Gerontological Nurse Exam Secrets Study Guide: Gerontological Nurse Test Review for the Gerontological Nurse Exam

Mometrix Media LLC ***Includes Practice Test Questions*** **Gerontological Nurse Exam Secrets helps you ace the Gerontological Nurse Exam without weeks and months of endless studying. Our comprehensive Gerontological Nurse Exam Secrets study guide is written by our exam experts, who painstakingly researched every topic and concept that you need to know to ace your test. Our original research reveals specific weaknesses that you can exploit to increase your exam score more than you've ever imagined. Gerontological Nurse Exam Secrets includes: The 5 Secret Keys to Gerontological Nurse Exam Success: Time is Your Greatest Enemy, Guessing is Not Guesswork, Practice Smarter, Not Harder, Prepare, Don't Procrastinate, Test Yourself; A comprehensive General Strategy review including: Make Predictions, Answer the Question, Benchmark, Valid Information, Avoid Fact Traps, Milk the Question, The Trap of Familiarity, Eliminate Answers, Tough Questions, Brainstorm, Read Carefully, Face Value, Prefixes, Hedge Phrases, Switchback Words, New Information, Time Management, Contextual Clues, Don't Panic, Pace Yourself, Answer Selection, Check Your Work, Beware of Directly Quoted Answers, Slang, Extreme Statements, Answer Choice Families; A comprehensive Content review including: Biological Theories of Aging, Havighurst's Theory, Hypertension, Cognitive Changes, Loop Diuretics, Thiazide Diuretics, Systolic Heart Failure, Myocardial Infarction, Vasodilators, Aldosterone Agonist, Venous Insufficiency, Atrial Dysrhythmias, Chronic Bronchitis, Malnutrition, Fluid Balance, Hyposalivation, Dysphagia, Acute Gastrointestinal Hemorrhage, Hepatic Cirrhosis, Benign Prostatic Hypertrophy, Urinary Tract Infections, Pyelonephritis, Chronic Renal Failure, Osteoporosis, Rheumatoid Arthritis, Cardiac Dysrhythmias, Musculoskeletal Deformities, Hyperglycemia, Ketoacidosis, Thermoregulation, Thyrotoxic Storm, Electrolyte Imbalances, Respiratory Acidosis, Jung Theory of Individualism, Post-Menopausal Changes, Sociological Theories of Aging, and much more...**

Basic Geriatric Nursing

Mosby **Prepare for a successful career in caring for geriatric populations! Williams' Basic Geriatric Nursing, 7th edition is an easy-to-read text which presents the theories and concepts of aging along with appropriate nursing interventions. This comprehensive book helps you understand the unique physiologic and psychosocial changes that affect the elderly adult. Threaded throughout this new edition are practical QSEN boxes and Nurse Alert features, which highlight safety, cultural considerations, health promotion, coordinated care, and home care specific to elderly patients. In addition, an online Study Guide, NCLEX®-PN review questions, and real-world clinical situation boxes help you to study for exams and apply concepts to practice. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. UNIQUE! A FREE Study Guide, presented in a comprehensive PDF format on Evolve, reinforces your understanding. 10th grade reading level makes learning easier for you. Nursing Care Plans include Critical Thinking boxes to help you to assimilate and synthesize information. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. Cultural Considerations throughout text cover biocultural variations as well as health promotion for specific ethnic**

groups so you can provide culturally competent care. Health Promotion and Patient Teaching boxes highlight health promotion, disease prevention, and age-specific interventions. Home Health Considerations boxes provide information on home health care for the older adult. NEW! QSEN boxes provide you with the knowledge, skills, and attitudes necessary to continuously improve the quality and safety of care of the older adult. NEW! Nurse Alert feature emphasizes important safety and health promotion content specific to the elderly patient. NEW! Updated and expanded art program makes learning the material easier through clear and timely photographs and illustrations.

Gerontology Nursing Case Studies, Second Edition

100+ Narratives for Learning

Springer Publishing Company This highly praised text for nursing students, now in its second edition, presents nearly 110 interactive geriatric health case studies depicting a vast range of realistic scenarios—physical, mental, and psychosocial—that may present to nurses who work with aging adults. With exercises that reinforce learning, each case study reflects a holistic approach, encompassing mind, body, and spirit, to the presented problem. The second edition features several new cases and thoroughly updated cases from the first edition that include new health guidelines, new health promotion criteria, web links, references, and additional resources. Also provided are additional video clips and animations embedded throughout the text, Quality for Safety in Nursing Education (QSEN) Initiatives, a greater focus on prioritization and delegation, new cases covering Healthcare Disparities, Aging in Place, and Prevention of Catheter Associated Urinary Tract Infection, and a completely new section about Aging Issues Affecting the Family.

