WOMEN TEACHERS IN AFRICA

CHALLENGES AND POSSIBILITIES

Taylor & Francis **Through qualitative research methods, this book engages in a holistic understanding of cultural, economic, and institutional forces that interact to produce the underrepresentation of women as school teachers in four sub-Saharan African countries. Comparative case studies at the national level, using a common research design, show that teaching, despite being an attractive civil service job, offers low salaries and many challenges, especially when it takes place in rural areas. Combining professional duties with demanding family responsibilities further diminishes women's ability to stay in the teaching profession. The studies in this book attempt to bridge research findings with policy by developing action plans in cooperation with ministries of education of the respective countries. Women Teachers in Africa will be of interest to academic researchers, undergraduate and postgraduate students in the relevant fields, as well as development professionals, aid agency staff and education policy experts.**

THE ROAD TO RESULTS

DESIGNING AND CONDUCTING EFFECTIVE DEVELOPMENT EVALUATIONS

World Bank Publications **'The Road to Results: Designing and Conducting Effective Development Evaluations'** presents concepts and procedures for evaluation in a development context. It provides procedures and examples on how to set up a monitoring and evaluation system, how to conduct participatory evaluations and do social mapping, and how to construct a "rigorous" quasi-experimental design to answer an impact question. The text begins with the context of development evaluation and how it arrived where it is today. It then discusses current issues driving development evaluation, such as the Millennium Development Goals and the move from simple project evaluations to the broader understandings of complex evaluations. The topics of implementing 'Results-based Measurement and Evaluation' and constructing a 'Theory of Change' are emphasized throughout the text. Next, the authors take the reader down 'the road to results, ' presenting procedures for evaluating projects, programs, and policies by using a 'Design Matrix' to help map the process. This road includes: determining the overall approach, formulating questions, selecting designs, developing data collection instruments, choosing a sampling strategy, and planning data analysis for qualitative, quantitative, and mixed method evaluations. The book also includes discussions on conducting complex evaluations, how to manage evaluations, how to present results, and ethical behavior--including principles, standards, and guidelines. The final chapter discusses the future of development evaluation. This comprehensive text is an essential tool for those involved in development evaluation.

INSPIRE HANDBOOK

ACTION FOR IMPLEMENTING THE SEVEN STRATEGIES FOR ENDING VIOLENCE AGAINST CHILDREN

World Health Organization **The INSPIRE handbook: action for implementing the seven strategies for ending violence against children** explains in detail how to choose and implement interventions that will fit your needs and context. The seven strategy-specific chapters address the Implementation and enforcement of laws; Norms and values; Safe environments; Parent and caregiver support; Income and economic strengthening; Response and support services; and Education and life skills. The handbook concludes with a summary of INSPIRE's implementation and impact indicators drawn from the companion INSPIRE indicator guidance and results framework.

POVERTY AND EXCLUSION AMONG URBAN CHILDREN

SOCIAL WELFARE IN ZAMBIA

Adonis & Abbey Publishers Ltd **This book discusses social welfare activities in**

Zambia in the pre-colonial, colonial and post-colonial periods. It explains how indigenous social welfare initiatives in colonial Zambia, culminated in the Federation of Welfare Societies. The former became the first nationalist party in this era known as the Northern Rhodesia Congress (NRC), with Godwin Mbikusita Lewanika as its leader. The book also elucidates how the first African government, which was headed by Kenneth Kaunda, attained positive human development indicators in Zambia in the 1960s. Nonetheless, this was at the expense of Barotseland as Kaunda's government had deliberately underdeveloped Barotseland after independence, whilst harassing and imprisoning Barotse activists for decades. After 1991, successive governments continued to apply Kaunda's methods. The book contends that Zambia in its present form is an illegal state, because the Barotseland Agreement was abrogated by Kaunda in 1969. This treaty was meant to amalgamate the former British Protectorates of Barotseland and Northern Rhodesia to form Zambia in 1964.

BANGLADESH II: CLIMATE CHANGE IMPACTS, MITIGATION AND ADAPTATION IN DEVELOPING COUNTRIES

Springer Nature This volume aims to develop a framework for disaster and climate risk resilient livelihood system in Bangladesh using a policy oriented approach. It highlights the possible impacts of climate change on groundwater based irrigation in the country. Climate change is one of biggest challenges to society. It can lead to serious impacts on production, life and environment on a global scale. Higher temperatures and sea level rise will cause flooding and water salinity problems which will bring about negative effects on agriculture and high risks to industry and socio-economic systems in the future. Climate change will lead to many changes in global development and security especially energy, water, food, society, job, diplomacy, culture, economy and trade. The Intergovernmental Panel on Climate Change (IPCC) defines climate change as: "Any change in climate over time, whether due to natural variability or as a result of human activity." Global climate change has emerged as a key issue in both political and economic arenas. It is an increasingly questioned phenomenon, and progressive national governments around the world

have started taking action to respond to these environmental concerns.

