### AMERICAN SERIES, 1970-1999

---

**McFarland** *Although horror shows on television are popular in the 1990s thanks to the success of Chris Carter's The X-Files, such has not always been the case. Creators Rod Serling, Dan Curtis, William Castle, Quinn Martin, John Newland, George Romero, Stephen King, David Lynch, Wes Craven, Sam Raimi, Aaron Spelling and others have toiled to bring the horror genre to American living rooms for years. This large-scale reference book documents an entire genre, from the dawn of modern horror television with the watershed Serling anthology, Night Gallery (1970), a show lensed in color and featuring more graphic makeup and violence than ever before seen on the tube, through more than 30 programs, including those of the 1998-1999 season. Complete histories, critical reception, episode guides, cast, crew and guest star information, as well as series reviews are included, along with footnotes, a lengthy bibliography and an in-depth index. From Kolchak: The Night Stalker to Millennium, from The Evil Touch to Buffy the Vampire Slayer and Twin Peaks, Terror Television is a detailed reference guide to three decades of frightening television programs, both memorable and obscure.*

Asahel Curtis trumpeted the future and optimistically recorded the making of a vigorous industrial society. As the modern world was built around them, Asahel and Edward Curtis created visions of the Northwest that have lived in people's minds ever since.*

### SAMUEL THOMSON AND THE AMERICAN BOTANICAL MOVEMENT, 1790-1860

---

**SIU Press** *Samuel Thomson, born in New Hampshire in 1769 to an illiterate farming family, had no formal education, but he learned the elements of botanical medicine from a "root doctor," who he met in his youth. Thomson sought to release patients from the harsh bleeding or purging regimens of regular physicians by offering inexpensive and gentle medicines from their own fields and gardens. He melded his followers into a militant corps of dedicated believers, using them to successfully lobby state legislatures to pass medical acts favorable to their cause. John S. Haller Jr. points out that Thomson began his studies by ministering to his own family. He started his professional career as an itinerant healer traveling a circuit among the small towns and villages of Maine, New Hampshire, and Massachusetts. Eventually, he transformed his medical practice into a successful business enterprise with agents selling several hundred thousand rights or franchises to his system. His popular New Guide to Health (1822) went through thirteen editions, including one in German, and countless thousands were reprinted without permission. Told here for the first time, Haller's history of Thomsonism recounts the division within this American medical sect in the last century. While many Thomsonians displayed a powerful, vested interest in anti-intellectualism, a growing number found respectability through the establishment of medical colleges and a certified profession of botanical doctors. The People's Doctors covers seventy years, from 1790, when Thomson began his practice on his own family, until 1860, when much of Thomson's medical domain had been captured by the more liberal Eclectics. Eighteen halftones illustrate this volume.*

**By Light Unseen Media** *Vampires are ubiquitous in our popular culture--from movies to television, in fiction and art, and even within the hallowed halls of academia. ### A NOVEL

---

**Random House** An insightful, achingly funny coming-of-age story as well as a brilliant dissection of class, race, and gender in a hothouse of adolescent angst and ambition. Lee Fiora is an intelligent, observant fourteen-year-old when her father drops her off in front of her dorm at the prestigious Ault School in Massachusetts. She leaves her animated, affectionate family in South Bend, Indiana, at least in part because of the boarding school's glossy brochure, in which boys in sweaters chat in front of old brick buildings, girls in kilts hold lacrosse sticks on pristinely mown athletic fields, and everyone sings hymns in chapel. As Lee soon learns, Ault is a cloistered world of jaded, attractive teenagers who spend summers on Nantucket and speak in their own clever shorthand. Both intimidated and fascinated by her classmates, Lee becomes a shrewd observer of—and, ultimately, a participant in—their rituals and mores. As a scholarship student, she constantly feels like an outsider and is both drawn to and repelled by other loners. By the time she's a senior, Lee has created a hard-won place for herself at Ault. But when her behavior takes a self-destructive and highly public turn, her carefully crafted identity within the community is shattered. Ultimately, Lee's experiences—complicated relationships with teachers; intense friendships with other girls; an all-consuming preoccupation with a classmate who is less than a boyfriend and more than a crush; conflicts with her parents, from whom Lee feels increasingly distant—coalesce into a singular portrait of the painful and thrilling adolescence universal to us all. **BONUS:** This edition includes an excerpt from Curtis Sittenfeld's *Sisterland*. Praise for *Prep* "Curtis Sittenfeld is a young writer with a crazy amount of talent. Her sharp and economical prose reminds us of Joan Didion and Tobias Wolff. Like them, she has a sly and potent wit, which cuts unexpectedly—but often—through the placid surface of her prose. Her voice is strong and clear, her moral compass steady; I'd believe anything she told me."—Dave Eggers, author of *A Heartbreaking Work of Staggering Genius* "Prep's every sentence rings true. Sittenfeld is a rising star."—Wally Lamb, author of *She's Come Undone* and *I Know This Much Is True*

#### A GENTLEMAN AT THE TABLE

---

#### A CONCISE, CONTEMPORARY GUIDE TO TABLE MANNERS

---

**Thomas Nelson** A Gentleman at the Table will give any man the knowledge he needs to maneuver any dining situation - from a casual meal of fried chicken at his mom's house to a seven-course dinner at the finest restaurant in the world. It includes. . . How to set a table How to pronounce more than 100 unusual food names How to use obscure eating utensils How to perform the Heimlich maneuver How to eat more than 25 foods that are challenging to eat gracefully such as lobster, snails, fried chicken, and pasta. In a society where more and more people eat with plastic forks and spoons at fast food restaurants, it is still important that a man know proper dining etiquette. There are still situations where not knowing what a finger bowl is or not knowing how to pronounce an item on a menu can have an effect on what others think of you. Showing he has little working knowledge of table manners at a lunch meeting or on a job interview over dinner may have an important impact on a man's life. Like all the books in the GentleManners series, A Gentleman at the Table is easy to use, non-threatening, and an entertaining read.
