Tony Northrup's Photography Buying Guide

How to Choose a Camera, Lens, Tripod, Flash & More

Tony Northrup **If you're a beginner photographer, this book can save you hundreds of dollars. If you're a seasoned pro, it can save you thousands. With access to over 16 HOURS of online video, this book helps you choose the best equipment for your budget and style of photography. In this book, award-winning author and photographer Tony Northrup explains explains what all your camera, flash, lens, and tripod features do, as well as which are worth paying for and which you can simply skip. Tony provides information specific to your style of photography, whether you're a casual photographer or you're serious about portraits, landscapes, sports, wildlife, weddings, or even macro. For the casual reader, Tony provides quick recommendations to allow you to get the best gear for your budget, without spending days researching. If you love camera gear, you'll be able to dive into 200 pages of detailed information covering Nikon, Canon, Sony, Micro Four-Thirds, Olympus, Samsung, Leica, Mamiya, Hasselblad, Fuji, Pentax, Tamron, Sigma, Yongnuo, PocketWizard, Phottix, Pixel King, and many other manufacturers. Camera technology changes fast, and this book keeps up. Tony updates this book several times per year, and buying the book gives you a lifetime subscription to the updated content. You'll**

always have an up-to-date reference on camera gear right at your fingertips. Here are just some of the topics covered in the book: What should my first camera be? Which lens should I buy? Should I buy Canon, Nikon, or Sony? Is a mirrorless camera or a DSLR better for me? Do I need a full frame camera? Is it safe to buy generic lenses and flashes? What's the best landscape photography gear? Which portrait lens and flash should I buy? What gear do I need to photograph a wedding? How can I get great wildlife shots on a budget? Which sports photography equipment should I purchase? Should I buy zooms or primes? Is image stabilization worth the extra cost? Which type of tripod should I buy? Which wireless flash system is the best for my budget? How can I save money by buying used? What kind of computer should I get for photo editing? What studio lighting equipment should I buy? When you buy this book, you'll be able to immediately read the book online. You'll also be able to download it in PDF, .mobi, and .epub formats--every popular format for your computer, tablet, smartphone, or eReader!

Photographic & Video Accessories Buying Guide

Photography: Buying Guide

Conceptual Kings With the advent of Facebook, Whatapp, Twitter, Instagram and the plethora of options available to post pictures, photographs are taken across the globe as often and as we breathe. We are now in the 'click' age where everything gets photographed. Smart phones, and high-tech digital cams make life easier for events to be captured. But how do you know how to choose the right camera that would ensure your photographs are top quality and would help you to tell the story you want to tell, the event you want to chronicle, the big idea, the desire for the product you want to evoke or the serene mood you want to depict? With all the maze of cameras out there and their glowing reviews, how do you choose the best camera? We have put together a guide that will provide you with fifty (50) trusted elements that you should consider when choosing your dream camera.

Tony Northrup's DSLR Book: How to Create Stunning Digital Photography

Tony Northrup **The top-rated and top-selling photography ebook since 2012 and the first ever Gold Honoree of the Benjamin Franklin Digital Award, gives you five innovations no other book offers: Free video training. 9+ HOURS of video training integrated into the book's content (requires**

Internet access). Travel around the world with Tony and Chelsea as they teach you hands-on. Appendix A lists the videos so you can use the book like an inexpensive video course. Classroom-style teacher and peer help. After buying the book, you get access to the private forums on this site, as well as the private Stunning Digital Photography Readers group on Facebook where you can ask the questions and post pictures for feedback from Tony, Chelsea, and other readers. It's like being able to raise your hand in class and ask a question! Instructions are in the introduction. Lifetime updates. This book is regularly updated with new content (including additional videos) that existing owners receive for free. Updates are added based on reader feedback and questions, as well as changing photography trends and new camera equipment. This is the last photography book you'll ever need. Hands-on practices. Complete the practices at the end of every chapter to get the real world experience you need. 500+ high resolution, original pictures. Detailed example pictures taken by the author in fifteen countries demonstrate both good and bad technique. Many pictures include links to the full-size image so you can zoom in to see every pixel. Most photography books use stock photography, which means the author didn't even take them. If an author can't take his own pictures, how can he teach you? In this book, Tony Northrup (award-winning author of more than 30 how-to books and a professional portrait, wildlife, and landscape photographer) teaches the art and science of creating stunning pictures. First, beginner photographers will master: Composition Exposure Shutter speed Aperture Depth-of-field (blurring the background) ISO Natural light Flash Troubleshooting blurry, dark, and bad pictures Pet photography Wildlife photography (mammals, birds, insects, fish, and more) Sunrises and sunsets Landscapes Cityscapes Flowers Forests, waterfalls, and rivers Night photography Fireworks Raw files HDR Macro/close-up photography Advanced photographers can skip forward to learn the pro's secrets for: Posing men and women. including corrective posing (checklists provided) Portraits (candid, casual, formal, and underwater) Remotely triggering flashes Using bounce flash and flash modifiers Using studio lighting on any budget Building a temporary or permanent studio at home Shooting your first wedding High speed photography Location scouting/finding the best spots and times Planning shoots around the sun and moon Star trails (via long exposure and image stacking) Light painting Eliminating noise Focus stacking for infinite depth-of-field Underwater photography Getting close to wildlife Using electronic shutter triggers Photographing moving cars Photographing architecture and real estate