ENVIRONMENTAL CONSERVATION IN THE NEOLIBERAL AGE

University of Arizona Press With global wildlife populations and biodiversity riches in peril, it is obvious that innovative methods of addressing our planet's environmental problems are needed. But is “the market” the answer? Nature™ Inc. brings together cutting-edge research by respected scholars from around the world to analyze how “neoliberal conservation” is reshaping human-nature relations.

RESTAVEC

FROM HAITIAN SLAVE CHILD TO MIDDLE-CLASS AMERICAN

University of Texas Press This inspiring memoir recounts a man’s harrowing journey from unpaid child labor in Haiti to a successful life in the United States. African slaves in Haiti emancipated themselves from French rule in 1804 and created the first independent black republic in the Western Hemisphere. But they reinstated slavery for the most vulnerable members of Haitian society—the children of the poor—by using them as unpaid servants to the wealthy. These children were—and still are—restavecs, a French term whose literal meaning of “staying with” disguises the unremitting labor, abuse, and denial of education that characterizes the children's lives. In this memoir, Jean-Robert Cadet recounts the harrowing story of his youth as a restavec, as well as his inspiring climb to middle-class American life. He vividly describes what it was like to be an unwanted illegitimate child “staying with” a well-to-do family whose physical and emotional abuse was sanctioned by Haitian society. He also details his subsequent life in the United States, where, despite American racism, he put himself through college and found success in the Army, in business, and finally in teaching.

FROM EVIDENCE TO ACTION

THE STORY OF CASH TRANSFERS AND IMPACT EVALUATION IN SUB-SAHARAN AFRICA

Food & Agriculture Org. Cash transfers have become a key social protection tool in developing countries and have expanded dramatically in the last two decades. However, the impacts of cash transfers programmes,

especially in Sub-Saharan Africa, have not been substantially documented. This book presents a detailed overview of the impact evaluations of these programmes, carried out by the Transfer Project and FAO's From Protection to Production project. The 14 chapters include a review of eight country case studies: Kenya, Ghana, Ethiopia, Zambia, Zimbabwe, Lesotho, Malawi, South Africa, as well as a description of the innovative research methodologies, political economy issues and good practices to design cash transfer programmes. The key objective of the book is to enhance the understanding of these development programmes, how they lead to a broad range of social and productive impacts and also of the role of programme evaluation in the process of developing policies and implementing programmes.

UNDERSTANDING HUMAN RIGHTS

MANUAL ON HUMAN RIGHTS EDUCATION

Intersentia Uitgevers N V This third edition of **Understanding Human Rights** has been elaborated by the European Training and Research Center for Human Rights and Democracy (ETC) in Graz, originally for the Human Security Network (HSN) at the initiative of the Austrian Ministry for Foreign Affairs. The objective is to assist human rights education efforts worldwide. The book's thematic modules on selected human rights issues cover topics such as: the prohibition of torture, freedom from poverty, human rights of women and children, human rights in armed conflict, freedom of expression, and democracy. New to this updated edition are chapters reflecting current trends in human rights, including new modules on privacy (such as challenges posed by Internet use), minority rights, and the right to asylum. Translations of the earlier editions already exist in 15 languages, among them all the official United Nations languages.

Understanding Human Rights has become a basic text for human rights education and training in different countries, on different levels, and for different audiences, from university lectures in China to NGO training in Mali to police training in Kosovo.

TRANSITIONAL JUSTICE AND EDUCATION

LEARNING PEACE

Advancing Transitional Justice ?After periods of conflict and authoritarianism, educational institutions often need to be reformed or rebuilt. But in settings where education has been used to support repressive policies and human rights violations, or where conflict and abuses have resulted in lost educational opportunities, legacies of injustice may pose significant challenges to effective reform. Peacebuilding and development perspectives, which normally drive the reconstruction agenda, pay little attention to the violent past. *Transitional Justice and Education: Learning Peace* presents the findings of a research project of the International Center for Transitional Justice on the relationship between transitional justice and education in peacebuilding contexts. The book examines how transitional justice can shape the reform of education systems by ensuring programs are sensitive to the legacies of the past, how it can facilitate the reintegration of children and youth into society, and how education can engage younger generations in the work of transitional justice.

