English as a Second Language in the Mainstream

Teaching, Learning and Identity

Routledge Since it was first established in the 1970's the Applied Linguistics and Language Study series has become a major force in the study of practical problems in human communication and language education. Drawing extensively on empirical research and theoretical work in linguistics, sociology, psychology and education, the series explores key issues in language acquisition and language use. English as a Second Language learners are now a considerable and increasing part of the mainstream of urban schools in English-speaking countries. Beyond the learning of English, this development raises broader questions of language as a medium of education in a multilingual, multicultural environment. Drawing on their experience as researchers and educators in Australia, Canada and England, the authors of English as a Second Language in the Mainstream present an up-to-date account of advances in theory and practice. Their analysis of system-wide provision however, suggests that a truly responsive educational vision is lacking: government policy is inadequate, educational practices for ESL students are either underdeveloped or poorly coordinated with practices for other students, and the rhetoric of reform fails to engage significantly with issues of teaching and resources. The authors argue towards a more comprehensive vision which can acknowledge the relation between issues concerning ESL students and issues concerning the educational system as a whole, which can coordinate reforms in ESL education with general reforms, which can explicitly and systematically integrate language learning and content learning, and which can build more positively on the multilingual and multicultural nature of modern education for all students.

Tools for Teaching in an Educationally Mobile World

Routledge *Tools for Teaching in an Educationally Mobile World* examines the challenges that undergraduate and postgraduate teachers often encounter when working with students from different national and cultural backgrounds. It focuses on the consequences for interactive teaching and for course design in a world where students, ideas and courses are mobile, using examples and experiences from a wide range of disciplines and national contexts. It not only considers Anglophone countries, including the USA, Canada, the UK, Australia and New Zealand, but also the use of English as a language of instruction in countries where neither teachers nor students are native English speakers. This book offers ideas for adjusting and adapting teaching approaches for culturally and linguistically diverse student groups. Students may cross national boundaries to seek accreditation, or the courses may be 'transnational', being designed in one country and delivered in another using local as well as 'fly-in' faculty. It draws upon growing good practice recommendations using tried and tested methods alongside the extensive and varied experience of the author. The book is structured around a selection of the most common issues and statements of belief held by educators, with key topics including: the impact of educational mobility on teaching and learning; teachers as mediators between academic cultural differences; learning and teaching in English; inclusive teaching and learning; encouraging student participation; assessing diverse students. With a wealth of practical tips and tools that help deal with these issues, this book will be of value to any educator working with students from culturally and linguistically diverse backgrounds. It will also interest those involved in the design of curriculum and pedagogy.

Linguistic Inter marriage in Australia

Between Pride and Shame

Springer Nature This book examines the experiences of couples with different language backgrounds and different cultural origins as they negotiate love, partnership and parenting. It is based on the author's doctoral research into the attitudes and experiences of the English-speaking background (ESB) partners of non-English-speaking background (NESB) migrants in Sydney, Australia. In particular, it seeks to understand how these English speakers negotiate being in a romantic relationship with someone who has a different first language. It explores how those from an ESB reconcile the negative perspectives of Anglophone culture towards "other" languages, with their desire to be a good partner who respects the linguistic differences in their relationship. The book is organised into six chapters, which move from a focus on the language of the individual, to the languages of the couple, and then to the wider family. The main finding is that although ESB partners had very different beliefs and attitudes towards language learning to their migrant partners, they attempted to compensate for these differences in various ways. It will be of particular interest to students and scholars in the fields of language education, minority languages, and language policy and planning.

Knowledge & Discourse

Towards an Ecology of Language

Routledge *Knowledge and Discourse* presents an ecological approach to the study of discourse in social, academic and professional practices. It brings together distinguished scholars from diverse cultures - India, China, Australia, Canada among others - and disciplines - linguistics, anthropology, sociology, philosophy. The chapters collectively illustrate the ecological approach by exploring how language makes connections between subjective experiences as people construct meaning and action. This book offers the reader a holistic, interdisciplinary approach to the study of language as discourse, questioning traditional views of disciplinary knowledge and the role of discourse in the pursuit, construction and compartmentalisation of such knowledge. Through the variety of disciplines, experiences and approaches, the contributors show how the world and word are contingent on each other. The notions of connectivity, contingency and change are themes that run through the book, and in the interweaving of these themes readers will find persuasive illustrations of an ecological approach to applied linguistics.