LIFE Guide to Digital Photography Everything You Need to Shoot Like the Pros

Life Photography has been the business and the passion of LIFE since the original weekly magazine's inception in 1936, and it continues to be the business and passion of LIFE Books and LIFE.com in the new millennium. But photography has surely changed during these many decades. The rigs and gear of old have given way-first slowly, then all at once-to sleek miracle machines that process pixels and have made the darkroom obsolete. The casual photog puts eye to lens, sets everything on auto and captures a photograph that is . . . perfectly fine. One of LIFE's master shooters-in fact, the final in the long line of distinguished LIFE staff photographers-was Joe McNally, and he has always believed that with a little preparation and care, with a dash of enthusiasm and daring added to the equation, anyone can make a better photo-anyone can turn a "keeper" into a treasure. This was true in days of yore, and it's true in the digital age. Your marvelous new camera, fresh from its box, can indeed perform splendid feats. Joe explains in this book how to take best advantage of what it was designed to do, and also when it is wise to outthink your camera or push your camera-to go for the gold, to create that indelible family memory that you will have blown up as large as the technology will allow, and that will hang on the wall forevermore. As the storied LIFE photographer and photo editor John Loengard points out in his eloquent foreword to this volume, there are cameras and there are cameras, and they've always been able to do tricks. And then there is photography. Other guides may give you the one, two, three of producing a reasonably well exposed shot, but Joe McNally and the editors of LIFE can give you that, and then can show you how to make a picture. In a detailed, friendly, conversational, anecdotal, sometimes rollicking way, that's what they do in these pages. Prepare to click.

Virtual Selling

A Quick-Start Guide to Leveraging Video, Technology, and Virtual

Communication Channels to Engage Remote Buyers and Close Deals Fast

John Wiley & Sons **And just like that, everything changed . . . A global pandemic. Panic. Social distancing. Working from home. In a heartbeat, we went from happy hours to virtual happy hours. From conferences to virtual conferences. From selling to virtual selling. To remain competitive, sales and business professionals were required to shift the way they engaged prospects and customers. Overnight, virtual selling became the new normal. Now, it is here to stay. Virtual selling can be challenging. It's more difficult to make human to human connections. It's natural to feel intimidated by technology and digital tools. Few of us haven't felt the wave of insecurity the instant a video camera is pointed in our direction. Yet, virtual selling is powerful because it allows you to engage more prospects and customers, in less time, at a lower cost, while reducing the sales cycle. Virtual Selling is the definitive guide to leveraging video-based technology and virtual communication channels to engage prospects, advance pipeline opportunities, and seal the deal. You'll learn a complete system for blending video, phone, text, live chat, social media, and direct messaging into your sales process to increase productivity and reduce sales cycles. Jeb Blount, one of the most celebrated sales trainers of our generation, teaches you: How to leverage human psychology to gain more influence on video calls The seven technical elements of impactful video sales calls The five human elements of highly effective video sales calls How to overcome your fear of the camera and always be video ready How to deliver engaging and impactful virtual demos and presentations Powerful video messaging strategies for engaging hard to reach stakeholders The Four-Step Video Prospecting Framework The Five-Step Telephone Prospecting Framework The LDA Method for handling telephone prospecting objections Advanced email prospecting strategies and frameworks How to leverage text messaging for prospecting and down pipeline communication The law of familiarity and how it takes the friction out of virtual selling The 5C's of Social Selling Why it is imperative to become proficient with reactive and proactive chat Strategies for direct messaging - the "Swiss Army Knife" of virtual selling How to leverage a blended virtual/physical selling approach to close deals faster As you dive into these powerful insights, and with each new chapter, you'll gain greater and greater confidence in your ability to effectively engage prospects and customers through virtual communication channels. And, with this newfound confidence, your success and income will soar. Following in the footsteps of his blockbuster bestsellers People Buy You, Fanatical Prospecting, Sales EQ, Objections,**

and Inked, Jeb Blount's Virtual Selling puts the same strategies employed by his clients—a who's who of the world's most prestigious organizations—right into your hands.