The principles set out in this Code are invaluable guidelines for organisational planning; programme development, implementation, and evaluation; advocacy efforts; and resource allocation.

PROMOTING THE RIGHTS OF CHILDREN WITH DISABILITIES

United Nations Publications The **Innocenti Digest on Promoting the Rights of Children with Disabilities** attempts to provide a global perspective on the situation of some 200 million children with disabilities. The Digest is based on reports from countries across regions and from a wide range of sources. These include accounts by persons with disabilities, their families and members of their communities, professionals, volunteers and non-governmental organizations, as well as country reports submitted by Member States to the United Nations, including to human rights treaty bodies responsible for monitoring the implementation of international human rights treaties

URBANIZATION, GENDER AND URBAN POVERTY

PAID WORK AND UNPAID CAREWORK IN THE CITY

Anchor Books "The papers explore women's engagement in both paid work, which is often informal and subject to increasing insecurity and low earnings, and unpaid work, which results in time poverty for women. It also discusses differential access to shelter and basic services and their importance for safety, security and well-being."--Publisher' s Website.

LEGAL PLURALISM IN ETHIOPIA

ACTORS, CHALLENGES AND SOLUTIONS

transcript Verlag Being a home to more than 80 ethnic groups, Ethiopia has to balance normative diversity with efforts to implement state law across its territory. This volume explores the co-existence of state, customary, and religious legal forums from the perspective of legal practitioners and local justice seekers. It shows how the various stakeholders' use of negotiation, and their strategic application of law can lead to unwanted confusion, but also to sustainable conflict resolution, innovative new procedures and hybrid norms. The book thus generates important knowledge on the conditions necessary for stimulating a cooperative co-

existence of different legal systems.

HANDBOOK OF CLIMATE CHANGE ADAPTATION

THE ROUTLEDGE HANDBOOK OF POLITICAL ECOLOGY

Routledge The Routledge Handbook of Political Ecology presents a comprehensive and authoritative examination of the rapidly growing field of political ecology. Located at the intersection of geography, anthropology, sociology, and environmental history, political ecology is one of the most vibrant and conceptually diverse fields of inquiry into nature-society relations within the social sciences. The Handbook serves as an essential guide to this rapidly evolving intellectual landscape. With contributions from over 50 leading authors, the Handbook presents a systematic overview of political ecology's origins, practices and core concerns, and aims to advance both ongoing and emerging debates. While there are numerous edited volumes, textbooks, and monographs under the heading 'political ecology,' these have tended to be relatively narrow in scope, either as collections of empirically based (mostly case study) research on a given theme, or broad overviews of the field aimed at undergraduate audiences. The Routledge Handbook of Political Ecology is the first systematic, comprehensive overview of the field. With authors from North and South America, Europe, Australia and elsewhere, the Handbook of Political Ecology provides a state of the art examination of political ecology; addresses ongoing and emerging debates in this rapidly evolving field; and charts new agendas for research, policy, and activism. The Routledge Handbook of Political Ecology introduces political ecology as an interdisciplinary academic field. By presenting a 'state of the art' examination of the field, it will serve as an invaluable resource for students and scholars. It not only critically reviews the key debates in the field, but develops them. The Handbook will serve as an excellent resource for graduate and advanced undergraduate teaching, and is a key reference text for geographers, anthropologists, sociologists, environmental historians, and others working in and around political ecology.

POVERTY AND SOCIAL IMPACT ANALYSIS OF REFORMS

LESSONS AND EXAMPLES FROM IMPLEMENTATION

World Bank Publications "Poverty and Social Impact Analysis (PSIA) is an approach used increasingly by governments, civil society organizations, the World Bank, and other development partners to examine the distributional impacts of policy reforms on the well-being of different stakeholder groups, particularly the poor and vulnerable. PSIA has an important role in the elaboration and implementation of poverty reduction strategies in developing countries because it promotes evidence-based policy choices and fosters debate on policy reform options. Poverty and Social Impact Analysis of Reforms presents a collection of case studies that

illustrate the spectrum of sectors and policy reforms to which PSIA can be applied; it also elaborates on the broad range of analytical tools and techniques that can be used for PSIA. The case studies provide examples of the impact that PSIA can have on the design of policy reforms and draw operational lessons for PSIA implementation. The case studies deal largely with policy reforms in a single sector, such as agriculture (crop marketing boards in Malawi and Tanzania and cotton privatization in Tajikistan); energy (mining sector in Romania and oil subsidies in Ghana); utilities (power sector reform in Ghana, Rwanda, and transition economies, and water sector reform in Albania); social sectors (education reform in Mozambique and social welfare reform in Sri Lanka); taxation reform (Nicaragua); as well as macroeconomic modeling (Burkina Faso)."

