## THE MIND GUIDE

---

Osmera Incorporated Issues discussed in this book reflect not only research work, but also experience by the author, to guide the mind of individuals who had been prejudiced by mind-sets, training, doctrines, beliefs, and peers. Some individual had accepted poverty, and believed they will never be rich. Some others had accepted defeat in life, and lay blames on their surroundings, friends, and families, instead of blaming it on their lack of persistence, perseverance, selfimprovement, and unceasing prayers. However, after reading this book, you will hone your thoughts. You can think yourself into success, or into poverty. You can think yourself into progress or retrogression. Our mind-sets are the powerhouse of our actions - success and failure in all areas of our lives: love, faith, sex, business, education, profession, marriage, friendship, etc... The perspectives in this book are the issues of fears, the four Idols that prejudice understanding, emotional pitfall (love, faith, sex, and anger), power of knowledge, truth and reality, power of thoughts, cultural and ethnic miscues, perseverance, persistence, prayers, peers, mental capability, information quality, and more, and their respective influences on individuals' behaviours and successes. The author concludes this book with final words of mind guide, which encompass almost all the areas discussed in the preceding twelve (12) chapters.

## **RUPERT MURDOCH**

---

Currency If you want to understand how modern media has changed the world, this is the one book you must read. Rupert Murdoch is the man everyone talks about but no one knows. He's everywhere, a larger-than-life media titan who has spent a lifetime building his company, News Corporation, from a small, struggling newspaper business in Australia into an international media powerhouse. Rupert Murdoch charts the real story behind the rise of News Corp and the Fox network: the secret debt crises and family deals, the huge cash flows through the offshore archipelagos, the New York party that saved his empire, the covert government inquiries, the tax investigations, and the bewildering duels with Bill Gates, Ted Turner, Gerry Levin, Ron Perelman, Newt Gingrich, cable king John Malone, Michael Eisner, Tony Blair, and televangelist-turned-diamond-miner Pat Robertson. Murdoch's story, however, is more than just how one man built a global business. Rupert Murdoch is both a biography of Murdoch the man (including the divorce from his wife, Anna; his remarriage to a woman young enough to be his granddaughter; and the struggle between his two sons for eventual control of the family holdings) and a "follow the money" investigation that reveals how he has managed to have such a huge impact on the communications revolution that promises to utterly transform life in the twenty-first century. The investigation concentrates on Murdoch's three great campaigns: in the 1980s, when his determination to launch an American television network overturned the media industries of three countries; in 1997, when Murdoch took on every broadcasting group in America; and the process of reinventing himself since then, culminating in his bid to win DirecTV from General Motors. This is the saga of the man who has stalked, infuriated, cajoled, threatened, and spooked the media industry for three decades, whose titanic gambles have shaped and reshaped the media landscape. Win or lose, Murdoch is the man who has changed everything. And Neil Chenoweth is the right person to tell the story: In 1990 he wrote a magazine article that prompted a secret Australian government inquiry into Rupert Murdoch's family companies, and he's been on the Murdoch case since then. Chenoweth reveals what no person ever has about the man (and the company) who is probably the most significant media player of them all.

**RACE, TRANSATLANTIC CULTURE, AND THE ARTS IN THE CIVIL WAR ERA**

---

Penn State Press In his best-selling travel memoir, The Innocents Abroad, Mark Twain punningly refers to the black man who introduces him to Venetian Renaissance painting as a “contraband guide,” a term coined to describe fugitive slaves who assisted Union armies during the Civil War. By means of this and similar case studies, Paul H. D. Kaplan documents the ways in which American cultural encounters with Europe and its venerable artistic traditions influenced nineteenth-century concepts of race in the United States. Americans of the Civil War era were struck by the presence of people of color in European art and society, and American artists and authors, both black and white, adapted and transformed European visual material to respond to the particular struggles over the identity of African Americans. Taking up the work of both well- and lesser-known artists and writers—such as the travel writings of Mark Twain and William Dean Howells, the paintings of German American Emanuel Leutze, the epistolary exchange between John Ruskin and Charles Eliot Norton, newspaper essays written by Frederick Douglass and William J. Wilson, and the sculpture of freed slave Eugène Warburg—Kaplan lays bare how racial attitudes expressed in mid-nineteenth-century American art were deeply inflected by European traditions. By highlighting the contributions people of black African descent made to the fine arts in the United States during this period, along with the ways in which they were represented, Contraband Guides provides a fresh perspective on the theme of race in Civil War-era American art. It will appeal to art historians, to specialists in African American studies and American studies, and to general readers interested in American art and African American history.