Teaching and Learning International Best Practice

IAP Our highly interconnected global education environment provides unprecedented opportunities for teaching professionals and educational researchers to share best practice in teaching and learning across international borders and sociocultural frontiers. This volume presents a diverse range of innovative educational best practices from around the world - particularly those practices that directly strengthen and enhance student motivation and achievement in a broad range of sociocultural contexts. These practices include: enhancing teaching and learning environments, particularly in relation to provision of high quality infrastructure for 21st Century (digital) learning; designing and managing after-school homework support; recruiting, developing and retaining high-quality teaching staff; promoting international and multicultural awareness through deliberate exposure to varied cultural experiences and perspectives; optimizing the benefit of project work for student academic and social outcomes; designing educational interventions based on self-concept research; and developing an international service learning course for tertiary students. The editors of the present volume have gathered over thirty renowned educators and researchers from Asia, Australia, Europe, and the United States, to share their experiences in developing best practices in teaching and learning in socioculturally and educationally diverse contexts. These practices, guided and underpinned by cutting edge educational/psychological theories and research, are believed to be adaptable to many diverse educational and sociocultural contexts. The editors invite researchers, professionals, educators, teachers, lecturers, policy-makers, and curriculum developers to think, reflect, and take action on how to utilize the underlying principles of the best practices in the present Volume to their own settings.

The Story of ESB

The Routledge Handbook of Language Testing

Routledge Winner of the SAGE/ILTA Book Award 2016 The Routledge Handbook of Language Testing will provide a comprehensive account of the area of language assessment and testing. Written by leading specialists from around the world, this volume brings together approximately 35 authoritative articles (around 8000 words each). The proposed outline for the Handbook (below) is divided into ten sections. The section titles reflect the contents of their Language Testing and Assessment -textbook in our RAL series and sketch a useful overview of the discipline. Each chapter has been carefully selected to relate to key issues raised in the respective topic, providing additional historical background, critical discussion, reviews of key research methods, and an assessment of what the future might hold.

Language, Vernacular Discourse and Nationalisms

Uncovering the Myths of Transnational Worlds

Springer This book examines the linguistic and discursive elements of social and economic policies and national political leader statements to read new meanings into debates on border protection, national sovereignty, immigration, economic indigenisation, land reform and black economic empowerment. It adds a fresh angle to the debate on nationalisms and transnationalism by pushing forward a more applied agenda to establish a clear and empirically-based illustration of the contradictions in current policy frameworks around the world and the debates they invite. The author's novel vernacular discourse approach contributes new points of method and interpretation that will advance scholarly conversations on nationalisms, transnationalism and other forms of identity imaginings in a transient world.

Diagnostic Writing Assessment

The Development and Validation of a Rating Scale

Peter Lang The diagnostic assessment of writing is an important aspect of language testing which has often been neglected in the literature. However, it is an area which poses special challenges to practitioners both in the classroom and in large-scale testing situations. This book presents a study which set out to develop and validate a rating scale specifically designed for the diagnostic assessment of writing in an academic English setting. The scale was developed by analysing a large number of writing performances produced by both native speakers of English and learners of English as an additional language. The rating scale was then validated using both quantitative and qualitative methods. The study showed that a detailed data-based rating scale is more valid and more useful for diagnostic purposes than the more commonly used impressionistic rating scale.

Nations of Immigrants

Australia and the USA Compared

Edward Elgar Publishing These papers capture the pluralist phenomenon of two of the largest immigrant-receiving countries of all time. Within this 200+ page volume, then, is to be found a truly informative mass of data (complete with graphs, tables and statistics) and learned analyses pertaining to the twin-focus of its title which will serve as a valuable tool of reference and reflection by all who have an interest in the subject. Ramnik Shah, Immigration, Asylum and Nationality Law This timely book examines the immense surges in immigration since the mid-1990s in Australia and the United States, two of the world's most important settler-receiving countries. Australia's shift to a points-based, skills-oriented system is contrasted with the political deadlock that has prevented any basic change in US immigration policy during this period. Focusing on immigration policy trends, effects on labour markets, successes and failures in integrating massive numbers of new immigrants, and the future of multiculturalism, the book ponders many of the policy dilemmas that confront both countries. Drawing on extensive research findings in the field of immigration policy, this book will prove a fascinating read for both scholars and postgraduate

students working on immigration, as well as undergraduates studying courses on Australia and comparisons of the Australian and American policy arenas. Public servants engaged in administering Australian and US immigration policies will also find this book invaluable.