Instructor's Guide, Geriatric Nursing, a Study of Maturity

Evidence-Based Geriatric Nursing Protocols for Best Practice

Fourth Edition

Springer Publishing Company Named a 2013 Doody's Core Title! "The evidence-based protocols are designed as a primary reference and are useful, substantive, and timely...The broader contributions of useful format and succinct review of the evidence make it likely that this text will continue to be the leading resource in nursing education and practice."--The Gerontologist "Now more than ever, nurses are called upon to lead efforts to embed evidence-based practice in daily operations. As the IOM report states, 'nurses have key roles to play as team members and leaders for a reformed and better-integrated, patient-centered health care system.' The process of implementing sweeping change in health care will likely take years; however, nurses must start pragmatically and focus on these critically important protocols that have demonstrated improved outcomes for older adults. Simply stated, 'Pick this book up and use it.'" From the Foreword, Susan L. Carlson, MSN, APRN, ACNS-BC, GNP-BC, FNGNA President, National Gerontological Nursing Association "As a gerontological clinical educator/research nurse, I will often use this as a reference. The format and the content are good, and the explanations of how to best use the evidence simplify the process of sifting through mountains of information to figure the best practice." Score: 97, 5 Stars. --Doody's One of the premier reference books for geriatric nurses in hospital, long-term, and community settings, this 4th edition has been thoroughly updated to provide the most current, evidence-based protocols for care of common clinical conditions and issues in elderly patients. Designed to improve the quality, outcomes, and cost-effectiveness of health care, these guidelines are the result of collaboration between leading practitioners and educators in geriatric nursing and New York University College of Nursing. Protocols for each clinical condition have been developed by experts in that particular area, and most have been systematically tested by over 300 participating hospitals in "Nurses Improving Care for Health System Elders" (NICHE). Evidence is derived from all levels of care, including community, primary, and long-term care. A systematic method in compliance with the AGREE appraisal process was used to rate the levels of evidence for each protocol. Protocols are organized in a consistent format for ease of use, and each includes an overview, evidence-based assessment and intervention strategies, and an illustrative case study with discussion. Additionally, each protocol is embedded within chapter text, which provides the context and detailed evidence for the protocol. Each chapter contains resources for further study. Key Features: Updated to provide a wide range of evidence-based geriatric protocols for best practices Contains new chapters on function-focused care, catheter-associated urinary tract infections, mistreatment detection, acute care models, and transitional care Illustrates application of clinical protocols to real-life practice through case studies and discussion Edited by nationally known leaders in geriatric nursing education and practice, who are endorsed by the Hartford Institute for Geriatric Nursing and NICHE Encompasses the contributions of 58 leading practitioners of geriatric care Written for nursing students, nurse leaders, and practitioners at all levels, including those in specialty roles

Gerontological Nurse Certification Review

Springer Publishing Company The Gerontological Nurse Certification Review is an invaluable reference and certification test review guide for nurses preparing for RN Gerontological certification. Students studying gerontology, teachers preparing gerontology classes, and RNs working with older adults will also find this a practical and useful resource. The text presents information about preparing for the certification exam, a comprehensive compilation of content specific to gerontology, and a test bank of questions specifically developed for the RN. Why this is the only test review you need: Developed to address all aspects of ANCC exam Formatted for easy review and understanding of concepts Up-to-date and evidence-based 500 review questions to adequately prepare future gerontological nurses One of a kind--no other gerontological review books are currently available

Gerontological Nurse Practitioner Certification Review

Springer Publishing Company Nurse practitioners have long required a comprehensive certification review book for the ANCC Gerontological Nurse Practitioner (GNP) exam. This is the first book on the market to provide a thorough review of test content to effectively prepare nurses to successfully pass the GNP certification exam. With almost 200 practice questions culled from the real ANCC test outline, this is the only book nurse practitioners need to pass the ANCC exam. Key features: Includes guidelines on question dissection and analysis Discusses health promotion and disease prevention Covers assessment of acute and chronic illness Provides information on clinical management and pharmacological/non-pharmacological interventions Describes the nurse practitioner and patient relationship Discusses professional role and policy issues

Nursing Assessment and Diagnosis in Geriatric Care

Study Guide to the Video Series

Study Guide to Geriatric Psychiatry

A Companion to The American Psychiatric Publishing Textbook of Geriatric Psychiatry, Fifth Edition

American Psychiatric Pub **Study Guide to Geriatric Psychiatry** is a question-and-answer companion that allows you to evaluate your mastery of the subject matter as you progress through **The American Psychiatric Publishing Textbook of Geriatric Psychiatry, Fifth Edition**. The Study Guide is made up of approximately 255 questions divided into 25 individual quizzes of 8-17 questions each that correspond to chapters in the textbook. Questions are followed by an answer guide that references relevant text (including page numbers) in the textbook to allow quick access to needed information. Each answer is accompanied by a discussion that not only addresses the correct response but also explains why other responses are not correct. The Study Guide's companion, **The American Psychiatric Publishing Textbook of Geriatric Psychiatry, Fifth Edition**, has been thoroughly reorganized and updated to reflect new findings, with expanded treatment options and considerations and future directions, such as translational research, enhancing the text's utility while maintaining its reputation as the foremost reference and clinical guide on the subject.

