STANDARDS BASED GRAMMAR - GRADE 3

Standards Based Grammar Grades 3 is a daily grammar program that covers all grammar and punctuation skills required by third grade (based on national standards). The assessments and teacher checklists allow the teacher to keep track of the skills his/her students have mastered, allowing them to review and reteach as needed until mastery of the dozens of standards is achieved. What is considered mastery? When a student not only knows the rules of grammar and punctuation, but is also using these skills within the context of their writing, they have truly mastered the skill. This unique program shows students how to memorize the skills, then requires them to immediately apply them within the context of writing. Over one hundred journal assignments help students achieve a level of master few other programs can achieve. Best of all, it's powerful enough to use as a daily program, yet affordable enough to purchase as a supplement.

TEACHING ENGLISH THROUGH ELA, MATHEMATICS, SCIENCE, AND SOCIAL STUDIES

A CONTENT-BASED LANGUAGE TEACHING APPROACH

Taylor & Francis Accessible and hands-on, this textbook provides a comprehensive introduction to teaching language through content, an approach known as Content-Based Language Teaching (CBLT). A content-based, language-focused approach to teaching in the disciplines is essential to serving the language and disciplinary needs of English learners (ELs) in the classroom. Guided by learning standards and informed by research, this book demonstrates how content materials in the English Language Arts (ELA), Mathematics, Science, and Social Studies can be harnessed to develop the English language proficiency of ELs as well as advance their disciplinary knowledge and skills. Using content materials in ELA, Mathematics, Science, and Social Studies as a starting point, this textbook illustrates how to teach English as an additional language effectively by integrating language instruction with disciplinary teaching. It showcases numerous learning and instructional activities, complete with targeted language exemplified in sentential and discourse contexts, direct instruction, teacher modeling, guided and individual practices, and assessments, which are further backed up by detailed discussions of their goals, rationales, and implementation. This textbook also features a discussion of differentiation to address the varied needs of students. To further assist readers in determining how to incorporate language instruction, Peng identifies extensive possibilities for language teaching that are based on the same content materials and beyond those targeted by sample learning activities. Each chapter ends with three types of exercises—multiple-choice questions, open-ended discussion questions, and problems of application—to bolster understanding, promote reflection, and encourage application. Complementing the book are additional online resources, including ready-to-use PowerPoints, which are available on the book's webpage at Routledge.com/9780367521134. Covering key issues such as characteristics of effective language instruction, differentiation, and the challenges associated with CBLT, this is an essential text in TESOL methods and content-area language teaching, as well as an invaluable resource for pre-service and in-service ESL/EFL teachers and content-area teachers who are interested in furthering their students' language and literacy development.

THE PROVINCE OF BURMA

A REPORT PREPARED ON BEHALF OF THE UNIVERSITY OF CHICAGO

Alleyne Ireland (1871-1951) was a Fellow of the Royal Geographic Society in London who, in 1901, was appointed by the University of Chicago to head a commission to study colonial administration in the Far East. Ireland's first major project, published in 1907, was this exhaustive, two-volume study of Burma, at the time under British rule as a province of the Indian Empire. Volume one contains a general description of Burma, a history of Britain's acquisition of the colony, and chapters on the people, government, general administration, civil service, police administration, judicial administration, prison administration, and educational system. Volume two is devoted to economic and administrative affairs, including financial administration, the land revenue system, public works, trade and shipping, and the administration of forests, towns, villages, and harbors. Twenty-one appendices provide additional detail, including economic and demographic statistics, the texts of treaties, agreements, and reports, a bibliography, and a glossary of Indian and Burmese words. At the end of volume one is a large foldout map of Burma by Edinburgh mapmakers John Bartholomew & Co.