HEALTH AND HUMAN RIGHTS

INTERNATIONAL IDEA HANDBOOK ON DEMOCRACY ASSESSMENT

BRILL

STAY ALIVE, MY SON

Cornell University Press On April 17, 1975, the Khmer Rouge entered Phnom Penh to open a new and appalling chapter in the story of the twentieth century. On that day, Pin Yathay was a qualified engineer in the Ministry of Public Works. Successful and highly educated, he had been critical of the corrupt Lon Nol regime and hoped that the Khmer Rouge would be the patriotic saviors of Cambodia. In *Stay Alive, My Son*, Pin Yathay provides an unforgettable testament of the horror that ensued and a gripping account of personal courage, sacrifice and survival. Documenting the 27 months from the arrival of the Khmer Rouge in Phnom Penh to his escape into Thailand, Pin Yathay is a powerful and haunting memoir of Cambodia's killing fields. With seventeen members of his family, Pin Yathay were evacuated by the Khmer Rouge from Phnom Penh, taking with them whatever they might need for the three days before they would be allowed to return to their home. Instead, they were moved on from camp to camp, their possessions confiscated or abandoned. As days became weeks and weeks became months, they became the "New People," displaced urban dwellers compelled to live and work as peasants, their days were filled with forced manual labor and their survival dependent on ever more meager communal rations. The body count mounted, first as malnutrition bred rampant disease and then as the Khmer Rouge singled out the dissidents

for sudden death in the darkness. Eventually, Pin Yathay's family was reduced to just himself, his wife, and their one remaining son, Nawath. Wracked with pain and disease, robbed of all they had owned, living on the very edge of dying, they faced a future of escalating horror. With Nawath too ill to travel, Pin Yathay and his wife, Any, had to make the heart-breaking decision whether to leave him to the care of a Cambodian hospital in order to make a desperate break for freedom. "Stay alive, my son," he tells Nawath before embarking on a nightmarish escape to the Thai border. First published in 1987, the Cornell edition of *Stay Alive, My Son* includes an updated preface and epilogue by Pin Yathay and a new foreword by David Chandler, a world-renowned historian of Cambodia, who attests to the continuing value and urgency of Pin Yathay's message.

MANGROVES OF VIETNAM

IUCN

POVERTY MOSAICS: REALITIES AND PROSPECTS IN SMALL-SCALE FISHERIES

Springer Science & Business Media **Small-scale fisheries are a major source of food and employment around the world. Yet, many small-scale fishers work in conditions that are neither safe nor secure. Millions of them are poor, and often they are socially and politically marginalized. Macro-economic and institutional mechanisms are essential to address these poverty and vulnerability problems; however, interventions at the local community level are also necessary. This requires deep understanding of what poverty means to the fishers, their families and communities; how they cope with it; and the challenges they face to increase resiliency and improve their lives for the better. This book provides a global perspective, situating small-scale fisheries within the broad academic discourse on poverty, fisheries management and development. In-depth case studies from fifteen countries in Latin America, Europe, South and Southeast Asia, and sub-Saharan Africa, demonstrate the enormously complex ecological, economic, social, cultural and political contexts of this sector. Conclusions for policy-making, formulated as a joint statement by the authors, argue that fisheries development, poverty alleviation, and resource management must be integrated within a comprehensive governance approach that also looks beyond fisheries. The scientific editors, Svein Jentoft and Arne Eide, are both with the Norwegian College of Fishery Science, Faculty of Biosciences, Fisheries and Economics, University of Tromsø, Norway.**

THE CAMP MANAGEMENT TOOLKIT

CHILDREN AT WORK

Three post-college backpackers are in Amsterdam where they get locked out of their youth hostel. They are invited to stay at a guys house. He tells

them of a hostel in eastern Europe where the women are all incredibly hot and have a taste for American men. When they get there everything is too good to be true, making this hostel a place "to die for."

YOUTH CRIME

Young people aged between 15 and 19 years commit three times more offences than any other members of the Australian population. Certain types of offences are committed disproportionately by young people; juveniles are more likely than adults to come to the attention of police, for a variety of reasons. Compared to adults, young people are also more at risk of a range of problems conducive to offending, including mental health problems, alcohol and other drug use, and peer pressure due to their immaturity and reliance on peer networks. What makes juvenile offenders different from adult offender...