Gerontological Nurse Certification Review, Second Edition

Springer Publishing Company "In this book, the tools and clear presentation of information related to the actual testing process provide the learner with a framework for confidence as he or she prepares for the exam. More important, however, is the elaborate presentation of the certification content and the attention to the important physical and psychosocial elements of the human aging process." --Geraldine Bednash, PhD, RN, FAAN Executive Director American Association of Colleges of Nursing This is the only certification review for the gerontology nursing specialty exam that has it all--a comprehensive review section covering key content included on the exam, well-honed test-taking strategies, and an extensive number of exam-style questions with answers and rationales. The second edition is completely updated to mirror the new format and content of the 2015 certification exam. It now features rationales for all review questions to promote critical thinking and includes new or expanded sections on health promotion and person-centered care, state-of-the-art drug information, and instruction on leadership, management, patient education, and population health. Concise and to the point, this resource contains all of the information required for test success, including step-by-step directives on how to best prepare for the certification exam, a meticulous content review presented according to the test blueprint, and 500 questions with answers and rationales that mirror the type of questions included on the exam. The dissection and analysis of a variety of questions likely to appear reinforce crucial test-taking strategies, and clues for memorizing information and tips for prioritizing answers offer additional tactics for exam success. An unrivalled resource for test preparation, the book will also be useful for students and teachers of gerontology and practicing nurses working with older adults. Key Features: Mirrors the new 2015 certification test plan Provides expanded content on health promotion and person-centered care Offers updated information on new medications and treatments Presents new content on leadership, management, patient education, and population health New to the second edition, are rationales for all 500 questions

Gerontology Nursing Case Studies

100 Narratives for Learning

Springer Publishing Company Designated a Doody's Core Title! "This is an excellent teaching guide and resource manual for instructors, gerontological nursing students, and practicing nurses and social workers who wish to learn more about geriatric concerns and care. It will be kept by nursing students long after they graduate as a guide to resources that will be valuable throughout their nursing careers. As a home care nurse working mainly with the geriatric community, I found the resources helpful in my practice. As an instructor, I found the book to be a very useful guide for teaching geriatrics." Score: 90, 4 Stars. -Doody's Medical Reviews "Donna Bowles's Gerontology Nursing Case Studies is a unique volume that effectively addresses the lack of gerontology case studies for use with undergraduate nursing students. Case studies are a pedagogically powerful approach to active learning that offer opportunities to apply content to clinical practice."--The Gerontologist "The case narrative approach of this book promotes active learning that is more meaningful to students (and practicing nurses) and more likely to increase the transfer of evidence into practice. An excellent resource for faculty (staff educators) to facilitate critical learning skills." Liz Capezuti, PhD, RN, FAAN Dr. John W. Rowe Professor in Successful Aging Co-Director, Hartford Institute for Geriatric Nursing New York University College of Nursing "This is a terrific text that provides nurses and other health care providers [with] good basic information about clinical problems and challenges we face in providing care to older adults. It should be considered required reading in all undergraduate programs." --From the foreword by Barbara Resnick, PhD, CRNP, FAAN, FAANP Professor, University of Maryland School of Nursing Sonya Ziporkin Gershowitz Chair in Gerontology At the heart of this unique volume are 100 case studies of older adults that address nearly every issue-physical, mental, and psychosocial-that may confront health care providers who work with the aging population. These case studies, culled from contributors with several centuries' worth of combined nursing expertise, are designed to guide nursing students in the development of interventions that encompass both complementary and alternative health strategies. Exercises interspersed throughout each case study are designed to foster critical thinking and decision-making skills. These case narratives provide a holistic approach to problem solving in regard to political, ethical, and legal issues; loss and end-of-life issues; elder abuse; depression, addiction and suicide; self-esteem and family relationships; sexuality; age-related health issues; cognitive impairment; cultural diversity as it relates to aging; pain management; and sleep disturbances. The volume also addresses such contemporary psychosocial issues as gambling addiction, hoarding behavior, emergency preparedness, the aging driver, and long-distance caregiving. Key Features: Provides 100 evidence-based case studies Cultivates development of critical thinking and decision-making skills Features realistic, contemporary scenarios Designed for use across the gerontology nursing curriculum Geared for AACN and NLN Accreditation Organized according to the needs of actual clinical settings

Evidence-Based Geriatric Nursing Protocols for Best Practice, Fifth Edition

Springer Publishing Company This new edition of one of the premier references for geriatric nurses in hospital, long-term, and community settings delivers current guidelines, real-life case studies, and evidence-based protocols developed by master educators and practitioners. With a focus on improving quality of care, cost-effectiveness, and outcome, the fifth edition is updated to provide the most current information about care of common clinical conditions and issues in older patients. Several new expert contributors present current guidelines about hip fractures, frailty, perioperative and postoperative care, palliative care, and senior-friendly emergency departments. Additionally, chapters have been reorganized to enhance logical flow of content and easy information retrieval. Protocols, systematically tested by more than 300 participating NICHE (Nurses Improving Care for Health system Elders) hospitals, are organized in a consistent format and include an overview, evidence-based assessment and intervention strategies, and an illustrative case study with discussion. Additionally, protocols are embedded within chapter text, providing the context and detailed evidence for each. Chapter objectives, annotated references, and evidence ratings for each protocol are provided along with resources for additional study. New to the Fifth Edition: Reorganized to enhance logical flow of information and ease of use Updated and revised Includes new contributions from expert educators and practitioners Provides new chapters on perioperative and postoperative care, general surgical care, care of hip fracture, palliative care, and the senior-friendly emergency department Key Features: Includes PowerPoints and a test bank for instructors Delivers evidence-based, current guidelines and protocols for care of common clinical conditions in the older person Illustrates the application of clinical protocols to real-life practice through case studies and discussion Edited by nationally known geriatric leaders who are endorsed by the Hartford Institute for Geriatric Nursing and NICHE Written for nursing students, nurse leaders, and practitioners at all levels, including those in specialty roles

