Interactive General Chemistry Achieve, 1-term Access Code

Interactive General Chemistry meets students where they are...with a general chemistry program designed for the way students learn. Achieve provides a new platform for Interactive General Chemistry, thoughtfully developed to engage students for better outcomes. Powerful data and analytics provide instructors with actionable insights on a platform that allows flexibility to align with a broad variety of teaching and learning styles and the exciting Interactive General Chemistry program! Whether a student's learning path starts with problem solving or with reading, Interactive General Chemistry delivers the learning experience he or she needs to succeed in general chemistry. Built from the ground up as a digital learning program, Interactive General Chemistry combines the Sapling Learning homework platform with a robust e-book with seamlessly embedded, multimedia-rich learning resources. This flexible learning environment helps students effectively and efficiently tackle chemistry concepts and problem solving. Student-centered development In addition to Macmillan's standard rigorous peer review process, student involvement was critical to the development and design of Interactive General Chemistry. Using extensive research on student study behavior and data collection on the resources and tools that most effectively promote understanding, we crafted this complete course solution to intentionally embrace the way that students learn. Digital-first experience Interactive General Chemistry was built from the ground up to take full advantage of the digital learning environment. High-quality multimedia resources--including Sapling interactives, PhET simulations, and new whiteboard videos by Tyler DeWitt--are seamlessly integrated into a streamlined, uncluttered e-book. Embedded links provide easy and efficient navigation, enabling students to link to review material and definitions as needed. Problems drive purposeful study Our research into students' study behavior showed that students learn best by doing--so with Interactive General Chemistry, homework problems are designed to be a front door for learning. Expanding upon the acclaimed Sapling homework--where every problem contains hints, targeted feedback, and detailed step-by-step solutions--embedded resources link problems directly to the multimedia-rich e-book, providing just-in-time support at the section and chapter level.

Atheism on Trial

Refuting the Modern Arguments Against God

Harvest House Publishers Answers You Need for the Tough Questions About Your Faith Atheists are launching a new wave of attacks against Christianity and faith in God. It's hard to know how to handle their claims that they have a more enlightened, scientific, and sophisticated worldview. How can you respond with precision to arguments against your faith? With instructive clarity, Dr. Louis Markos confronts the modern-day atheists' claims that new evidence disproves the existence of God. In fact, you will find that the "proof" they peddle is not new at all. Rather, they recycle claims that have already been disproven by Christian thinkers of the past...claims that you can silence today with the same solid logic. Equip yourself to defend your beliefs from a deep well of knowledge and conviction. Stand in confidence that the trial of public opinion versus universal truth has already been held—and God is the victor.

Read, Write, Connect: A Guide to College Reading and Writing

A Guide to College Reading and Writing

Macmillan Higher Education Read, Write, Connect provides integrated instruction in reading and writing paragraphs and essays with a thematic reader full of high-interest selections students will want to read and write about. The text begins with a walk-through of the reading and writing processes and then moves on to a series of workshop chapters that provide in-depth coverage of key topics like finding main ideas and drafting and organizing an essay. Throughout, the text demonstrates that academic processes are recursive, and the structure of the text reflects this recursivity: as students move from the early chapters to the workshop chapters, they build upon earlier learning, digging deeper into the material and gaining confidence along the way. The second edition offers new chapters and new features devoted to stronger, more integrated coverage of reading; expanded coverage of research and grammar; and exciting new readings, class-tested by the authors. Read, Write, Connect, Second Edition, can be packaged with LaunchPad Solo for Readers and Writers, allowing you to more efficiently track students' progress with reading, writing, and grammar skills in an active learning arc that complements the book.

Is the Bible True . . . Really?

A Dialogue on Skepticism, Evidence, and Truth

Moody Publishers With over 40 million books sold, bestselling author Josh McDowell is no stranger to creatively presenting biblical truth. Now, partnering with fellow apologist Dave Sterrett, Josh introduces a new series targeted at the intersection of story and truth. The Coffee House Chronicles are short, easily devoured novellas aimed at answering prevalent spiritual questions. Each book in the series tackles a long-contested question of the faith, and then answer these questions with truth through relationships and dialogue in each story. In Is the Bible True, Really?: A Dialogue on Skepticism, Evidence, and Truth, we meet Nick, a college freshman at a state school in Texas. Nick has his spiritual world turned upside-down with what he hears in an introduction to religion class. His questions turn into conversations as he dialogues with professors, friends, and family about the authenticity and authority of the Bible. The other two books in the series: Who is Jesus, Really? and Did the Resurrection Happen, Really? continue the unfolding story at the college campus and the coffee house down the road.

Coffee House Chronicles Set

Moody Publishers This set includes all three books of the The Coffee House Chronicles: Is the Bible True...Really?: A Dialogue on Skepticism, Evidence, and Truth; Who Is Jesus...Really?:A Dialogue on God, Man, and Grace; and Did the Resurrection Happen...Really?: A Dialogue on Life, Death, and Hope. His questions turn into conversations as he dialogues with professors, friends, and family about the authenticity and authority of the Bible. In Who is Jesus, Really?: A Dialogue on God, Man, and Grace, the group of students now meeting at the coffee house at a college town in Texas come face-to-face with the implications of the person and works of Jesus Christ. Their questions and conversations lead them to creatively respond to a well-known Atheist about Jesus' claims and actions. In Did the Resurrection Happen, Really?: A Dialogue on Life, Death, and Hope, the college campus is rocked by a shooting spree that leaves nine students dead. Their up-close experience with mortality allies the coffee house discussion group together to really wrestle with the spiritual and eternal ramifications of whether or not Jesus rose from the dead.

Exploring Psychology

Macmillan Far and away the bestselling brief introduction to psychology, David Myers' Exploring Psychology doesn't just present the story of the psychology. It involves students deeply in that story, as they learn to think critically about psychology's core ideas, breakthrough research findings, and wide-ranging applications to their lives and the world around them. The new Eighth Edition is both classic Myers and cutting-edge psychological science, a rich presentation more than ever before, helps students develop the critical thinking skills they need to make their encounters with psychological science successful and personally enriching. The most extensively revision to date, the Eighth Edition features many hundreds of new research citations, over 40% new photos, and state-of-the-art media and supplements—plus an all new critical thinking feature, Test for Success: Critical Thinking Exercises. Still, with the book's continual evolution, one constant remains: the inimitable writing of David Myers, who continues to show an uncanny ability to engage the curiosities of all kinds of students as they explore both the scientific and human aspects of the field of psychology.