Becoming an African Diaspora in Australia

Language, Culture, Identity

Springer *Becoming an African Diaspora in Australia* extends debates on identities, cultures and notions of race and racism into new directions as it analyses the forms of interactional identities of African migrants in Australia. It de-naturalises the commonplace assumptions and imaginations about the cultures and identities of African diaspora communities, and probes the relevance and usefulness of identity markers such as country of origin, nationality, ethnicity, ethnic/heritage language and mother tongue. Current cultural frames of identity representation have so far failed to capture the complexities of everyday lived experiences of transnational individuals and groups. Therefore by drawing on fresh concepts and recent empirical evidence, this book invites the reader to revisit and rethink the vocabularies that we use to look at identity categories such as race, culture, language, ethnicity, nationality, and citizenship, and introduces a new language nesting model of diaspora identity. This book will be of great interest to all students of migration, diaspora, African and Australian studies.

Multiculturalism and Integration

A Harmonious Relationship

ANU E Press *Multiculturalism* has been the official policy of all Australian governments (Commonwealth and State) since the 1970s. It has recently been criticised, both in Australia and elsewhere. Integration has been suggested as a better term and policy. Critics suggest it is a reversion to assimilation. However integration has not been rigorously defined and may simply be another form of multiculturalism, which the authors believe to have been vital in sustaining social harmony.

Assessing English Proficiency for University Study

Springer This book focuses on strategies and procedures for assessing the academic language ability of students entering an English-medium university, so that those with significant needs can have access to opportunities to enhance their language skills.

Addressing Special Educational Needs and Disability in the Curriculum: English

Routledge This book provides practical strategies and resources that have been proven effective in teaching English to pupils of all abilities, making English accessible, challenging and exciting. The author outlines important key principles that should underpin teaching and learning so that all pupils, including those with special educational needs, can enjoy the subject and make outstanding progress. The ideas and guidance draw on a wealth of experience, providing classroom activities and free online resources, which can be combined with different teaching approaches. A range of appendices provides teachers with real-life case studies and examples and templates for supporting pupils with SEND. Offering strategies that are specific to the context of English teaching, this book will enable teachers and their teaching assistants to: develop pupils' understanding by engaging multi-sensory approaches; ensure all pupils are able to participate fully in lessons and achieve success; design and use individual plans for pupils with SEND; assess and adapt content and resources when differentiating materials for pupils with a wide range of learning needs; use formative assessments to measure learning and inform planning. An invaluable tool for whole-school continuing professional development, this fully revised text will be essential for teachers and their teaching assistants seeking guidance specific to teaching English to all pupils, regardless of their individual needs. This book will also be of interest to SENDCOs, learning support units and senior management teams as well as to teacher-training professionals.

A Holy Life

The Writings of St. Bernadette

Ignatius Press **While the story of the apparitions of Our Lady to Bernadette Soubirous at Lourdes in 1858 are well known, relatively few people are familiar with the saint's own spiritual insights and profound holiness. For the first time in English, this book presents a wide selection of St. Bernadette's thoughts, advice, sayings, and prayers through the touching words of her spiritual diary, notes, and letters to friends and family. After receiving the visions of Our Lady at the grotto in Lourdes, Bernadette eventually became a religious sister as a member of the Sisters of Charity. She lived a life of simplicity, charity, suffering and deep holiness, dying at the age of 35. When she was canonized a saint, her body was found to be incorrupt. In these beautiful writings of St. Bernadette, we learn the secrets of her holiness and happiness. Though she suffered greatly throughout her life, the heroic response of this humble, self-effacing nun transformed excruciating suffering into spiritual fruitfulness. Her letters and writings serve as a model for others passing through their own trials. Her writings reveal an intimate and profound love for God and neighbor. Anyone pursuing a deeper spiritual life will appreciate knowing Bernadette as she truly was, and the inspiring spiritual works of wisdom she offers to us all.**

European Migration

What Do We Know?