Learning Geriatric Medicine

A Study Guide for Medical Students

Springer This textbook presents hands-on training material for medical students. The style reflects the need for practice-based teaching with a modern edge in daily clinical routine; accordingly, it also employs online material and pocket cards. Each chapter begins with specific learning objectives, which are cross-referenced with the European curriculum for undergraduate medical education released by the European Union of Medical Specialists (UEMS) together with the European Union Geriatric Medicine Society (EUGMS), as well as the minimum geriatric competences for medical students established by the American Geriatrics Society (AGS). World-renowned European experts in practicing and teaching the interdisciplinary field of Geriatrics contributed to this work, with the aim of offering the new generation of health professionals a global perspective on one of the greatest public health challenges of our time: the management of the steadily increasing number of older, multimorbid, and vulnerable persons. The major strength of this book - published under the auspices of the EUGMS - is its pragmatic, goal-oriented approach, which makes it suitable for bedside learning and patient-centered medicine; further, all of the chapters are firmly based on the pillars of the ageing process in all of its biological aspects, helping readers understand the pathophysiology of and rationale behind interventions for the main geriatric syndromes and disorders.

Gerontological Nurse Certification Review, Third Edition

Springer Publishing Company **Note to Readers: Publisher does not guarantee quality or access to any included digital components if book is purchased through a third-party seller.**
Praise for the second edition: "In this book, the tools and clear presentation of information related to the actual testing process provide the learner with a framework for confidence as he or she prepares for the exam. More important, however, is the elaborate presentation of the certification content and the attention to the important physical and psychosocial elements of the human aging process." -Geraldine Bednash, PhD, RN, FAAN Executive Director American Association of Colleges of Nursing This unrivalled resource contains all of the information every RN needs to successfully prepare for the Gerontological Nurse Certification Exam (GNCE). It provides a thorough review of key content that reflects the exam blueprint, proven test-taking strategies, and over 500 examination-style Q&As with in-depth rationales. The third edition is completely updated to reflect the most current clinical information. It includes new and expanded information on standardized patients and assessments, safety and security issues, hospice and palliative care, updated drug data, and test-taking and exam preparation tips. With everything you need to pass the GNCE in one place, this resource promotes success through clear and concise content summaries and bulleted information, abundant tables and charts that reinforce knowledge, and more Q&As than any other GNCE resource. With the increasing elder population, the GNCE certification is essential to the availability of a nursing workforce educated in assessing and meeting the needs of older adults. New to the Third Edition: New and updated information in every chapter! Demographics; population trends; and safety, security, and ethical issues Developmental stages including Maslow, Erickson and Kubler Ross New standardized patient assessments Physical, psychological, and spiritual principles of end-of-life care Major acute and chronic illnesses by body system All new drug information Time-tested exam strategies for success Critical thinking strategies and helpful memorization aids

Nursing Care of the Elderly

A Study Guide

Basic Geriatric Nursing

Elsevier Health Sciences **Preceded by Basic geriatric nursing / Gloria Hoffmann Wold. 5th ed. c2012.**

Basic Geriatric Nursing - Binder Ready

Elsevier Provide compassionate, professional nursing care for older adults! Designed for LPN/LVNs, **Basic Geriatric Nursing, 8th Edition** offers a practical introduction to concepts of aging and the physiologic and psychosocial changes that affect the elderly adult. Clear guidelines help you master basic skills such as health assessment, nursing diagnosis, therapeutic communication, medication administration, and nursing interventions in a variety of health care settings. New Next-Generation NCLEX(R) examination-style case studies help you develop clinical judgment, and nursing care plans show how to apply theory to practice. Written by experienced nursing educator Patricia Williams, this book provides the knowledge and skills you need to care for an aging population. Learning features in each chapter include objectives, key terms with phonetic pronunciations, basic concepts, and clinical application, all connected by case examples and a relevant research study or analysis of multiple studies. Nursing Process sections provide a framework for nursing care of older adults as related to specific disorders. Get Ready for the NCLEX(R) Examination! sections include key points, additional learning resources, and NCLEX review questions with answers and rationales on the Evolve website. Nursing Care Plans provide real-world examples of care plans along with critical thinking questions. Nursing interventions are grouped by health care setting, e.g., acute care, extended care, home care. Clinical Situation boxes highlight real-life care scenarios. Coordinated Care boxes address leadership and management issues for the LPN/LVN, and include topics such as restraints and end-of-life care. Critical Thinking boxes help you develop and improve skills in clinical judgment. Special boxes are included for health promotion, safety, nurse alerts, patient education, cultural considerations, home health considerations, complementary health approaches, and more. Medication tables summarize information about drugs commonly used in geriatric nursing. NEW! Next-Generation NCLEX(R) examination-style case studies at the end of chapters include new-format questions to help you prepare for the licensure examination. NEW! Discussion of the NCSBN Clinical Judgment Measurement Model helps you learn decision making and develop the skills needed to plan effective nursing care. NEW! Free Study Guide on the Evolve website includes Next-Generation case studies and review questions to reinforce your understanding.