Concise iPhone 12 Cameras Guide

The Complete Photography Guide for Beginners to Mastering Cinematic Videography with The New iPhone 12 Pro & 12 Pro Max (Large Print Edition)

If we're talking about cameras, then the Apple iPhones are doing a great job; with the new Apple iPhone 12 series's recent releases, we know that Apple would be stepping up their cameras in this new series. Apple released four new iPhones in November this year; iPhone 12, iPhone 12 mini, iPhone 12 pro, and pro max. These four devices have different new features; it's a series that tells you to buy the one that fits your budget. However, in this guide, we'll be focusing mainly on the iPhone 12 pro and pro max cameras; everything about the cameras and photography of the iPhone 12 and pro max would be discussed in this book. One thing is to have a perfect camera, and another is to use this good Camera to produce top quality photos. That's why we've written this complete guide for all iPhone 12 pro and pro max users. If you've been finding it difficult to operate the Camera and adjust some settings, this guide would be giving you the perfect solution to your problems; after reading this guide, you'll become a photography expert with your new iPhone 12 pro and pro-max. The iPhone 12 pro and pro-max have the same number of Cameras, which is just 3 with a true tone flash; however, they have different features, and as we'll know, the pro max would be more efficient than the Pro, although the difference is very little. Thinking about what you'll learn from this guide? Not to worry, we've provided a list of unique features. Below is the list of what you'll know after reading this guide: How to use the night mode feature How to take pictures with volume buttons How to take a quick video How to adjust aspect Ratios and adjust the scope The Portrait mode and how to use it The six portrait lighting effect Dolby vision and how to use it Using night mode portrait How to take a photo on your iPhone 12 pro or pro max basically How to view captured images How to shoot a normal video with your iPhone 12 pro and pro max View videos that you've just recorded How to use night mode portrait How to play live photos How to

adjust video resolution and frame per second How to deactivate HDR How to take perfect selfies in any mode How to edit photos in the Photos app Using the iPhone 12 control center How to add the camera app to the dock How to take photos using a filter How to delete and hide photos and videos How to share videos and photos How to use FILMIC Pro Everything about FILMIC Pro Manage and apply preset on your pictures How to get rid of photo casting How to use Adobe Lightroom More about Adobe Lightroom How to take a slow-mo video record How to take a time-lapse video Night mode time-lapse video recording How to capture 8MP stagnant images while still recording a video Taking photos in the panorama mode How to use burst mode The new smart HDR 3 How to record with HDR and Dolby vision Record 4k videos at different frames per second And many more.... If you need to know how to use your iPhone 12 Camera effectively and get good quality shots, you need to read this guide. So what are you waiting for? Essential Digital Video Handbook

A Comprehensive Guide to Making Videos That Make Money

Routledge The digital video revolution has blurred the lines between professional and amateur equipment, with some Hollywood movies being shot and edited using the same technology that families use for their vacation footage. With sales of digital video cameras and computer-based editing systems skyrocketing, more and more people are seeing the potential and are anxious to advance their own personal video production skills to a higher level. The Essential Digital Video Handbook will help you, the beginner and budding professional become a better writer, producer, director, photographer, and editor. Author Pete May's sound advice and no-nonsense approach will help you achieve results that will wow audiences whether they're gathered in the family room or the corporate boardroom. The Essential Digital Video Handbook takes the you through every step of the process, from buying the right equipment to editing footage. This book shares tips on achieving professional quality results by understanding and exploiting visual language, both by initially following the rules and then by breaking them with style and confidence. Videographers will also learn to sound like professionals by understanding and speaking the language of the business. Instead of narrowly focusing on just the latest equipment and technology, May uses lessons he learned during twenty-five years in the television business to drill down to the most important stuff: the principles that don't change, and the tricks

behind making videos that document, entertain, train, motivate, persuade, satisfy, and even have the ability to make money.

