BROWN GIRL DREAMING

Penguin Jacqueline Woodson's National Book Award and Newbery Honor winner, now available in paperback with 7 all-new poems. Jacqueline Woodson is the 2018-2019 National Ambassador for Young People's Literature A President Obama "O" Book Club pick Raised in South Carolina and New York, Woodson always felt halfway home in each place. In vivid poems, she shares what it was like to grow up as an African American in the 1960s and 1970s, living with the remnants of Jim Crow and her growing awareness of the Civil Rights movement. Touching and powerful, each poem is both accessible and emotionally charged, each line a glimpse into a child's soul as she searches for her place in the world. Woodson's eloquent poetry also reflects the joy of finding her voice through writing stories, despite the fact that she struggled with reading as a child. Her love of stories inspired her and stayed with her, creating the first sparks of the gifted writer she was to become. Includes 7 new poems, including "Brown Girl Dreaming". Praise for Jacqueline Woodson: A 2016 National Book Award finalist for her adult novel, ANOTHER BROOKLYN "Ms. Woodson writes with a sure understanding of the thoughts of young people, offering a poetic, eloquent narrative that is not simply a story . . . but a mature exploration of grown-up issues and self-discovery."--The New York Times Book Review

LITERACY PEDAGOGY IN AN URBAN ELEMENTARY CLASSROOM

HISTORY TEXTBOOKS

A STANDARD AND GUIDE

Center for Education Studies Based on expert review and research, this book provides an innovative standard and guide to social studies textbooks used in kindergarten through 12th grade classrooms for content, style, and design. The standards provide a foundation for individuals to select satisfactory textbooks and to help educators and school boards in the adoption of instructional materials. Chapter 1 addresses the problems of textbook content and style. Chapter 2 discusses the vast business of social studies publishing and the increased complexity of textbook packaging with the movement away from state-level adoption of textbooks. Chapter 3 focuses on the content of social studies textbooks with a comparison of past and present textbooks, a discussion of revisionism and reality, and a look at religion in textbooks. Chapter 4 examines the style and story of textbooks and finds that although the content of past textbooks may be flawed, the prose is superior to recent textbooks. Ideas on narrative, readability, vocabulary, instructional design, history, and style provide ways for textbooks to improve. Chapter 5 addresses the issue of format and proposes clarity and simplicity in technical design of books. Chapter 6 provides an outline to review textbooks for content and style and instructional activities and teacher guidance materials for usefulness. Chapter 7 includes an annotated list of the major U.S. and world history textbooks. (CK)

EARLY LITERACY SKILLS BUILDER

Apply the "science" of reading to students with moderate-to-severe developmental disabilities, including autism. The Early Literacy Skills Builder program incorporates systematic instruction to teach both print and phonemic awareness. ELSB is a multi-year program with seven distinct levels and ongoing assessments so students progress at their own pace. Five years of solid research have been completed through the University of North Carolina at Charlotte, proving ELSB to be a highly effective literacy program and more effective than a sight-word only program. ELSB is based upon the principles of systematic and direct instruction. It incorporates scripted lessons, least-prompt strategies, teachable objectives, built-in lesson repetition, and ongoing assessments. The seven ELSB levels contain five structured lessons each. All students begin at Level 1. If a student struggles here, go back and administer Level A. Instruction is one-on-one or in small groups. Teach scripted lessons daily in two 30-minute sessions. On the completion of each level, formal assessments are given. ELSB includes everything you need to implement a multi-year literacy curriculum.

DUAL LANGUAGE EDUCATION: TEACHING AND LEADING IN TWO LANGUAGES

Springer This book provides a comprehensive and interdisciplinary examination of dual language education for Latina/o English language learners (ELLs) in the United States, with a particular focus on the state of Texas and the U.S.-Mexico border. The book is broken into three parts. Part I examines how Latina/o ELLs have been historically underserved in public schools and how this has contributed to numerous educational inequities. Part II examines bilingualism, biliteracy, and dual language education as an effective model for addressing the inequities identified in Part I. Part III examines research on dual language education in a large urban school district, a high-performing elementary school that serves a high proportion of ELLs along the Texas-Mexico border, and best practices for principals and teachers. This volume explores the potential and realities of dual language education from a historical and social justice lens. Most importantly, the book shows how successful programs and schools need to address and align many related aspects in order to best serve emergent bilingual Latino/as: from preparing teachers and administrators, to understanding assessment and the impacts of financial inequities on bilingual learners. WRITERS ARE READERS

FLIPPING READING INSTRUCTION INTO WRITING OPPORTUNITIES

Heinemann Educational Books In *Writers Are Readers*, the mutually supportive roles of reading and writing are made visible through the idea of "flipsides;" how a reader's insights can be turned around to provide insights into his own writing, and vice versa. Lester and Reba's trademark engaging style is woven throughout chapters full of sample lessons, student writing samples, and recommended texts for maximizing the flipped concept across the year. "Leading the student to understand what he did as a reader can become a lens that brings into focus what the writer had to do before a reader ever saw the page," they write. Discover fresh new ways to turn reading strategies into writing opportunities that your students will be excited about and deeply understand.

STORY WORKSHOP

NEW POSSIBILITIES FOR YOUNG WRITERS

Heinemann Educational Books Even our youngest students have lots of stories to tell, whether real or imagined. How can we create entry points for writing, so that all writers feel confident and motivated to share their stories? How can we establish a classroom community of beginning writers where equity, empathy, and compassion become part of the process and vital by-products of story writing? Enter story workshop, a structure for early literacy that amplifies the relationship between play, art, and writing. Children develop ideas and stories through choices of art materials. By creating images through play, story workshop invites children to explore the "amazingness" (Nisa, age 10) of their ideas in a variety of art forms. "Through their stories," Susan writes, "students share the meaning they make of their experiences in the world." Children in every classroom environment feel empowered to transition from play to pencil as they add words to their stories. Story Workshop includes an abundance of classroom videos, photos, and student samples that illustrate what is possible when children use words, colors, textures, shapes and all kinds of materials to create the stories they want to tell. Watch how students' imaginations soar, their love of writing blossoms, and their connections with one another become the focal point of your classroom.