Restorative Care Nursing for Older Adults

A Guide For All Care Settings, Second Edition

Springer Publishing Company Restorative care nursing, currently referred to as function focused care, is a philosophy and method of care that enables caregivers to actively help older adults achieve and maintain their highest level of function. This is the only volume written to educate caregivers and administrators about the philosophy of restorative care and how to integrate this philosophy in all types of care settings. This updated second edition contains new content in each chapter along with several entirely new chapters on function-focused care for cognitively impaired adults, ethical issues, and patient-centered

Adult-Gerontology Nurse Practitioner Certification Intensive Review

Fast Facts and Practice Questions, Second Edition

Springer Publishing Company Print+CourseSmart

Adult-Gerontology Acute Care Nurse Practitioner Q&A Review

Springer Publishing Company Print version of the book includes free access to the app (web, iOS, and Android), which offers interactive Q&A review plus the entire text of the print book! Please note the app is included with print purchase only. The only book designed specifically to prepare students for the Adult-Gerontology Acute Care Nurse Practitioner (AG-ACNP) exams, this unparalleled review details the step-by-step journey from classroom to patient room and beyond. This book begins with proven test-taking strategies for students and provides an overview of common pitfalls for exam takers. It features question styles and content material from both the American Association of Critical-Care Nurses (AACN®)

and American Nurses Credentialing Center (ANCC) exams, providing an overview of the certification exams written specifically by the certification organizations themselves. With more than 630 unique questions, this review contains completely up-to-date and evidence-based exam preparation. Practice questions are organized into body system review, special populations, and legal/ethical issues, and culminate in a 175-question practice test that represents the length, variety, and complexity of board exam questions. All questions' answers have accompanying rationales based on clinical practice guidelines. Completely unique to this publication, the last section of Adult-Gerontology Acute Care Nurse Practitioner Q&A Review guides one through the next steps after the exam—how to progress into practice with your new certification. **KEY FEATURES** Over 630 practice questions with answers and rationales The only current book publication designed specifically to prepare students for the AG-ACNP exams Contains the most current information and practice using published guidelines Exam tips and perils/pitfalls to avoid in test-taking Includes free access to interactive ebook and Q&A app—track and sync your progress on up to three devices!

Textbook of Adult-Gerontology Primary Care Nursing

Evidence-Based Patient Care for Adolescents to Older Adults

Springer Publishing Company "I was thrilled to see content that focuses on quality improvement, patient safety, interprofessional collaboration, care coordination, and other content that supports the role of the AGNP as a clinical leader and change agent. The authors give these topics the attention that they deserve, with clear, insightful guidance and importantly, the evidence base. The chapters that address roles (including during disasters!), settings of care, billing, and medication use address salient issues that will help the fledgling AGNP to hit the ground running and the seasoned AGNP to keep current. -Marie Boltz, PhD, GNP-BC, FGSA, FAAN Elouise Ross Eberly and Robert Eberly Endowed Professor Toss and Carol Nese College of Nursing, Penn State University From the Foreword Written for Adult-Gerontology Primary Care Nurse Practitioners, faculty, and students, this primary text encompasses the full scope of AGNP primary care practice across multiple healthcare settings including telehealth. The text emphasizes the best available evidence to promote person-centered care, quality improvement of care, interprofessional collaboration, and reducing healthcare costs. The text delivers timely information about current healthcare initiatives in the U.S., including care coordination across the healthcare continuum, interprofessional collaboration, and accountable care organizations. Disease-focused chapters contain general and specific population-based assessment and interprofessional care strategies to both common and complex health issues. They offer consistent content on emergencies, relevant social determinants of health, and ethical dilemmas. The text also prepares students for the administrative aspects of practice with information on the physical exam, medications, billing, coding, and documentation. Concise, accessible information is supported by numerous illustrations, learning objectives, quality and safety alerts, clinical pearls, and case studies demonstrating best practice. A robust ancillary package includes an Instructor's Manual with case studies and teaching guides, a Test Bank reflective of clinical situations and patient conditions, PowerPoints covering key concepts, and an Image Bank of skin conditions and other figures. **Key Features:** Covers several key courses in the curriculum for ease of teaching/learning Embraces a broad population focus addressing specific care needs of adolescents through older adults Facilitates safe care coordination and reinforces best practices across various health care settings including telehealth Fosters understanding, diagnosis, and management of patients with multimorbid conditions Incorporates evidence-based practice information and guidelines throughout, to ensure optimal, informed patient care A robust ancillary package includes an Instructor's Manual, a Test Bank, PowerPoints, and an Image Bank.

