From Joseph Wambaugh, the #1 New York Times bestselling author of such classics as *The Onion Field* and *The Choirboys*, comes the extraordinary story of the chase for the “Pillow Pyro,” led by one ambitious firefighter. Growing up in Los Angeles, John Orr idolized law enforcement. However, after being rejected by both the LAPD and LAFD, he settled for a position with the Glendale Fire Department. There, he rose through the ranks, eventually becoming a fire captain and one of Southern California’s best-known and most respected arson investigators. But Orr led another, unseen life, one that included womanizing and an insatiable thirst for recognition. While Orr busted a slew of petty arsonists, there was one serial criminal he could not track down. Nothing was safe from the so-called Pillow Pyro’s obsession. Homes, retail stores, and fields of dry brush all went up in flames. His handiwork led to millions of dollars worth of property damage and the deaths of four innocent bystanders. But after years of evading the police, he made a mistake—one that would turn Orr’s life upside down. The Washington Post raves, “When [Joseph Wambaugh] talks about the culture of cops versus the culture of firemen, we get no speculation, only hard-earned details.” Based on meticulous research, interviews, case records, and thousands of pages of court transcripts, *Fire Lover* is Wambaugh at his best. Western Aviation, Missiles, and Space Pre-Incident Indicators of Terrorist Incidents The Identification of Behavioral, Geographic and Temporal Patterns of Preparatory Conduct *DIANE Publishing* This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
