The Adventures of Sharing the Gospel with Canadian Indians (Updated Edition. Includes Original Illustrations.)

Aneko Press To be a missionary to Canadian Indians in the late 1800s meant you had to be brave and relentless. It meant nearly freezing when sleeping outside in 50-below-zero weather. It meant canoeing upstream for hundreds of miles to reach remote Indian villages. It meant eating wild cat and other stranger things, or eating nothing for days at a time. But it also meant you were privileged to present the good news of the true Great Spirit to those who were often misunderstood and mistreated. The adventures in this book are rivaled only by the incredible conversions of those who saw the Creator in nature and then worshipped Him too. You will be challenged and inspired by the results of one man who went where the Lord led, with little regard for himself.

As a result, the game has become a shadow of its former glory, with victory usually going to the team with the best kicks and gear rather than the best skills. In response to the game's fall from grace, a mysterious street ball team has started scouting players with true natural talents to put end to the games polluted by the pretenders.

Risking who One is

Encounters with Contemporary Art and Literature

Harvard University Press To write about your contemporaries, whose work is enmeshed in the stuff of your life, maybe even in the weave of your self, is risky business. Your interest may be too personal, your involvement too close - but this, as Susan Suleiman demonstrates here, is precisely what makes such a critical encounter worthwhile. Risking Who One Is shows how the process of self-recognition, even self-construction, in the reading of contemporary work can lead to larger considerations about culture and society - to the dimensions of historical awareness and collective action. The book gives us a new way of looking at issues that are as personal as they are prevalent in the writing, the criticism, and the life of our times. Through subtle and incisive readings of Simone de Beauvoir, Mary Gordon, Julia Kristeva, Richard Rorty, Helene Cixous, Leonora Carrington, Max Ernst, Angela Carter, Elie Wiesel, and others, we observe Suleiman in a fascinating dialogue with those who share her place and time and whose interests and preoccupations meet her own. Suleiman confronts with them the conflicts between writing and motherhood. Together, they inquire into "being postmodern" and explore the connections between creativity and love. They consider the place of beauty in contemporary art, examine the relations between aesthetics and politics, and reflect on haunting memories of World War II. Through Suleiman's encounter with them, these writers and artists enter an exchange with each other, and with us as readers, that opens new perspectives on the representation of women's lives, history and memory, autobiography, and the intersection of gender and postmodernism. Itself a form of mediated autobiography, this work takes us through the shaping of a critical approach to some of our closest and deepest concerns in reading, in writing, and in knowing ourselves.

Quicklet on Modern Family Season 1 (CliffsNotes-like
 Book Summary)

Hyperink Inc ABOUT THE BOOK For some television comedies, it takes time to create truly memorable episodes. Classic series like Friends, South Park, and Seinfeld needed a season or two to fully flesh out their characters and give them the personality traits we grew to love. Others, like Arrested Development and Curb Your Enthusiasm, wasted no time in cranking out classic dialogue and classic episodes. It's in this group that ABC's mockumentary-style comedy Modern Family falls. It hit the ground running in its debut season, netting a Season 1 score of 87 on review aggregator Metacritic. That score made it the top-rated TV comedy of 2009, and the 87 tally trailed only Season 4 of Friday Night Lights. From shore to shore, critics were eager to praise Modern Family's refreshing take on the American home. The San Francisco Chronicle called it "the best new comedy by far" in a season stacked with great new shows, and the New York Times hailed it as "the best new half hour of funny television." Even the residents of the White House sang its praises, as President Obama revealed to People that his family's go-to show to watch together was Modern Family. MEET THE AUTHOR Luke stole an English degree from the University of Illinois at Urbana-Champaign. He's been a blogger for nearly a decade, and a digital editor at an ad agency for three years. EXCERPT FROM THE BOOK Acceptance - Prevalent in just about every Modern Family episode. The couples are at the forefront here, and seem to in a lot of ways be complete opposites. Mitchell is uptight and no-nonsense, while Cam is sensitive and emotional. Phil is young at heart, nerdy, and longs to be the cool parent, whereas Claire is the disciplinarian, the worrier, and eager to prove she's not as crazy as she once was. Jay and Gloria, for all of their physical differences, are just as dissimilar in their personalities. Gloria is passionate and wears her heart on her sleeve, and Jay avoids confrontation and stifles emotion in favor of manliness. When one of these six people forgets the traits of another (which can happen often because of the stark differences), conflict arises. It's when each person can be accepted for who he or she is that true happiness emerges (this is fittingly found at the conclusion of each episode)... Buy a copy to keep reading!

Dogs

Domestication and the Development of a Social Bond

Cambridge University Press This book traces the evolution of the dog, from its origins about 15,000 years ago up to recent times. The timing of dog domestication receives attention, with comparisons between different genetics-based models and archaeological evidence. Allometric patterns between dogs and their ancestors, wolves, shed light on the nature of the morphological changes that dogs underwent. Dog burials highlight a unifying theme of the whole book: the development of a distinctive social bond between dogs and people; the book also explores why dogs and people relate so well to each other. Though cosmopolitan in overall scope, the greatest emphasis is on the New World, with an entire chapter devoted to dogs of the arctic regions, mostly in the New World.

Discussion of several distinctive modern roles of dogs underscores the social bond between dogs and people.