Ebersole and Hess' Toward Healthy Aging

Human Needs and Nursing Response

Ensure you thoroughly understand the intricate details of providing effective care for adults as they age. Ebersole & Hess' Toward Healthy Aging, 10th Edition is the only comprehensive gerontological nursing text that effectively communicates how to provide holistic care, promote healthy lives, and address end-of-life issues and concerns. Grounded in the core competencies recommended by the AACN in collaboration with the Hartford Institute for Geriatric Nursing, the tenth edition has been extensively revised and updated with shorter, more streamlined chapters and pedagogical features to facilitate learning. It covers the areas of safety and ethical considerations, genetics, communication with the patient and caregiver, promoting health in persons with conditions commonly occurring in later-life world-wide addressing loss and palliative care and much more. Special sections

provide an honest look at the universal experience of aging and the nurse's role in the reduction of health disparities and inequities as a member of the global community. Plus, it contains a variety of new learning features that focus on applying research and thinking critically in when providing care to aging adults across the care continuum. UPDATED COPD guidelines ensure you understand the latest information used by clinicians. UPDATED Theories of Aging chapter discusses the latest covers current findings on this timely issue. UPDATED Information on medication use and misuse instructs you in what to look for when working with prescription medications. UPDATED chapters incorporate the latest information on timely topics such as Palliative Care and Sleep. UPDATED Wound care guidelines reflect nationally recognized standards. UPDATED Information on LGBT family relationships and sexuality in older adults. A Student Speaks and An Elder Speaks sections at the beginning of every chapter provide honest and candid thoughts from students and elders. Learning objectives found at the beginning of every chapter help you to identify the primary take away messages they should learn from the chapter. Promoting Healthy Aging: Implications for Gerontological Nursing sections provide best practice guidelines for management and promotion of wellness for older adults with chronic illness and those at the end of life. Key concepts are bulleted at the end of every chapter to provide a quick review of the most important concepts found in the chapter. Nursing Studies provide practice examples designed to assist you in assessment, planning, interventions, and outcomes to promote healthy aging Critical Thinking Questions and Activities assist you in developing critical thinking skills related to chapter and nursing study content and include suggestions for in-classroom activities to enhance learning. Content consistent with the core competencies for geriatric nursing incorporates the Recommended Baccalaureate Competencies and Curricular Guidelines for the Nursing Care of Older Adults, the Geriatric Nursing Education State of the Science Papers, and the Hartford Institute for Geriatric Nursing Best Practices in Nursing Care to Older Adults. The latest information on biological theories of aging and evolving genomic research covers current findings on these timely issues. Research Highlights Boxes highlight important research studies in the field of gerontology Research Questions found at the end of chapters gives you a chance to do further research outside of your book study to give you a better grasp of the field as a whole. Safety Alert Boxes emphasize important safety tips to consider while working in a clinical setting. Resources for Best Practice boxes contain suggestions for further information on various chapter topics and tools for practice. Tips for Best Practice boxes feature summarized lists of evidence-based nursing interventions for practice. Healthy People boxes reference the goals cited in Healthy People 2020. NEW! Additional coverage of frailty in older adults helps you to understand the precautions you need to take when working with this population. NEW! Increased information on Health Literacy assists you in learning the right terms to promote healthy aging. NEW! Added information on herbs/supplements includes essential oils and green tea.

Geriatric Notes

Jones & Bartlett Learning Geriatric Notes is an essential quick reference for the advanced practice provider (APP) who provides care to elders in the outpatient setting, such as nursing homes, family practice, or home health. With a practical, accessible, and concise approach, it offers an easy to understand overview of the most common diagnoses, topics, and symptoms encountered in the aging population. Designed to offer access to the basics, this guide provides tables and bullet points for easy reference. Sections include health promotion, neurology and psychiatry, cardiovascular, pulmonary, gastroenterology, genitourinary, rheumatology, dermatology, endocrinology, labs, Beers list, and common presentations.

The Licensed Practical Nurse as Charge Nurse: Instructor's guide

Adult-Gerontology Practice Guidelines, Second Edition

Springer Publishing Company Praise for the First Edition: "Because of the way it is organized, this book meets the needs of both novice and experienced advance practice nurses. Each chapter defines the problem, how often it occurs, and what leads to the problem. To aid in assessment, the book includes the physical examination landmarks as well as diagnostic tests that might be needed. A plan of care is offered with several different alternatives for treatment and then notes what type of follow-up is needed. This would be a great resource for anyone working in the field of geriatrics...Score: 92 - 4 Stars! --Doody's Reviews The first book to encompass adult-gerontology practice guidelines for primary care, this comprehensive resource is useful as both a clinical reference and as a text for health care practitioners working with this population. Concise and up-to-date, the book is distinguished by its easy-to-read outline format that enables readers to quickly access the information they need. The second edition features 27 completely new entries associated with the aging population, an entirely new section on geriatric syndromes, and multiple updates to guideline changes for screenings. Polypharmacy issues are incorporated throughout and the BEERS list of medications is highlighted to guide prescribers in safely tapering or adding medications to a patient's drug regimen. For quick and easy access to