Oxford University Press on Demand **Developed countries, especially in Europe, face a number of issues related to migration: social and economic disruptions caused by the declining demand for unskilled labour and resulting unemployment, a shortage of skilled labour in many professions, increasing international competition for highly qualified human capital, radical demographic changes, and the forthcoming expansion of the European Union, which will trigger further immigration into major European countries and create new market opportunities in Central and Eastern Europe. This suggests a need for a deeper knowledge of the causes and consequences of increased labour mobility. This is especially important**

when it is associated with tension and fears among native populations. This book brings together analyses of migration issues in major European countries, and compares evidence with more countries that have traditionally seen the most immigration. First, it studies migration streams since World War II, and reviews major migration policy regimes. Second, it summarizes the empirical evidence measuring wages, unemployment, and occupational choices. Third, it investigates how migrants affects the labour markets of their host countries, and evaluates econometric studies into the wage and employment consequences of immigration. Surprisingly, there is wide evidence that immigration is largely beneficial for receiving countries. There might be phases of adjustment, but there is no convincing evidence that natives' wages are depressed or unemployment increases as a consequence of migrant inflow. However, there is a growing impression that migration does serve less and less the needs of the labour market. This suggests a stronger focus on economic channels of immigration, for which the book provides a conceptual basis and the required empirical facts and institutional background.

Bilingual Childcare

Hitches, Hurdles and Hopes

Multilingual Matters This ethnographic study explores aspects of bilingual education in two early childhood German-English education centres in Australia. Using various sources of data and multiple methods of analysis, it investigates the processes at work when establishing and implementing a bilingual programme and examines the language attitudes, ideologies and practices of the parents, educators and administrators involved. It addresses the complex relationship between the childcare provider and its clientele in its socio-political context in an attempt to arrive at a broader understanding of institutional bilingual education in early childhood. The book will be of interest to graduate students and researchers in bilingual education, language ideology and early childhood education studies, as well as to teachers, trainee teachers and childcare providers.

Refashioning the Rag Trade

Internationalising Australia's Textiles, Clothing and Footwear Industries

UNSW Press "Since the early 1980s, Australian governments have pursued policies of 'international competitiveness' that combine the removal of tariffs and other industry protection with incentives to restructure the economy and encourage industries in which Australia enjoys a comparative advantage." -- Cover.

The Price of Prosperity

The Economic and Social Costs of Unemployment

UNSW Press While our leaders celebrate Australia's 'economic miracle', unemployment, particularly long-term unemployment, has become a permanent feature of Australia's economic landscape. Its unacceptably high level has proved remarkably resistant in the face of sustained economic growth and increased prosperity. The adverse economic and social consequences of high unemployment are likely to leave long-term scars on those affected, as well as on local communities and the entire fabric of Australian society. Yet these effects rarely feature on the policy agenda, and the costs of unemployment remain largely invisible.

Creating Social Cohesion in an Interdependent World

Experiences of Australia and Japan

Springer *Creating Social Cohesion in an Interdependent World* examines the ways in which two very different societies, Australia and Japan, have dealt with challenges to their cultural and institutional fabric, as well as the social cohesion arising from the acceleration of global interdependence during recent decades. Deepening globalization has generated great social dislocation and uncertainty about collective identity and to anxiety about how to accommodate apparently unstoppable external influences. The studies in this volume explore areas which have experienced significant impact from globalization, including immigration policy, ethnic and racial intermarriage, attitudes towards ethnic and racial minorities, national and cultural identity, education policy and labor relations. The approach used is innovative in juxtaposing two societies which, although developed, are contrasting in their historical origins and contemporary cultural legacies.

Critical Reflections on Migration, 'Race' and Multiculturalism

Australia in a Global Context

Routledge Migration and its associated social practices and consequences have been studied within a multitude of academic disciplines and in the context of policies at local, national and regional level. This edited collection provides an introduction and critical review of conceptual developments and policy contexts of migration scholarship within an Australian and global context, through: political economy analyses of migration and associated transformations; sociological analyses of 'settling in' processes; multi-disciplinary analyses of migrant work; a historical review of scholarship on refugees; a Southern theory approach to cultural diversity; sociological reflections on post-nationalism; Cultural Studies analyses

of public culture and 'second generation' youth cultures; interdisciplinary and Critical Race analyses of 'race' and racism; feminist intersectional analyses of migration, belonging and representation; the theorising of cosmopolitanism; a transdisciplinary analysis of gender, transnational families and care; and a comparative, transcontextual analysis of hybridity. An essential contribution to the current mapping of migration studies, with a focus on Australian scholarship in its international context, this collection will be of interest to undergraduates and postgraduates interested in fields such as Sociology, Cultural Studies, Geography and Politics.
