship. While Assyriologists treat Cyrus's heirs as legitimate successors of the Babylonian kings, biblical scholars often speak of a "kingless era" in which the priesthood took over the function of the Davidic monarch. Egyptologists see their land as uniquely independently minded despite conquests, while Hellenistic scholarship tends to evaluate the interface between Hellenism and native traditions without reference to the previous two centuries of Persian rule. This volume brings together in dialogue a broad array of scholars with the goal of seeking a broader context for assessing Persian kingship through the anthropological concept of political memory.*