information, practice guidelines are organized primarily by body system, disorders are listed alphabetically within each body system, and all disorders are presented in a consistent format. With an emphasis on history taking, the physical exam, and key features of the aging population, each of the more than 240 disorder guidelines include definition, incidence, pathogenesis, predisposing factors, common complaints, other signs and symptoms, subjective data, physical exam, diagnostic tests, differential diagnoses, plan of care, health promotion, follow-up guidelines, and tips for consultation/referral. Particularly helpful features include "Practice Pointers" highlighting crucial information for a disorder and bold-faced "Alerts." Key patient teaching points are presented at the end of each guideline. Also included are 18 procedures commonly used within office or clinic settings and 140 Patient Teaching Guides that are available digitally. New to the Second Edition: 27 completely new entries New section on geriatric syndromes Polypharmacy alerts are incorporated throughout BEERS list of medications is highlighted for each disorder Updated guidelines for various screenings Medicare Coverage and Eligibility Screening U.S. Preventative Services Task Force recommendations on colonoscopy, screening mammogram guidelines, pap smears and pelvic examinations Deprescribing Algorithms ASCCP Algorithms Key Features: Focuses specifically on adult and older adult populations Presented in easy-to-read outline format for quick access to information Delivers consistent presentation of more than 240 disorders by body system Reviews 17 commonly used procedures step by step Provides "Practice Pointers" to indicate important care points Offers digital access to more than 140 extensive Patient Teaching Guides to customize and print

A Comprehensive Guide to Geriatric Rehabilitation

[previously entitled Geriatric Rehabilitation Manual]

Elsevier Health Sciences Now in its third edition, this trusted clinical guide enables both the busy practitioner and student to review or to learn about a range of pathologies, conditions, examinations, diagnostic procedures, and interventions that can be effectively used in the physical rehabilitation of older people. It presents a broad overview of age-related physiological changes as well as specific professional discipline perspectives. Organized into eleven distinct and interrelated units, the first unit begins with key anatomical and physiological considerations seen with aging which have significant impact on the older person. The second and third units go on to review important aging-related conditions and disorders of the musculoskeletal and neuromuscular/neurological systems respectively. Neoplasms commonly encountered in older people are the focus of the fourth unit; while aging-related conditions of the cardiovascular, pulmonary, integumentary and sensory systems are presented in units five through seven. Unit eight highlights a range of specific clinical problems and conditions commonly encountered with older patients. Critically, all of these units emphasize important examination and diagnostic procedures needed for a thorough evaluation and stress interventions that can be of significant benefit to the older patient. The ninth unit presents select physical therapeutic interventions that are especially important in managing rehabilitative care. Key societal issues related to aging are discussed in the tenth unit. Finally, the concluding eleventh unit focuses on the successful rehabilitation team that includes both professional and non-professional caregiver members. A trusted guide to the conditions and problems faced when evaluating and treating geriatric patients Extensive coverage over 84 chapters, each written by an expert in the field Includes imaging, vision and the aging ear Cross-referenced - providing the complexity and inter-relatedness of co-morbidities common to aging patients Collaborative international perspective Chapters on the aging spine; frailty; safe pilates for bone health; health care for older people Additional renowned editor - Ronald W. Scott Revised title to reflect the comprehensive scope of content covered (previously entitled Geriatric Rehabilitation Manual)

Study Guide for Fundamental Concepts and Skills for Nursing - E-Book

Elsevier Health Sciences Reinforce your understanding of basic nursing concepts and skills! Corresponding to the chapters in *Fundamental Concepts and Skills for Nursing, 6th Edition*, this study guide provides the review and practice you need to master essential LPN/LVN knowledge. Engaging exercises and questions help you learn to apply the nursing process, set priorities, practice critical thinking, make good decisions, and communicate effectively. With this practical review, you will get more out of your textbook and prepare for success on the Next Generation NCLEX-PN® exam. Review Questions for the NCLEX-PN® Examination let you practice for the exam with multiple-choice and alternate item format questions based on real-life situations. Word Attack Skills offer practice in pronouncing difficult terms and phrases, with emphasis on stress and intonation. Clinical Situations use realistic sample practice situations to stimulate critical thinking, clinical judgment, and practical application of nursing concepts. Critical Thinking Activities provide nursing scenarios and questions to help build your problem-solving skills. Developing Clinical Judgment activities help you meet the clinical practice objectives of the corresponding chapter. Communication Exercises let you practice using realistic nurse-patient dialogues, and are especially useful when paired with a partner. Cultural Points summarize issues and ask questions about customs that may differ across the cultures found in patient communities. Grammar Points exercises offer a refresher on common grammatical errors, such as the use of the past tense in taking case histories. Completion exercises boost your vocabulary by offering more opportunities to use key terms. Priority Setting questions ask you to rank tasks in order of importance. Short answer, identification, multiple-choice, and matching questions test and reinforce your knowledge of concepts conveyed in the text. Application of the Nursing Process questions ask you to use critical thinking skills and apply the steps of the nursing process to real-life patient care. Review of structure and function of the human body helps you remember what you learned in previous classes and how it applies to nursing. NEW! Updated exercises reflect content in the new edition of the *Fundamental Concepts and Skills for Nursing* textbook. NEW! UNIQUE! Next Generation NCLEX Exam-style questions are included in every chapter, reflecting the Clinical Judgment Measurement Model, and include each of the five new approved question types: enhanced hotspot, cloze (drop down), matrix, extended multiple-response, and extended drag-and-drop question types.

