ASIAN ENGLISH LANGUAGE CLASSROOMS

WHERE THEORY AND PRACTICE MEET

Taylor & Francis The teaching of English in the Asian context is always challenging and dynamic because both teachers and learners have diverse linguistic and cultural backgrounds. Equally important, where English is not widely used outside the classroom, English language classrooms are an authentic site of learner engagement. For these reasons, for all those concerned with contemporary English language teaching (ELT) in Asia, *Asian English Language Classrooms: Where Theory and Practice Meet*, provides an account of theoretical orientations and practices in the teaching of English to multilingual speakers whose primary language is not English. While covering the fundamental ELT areas (e.g., the teaching of language skills, educational literature, the use of technology in ELT, the role of pragmatics in ELT, social psychology of the language classroom, and language classroom management) with which every language teacher and teacher trainer must be concerned, this volume showcases how particular orientations shape ELT practices. We believe that practicing English teachers must have a heightened awareness of the theory behind their practice. At the same time, the theoretical stance must be firmly anchored in actual classrooms. Containing newly commissioned chapters written by well-regarded and emerging scholars, this book will appeal not only to beginning teachers or teachers in training but also to established teachers around Asia where English is used as a lingua franca. If you are a student teacher of English or an English teacher who would like to see what other progressive teachers like you are doing across Asia, this is the book you have been looking for.

Each chapter overviews important developments, key research, and considerations and applications for effective second

language instruction. A well-rounded, readable, and up-to-date resource, the Handbook is a compendium of the ongoing changes, innovations, and practices in L2/FL teaching and learning. It is an essential resource for students, teachers, faculty, and professionals.

LANGUAGE TEACHING AND LANGUAGE USE IN NON-NATIVE SETTINGS

FROM THEORY TO PRACTICE

Cambridge Scholars Publishing From Cameroon to Turkey through Jordan, this short volume illuminates the discrepancy between stated language teaching norms and real-life language use in non-native settings. It underscores the limitations of teaching materials, styles, and methods with regard to learners' communication needs, and provides well-matched answers to foreign language classroom problems. This book will be of interest to language teachers and researchers who will gain an insight into the challenges of the foreign language class in different non-native milieus, and therefore enrich their teaching competence. Educational policy makers can also use it as a guide for designing contextually appropriate curricula and materials.

ISSUES IN APPLYING SLA THEORIES TOWARD REFLECTIVE AND EFFECTIVE TEACHING

BRILL "A reflective teacher as a growth-minded person seeks opportunities to continue professional development. Reflection not only ignites a teacher's desire for improvement, but also inspires continuous learning. Through accurate grasp of self-assessment, confidence, self-appraisal, a reflective practitioner can plant the seeds of effective teaching. This book aims to guide EFL teachers to teach language reflectively and effectively. It includes two parts, the first focuses on the SLA theories and their impact on language teaching and the second centers on the reflective and effective teaching of language components and skills. The editors hope this book could contribute to those who wish to become effective teachers since this results in nurturing learners' cravings to learn in a safe and supportive environment"--

PRONUNCIATION INSTRUCTION IN ENGLISH FOR ACADEMIC PURPOSES

AN INVESTIGATION OF ATTITUDES, BELIEFS AND PRACTICES

Springer Nature This book examines the pronunciation goals of teachers, course leaders, and learners on a ten-week UK pre-session access course, particularly with regard to suprasegmental instruction and target of instruction on how these goals are reflected in pronunciation assessment, and how teacher goals are informed by their attitudes and beliefs. A mixed methods approach, including direct observation and semi-structured interviews, is employed to address the area of enquiry. Results show a lack of clarity of course goals. Although there is a firm emphasis on suprasegmental instruction, in semi-structured interviews, teachers report a lack of clear course goals and guidance. Assessment and practice do not always adhere to a goal of intelligibility, and support for teachers, in terms of the materials and how they might be exploited seems limited. The book concludes with

tentative recommendations on how suprasegmental instruction might be facilitated on EAP and other courses

ENGLISH PRONUNCIATION IN L2 INSTRUCTION

THE CASE OF SECONDARY SCHOOL LEARNERS

Springer This book provides an overview of pronunciation teaching and learning practices in secondary schools, providing insights into secondary school learners' needs, expectations and motivation regarding the importance of learning English and particularly English pronunciation. It presents a summary of the research on L2 pronunciation

acquisition, teaching techniques and factors affecting the learning process as well as the results and conclusions of a longitudinal study conducted in a Polish secondary school. The study indicates that learners consider pronunciation a crucial component of English learning and a predictor of successful communication. Moreover, it shows that accuracy is highly valued by learners, and that systematic and regular pronunciation instruction, even if devoted mainly to segments, has the potential to contribute to the overall improvement in learners' communicative competence and their confidence as speakers and users of English. The book is based on the first-hand experience of a teacher-researcher.