The Everything Guide to Flipping

Houses

An All-Inclusive Guide to Buying, Renovating, Selling

Simon and Schuster **Expert advice to find, fix, and flip any residential property! Are you ready to capitalize on the rising real estate market and get in on the red-hot house flipping scene? You need a step-by-step guide to evaluate property, avoid rookie mistakes, and build a profitable, successful business. In *The Everything Guide to Flipping Houses*, successful house flipper Melanie Williamson walks you through the opportunities, the risks, the work involved, and the potential for real profits in flipping real estate. She teaches you to: Assess properties, work with contractors, and manage renovations Handle legal and tax regulations Flip multiple houses at one time Use green renovation options to keep costs low Select the right banks, investors, and real estate agents Choose marketing strategies that guarantee sales Inside you'll find detailed information for every milestone, from purchase to planning renovations to making the sale and managing profits. It's a competitive market out there, but with this guide in hand, you'll have everything you need to successfully flip any residential property--and reap the lucrative rewards.**

How to Produce Videos & Films

Earl R. Dingman **This is the most up-to-date and complete book you will find on producing. It covers the new CUE process from BMI and ASCAP for getting paid for soundtrack music. It includes a buyer's guide for covering Netflix Approved cameras. It covers the essentials and introduces you to the process. It can take a person who knows nothing about film & video production, leading them from story, to script, to budgeting, casting, finding actors, directors, camera people, composers, and distributors. -It will also show you how to do ALL of that yourself, on almost any budget. - You'll learn about the gear you need like cameras, tripods, lighting, editing software, editing computer. -Story & Script, the logline, a spec pitch that went to pilot, Joseph Campbell and the Hero's Journey, John Truby and the Anatomy of Story, the writing concepts of Syd Field, Christopher Vogler, Michael Hague, plus outlines, the screenplay, free and demo screenwriting software sources, adapting a book into a movie, music synchronization licenses. -Finding actors and crew members. Free casting tools. Paid casting services. -A look at cameras, including f/stop, t/stops, depth of field, focal lengths, distortions, filter, matte boxes, global and rolling shutters, and lens mounts. -How to budget and plan a production economically. -Business types for setting up your production company.**

How to protect your assets and a discussion of liabilities and taxes. - Copyrights and licensing information. -Making a storyboard and using it for shooting, editing, and composing. -The shoot itself, framing shots, the master shot, the close shots, reverse angles, the 180 rule, lighting a set with sample diagrams, night for day shots, day for night shots, doing coverage of a scene, the role of the script supervisor. -Special Effects, blue, green, and yellow screen, examples. -Editing 16 and 35mm movie film, analog videotape using an edit controller, digital file types, editing software, the timeline, dialog editing, background, music, and room tone tracks. -A primer for Composing Music, learning how to count to make chords and patterns, major chords, minor chords, sevenths, major sevenths, diminished, perfect seconds, including a template for a key wheel to help you change keys and know what notes makeup what chords. Concepts that the video person who is all thumbs can use to make their own basic backgrounds scores if they can't find a composer. -The new ASCAP and BMI Cue Sheets so you can get paid for any music when your productions air on broadcast or network television. Also covers the Harry Fox Agency for the licensing of your song, your music or to obtain permission to use someone else's tunes. -The history of imaging, optics, the photographic process, projectors, sound recording, tube electronics, television, audio recording, the how and why of film speeds, how color movie film works, how color television works, the differences between American and European film and video, the digital age, SD, HD, 4k and 8k. A look at the mystical color spaces of YUV and YIQ. -Distribution concepts for your films. -Los Angeles Union Scale Rates for the cast and crew so you can budget your scripts. -A Bibliography of reference sources for further reading. The author has been doing film, photography, and audio recording for fifty-five years working on productions that have aired on television, been screened theatrically and on YouTube. The author has been writing on the topics of film, video, and audio for magazine since 1980, including contributions for Mix Magazine, Music Connection, Pro Sound News, Technical Photography, Moving Image, etc. The author was schooled in television electronics by engineers at Admiral in Chicago, and in film/theater production at Valley College in Los Angeles, under Dr. Milton Timmons, Dr. Stern, Peter Parkin MFA from Pasadena Playhouse, Elliot Bliss at CBS Television Studios (now Todd-AO).

A Music Librarian's Guide to Creating Videos and Podcasts

A-R Editions, Inc. **A Music Librarian's Guide to Creating Videos and Podcasts** is a guide every music librarian will want to use to develop and enhance multi-media skills. The digital age has created a divide between music librarians and their patrons: traditional models of interaction have been superseded or replaced by electronic communication, and virtually all

librarians have felt the ensuing decline of their users' information-seeking skills. Music librarians can now be proactive in reaching out to patrons digitally with videos and podcasts, since editing technologies for both platforms have become inexpensive and easy to use. In *A Music Librarian's Guide to Creating Videos and Podcasts* Katie Buehner and Andrew Justice give music librarians the step-by-step instructions for creating their own content in both Mac and PC platforms. This ready reference on videos should find home in every library and also many personal collections.