Adult-Gerontology Acute Care Nurse Practitioner Exam Secrets Study Guide

NP Test Review for the Nurse Practitioner Exam

Mometrix Media Llc **Adult-Gerontology Acute Care Nurse Practitioner Exam Secrets** helps you ace the Nurse Practitioner Exam without weeks and months of endless studying. Our comprehensive **Adult-Gerontology Acute Care Nurse Practitioner Exam Secrets** study guide is written by our exam experts, who painstakingly researched every topic and concept that you need to know to ace your test. Our original research reveals specific weaknesses that you can exploit to increase your exam score more than you've ever imagined. **Adult-Gerontology Acute Care Nurse Practitioner Exam Secrets** includes: **The 5 Secret Keys to NP Exam Success: Time is Your Greatest Enemy, Guessing is Not Guesswork, Practice Smarter, Not Harder, Prepare, Don't Procrastinate, Test Yourself; A comprehensive General Strategy review including: Make Predictions, Answer the Question, Benchmark, Valid Information, Avoid Fact Traps, Milk the Question, The Trap of Familiarity, Eliminate Answers, Tough Questions, Brainstorm, Read Carefully, Face Value, Prefixes, Hedge Phrases, Switchback Words, New Information, Time Management, Contextual Clues, Don't Panic, Pace Yourself, Answer Selection, Check Your Work, Beware of Directly Quoted Answers, Slang, Extreme Statements, Answer Choice Families; A comprehensive Content review including: Foundations of Practice, Advanced Health and Physical Assessment, Advanced Physiology and Pathophysiology, Advanced Pharmacology; Professional Role, Scope of Practice, Patient and Family-Centered Care, Ethical and Legal Concepts, Evidence-Based Practice; Independent Practice, Diagnosis of Complex Acute, Critical and Chronic Illness, Restorative Care, Health Promotion and Health Protection; Health Care Systems, Health Care Policy and Delivery, Quality Impro**

Geriatric Psychiatry Review and Exam Preparation Guide

A Case-Based Approach

University of Toronto Press **Geriatric psychiatry** is a relatively young discipline within the field of North American psychiatry. The development of a workforce to meet the needs of an aging population has been identified as an urgent priority, but there is still much we don't know about fulfilling the mental health needs of older adults. For Mark J. Rapoport, geriatric psychiatrists must assess and treat patients today in face of the limitations of what we know, but also be armed with enthusiasm to create novel ways of impacting on the quality of life of older patients with mental illness. The chapters in this book include case scenarios, concise point-form summaries of diagnostic and treatment approaches, up-to-date evidence syntheses, discussions of controversies, and a series of practical and thought-provoking questions and answers. **Geriatric Psychiatry** is a succinct and advanced review of geriatric psychiatry that will help clinicians improve the psychiatric care of an aging population.

Compact Clinical Guide to Geriatric Pain Management

An Evidence-Based Approach for Nurses

Springer Publishing Company This is one of the specialty references to accompany the keystone titles (chronic & acute pain) in a series of pain management references for use by primary care providers (NPs, PAs, CNSs) in clinics, hospitals, palliative care settings and in specialty care courses and for clinical nurses (RNs) in specialty settings such as critical care. The concise, portable, clinically oriented book provides quick access to needed pain management guidelines presented in a consistent format. It is designed to help guide practitioners assess pain in the geriatric patient population. This book will cover the experience of pain in the elderly, what impact it has on an individual's lifestyle, pain assessment in older patients, medication options for treatment, reconditioning and complementary methods for controlling pain. The bulleted text with highlights and the inclusion of tools for assessment and standardized treatment order sets will provide a wealth of information for the busy practitioner.

Geriatric Psychiatry Study Guide

Mastering the Competencies

Springer Trainees in subspecialty of geriatric psychiatry and general psychiatry need to master core competencies in geriatric psychiatry in order to practice. This book is designed to provide short-answer question-based learning centering around the core curriculum topics in geriatric psychiatry and is primarily ideal not only for medical students, residents, and fellows, but also for psychiatrists preparing for re-certification. This book features approximately 300 short-answer questions on geriatric psychiatry topics, each comprising the stem of a brief clinical scenario or concise question with expected number of answers. The book also features detailed teaching notes, graphics, and the respective source references. The format is consistently structured from chapter to chapter, practical and concise, and designed to enhance the reader's diagnostic and management ability and clinical understanding. Each answer includes a concise discussion, pertinent illustrations, and source references. This text is a valuable reference and teaching tool that provides an opportunity for learning across a rapidly growing field. The material covered matches the existing postgraduate curricula in geriatric psychiatry and helps prepare candidates for their specialty and subspecialty certification examinations. The cases map well to both the American Geriatric Psychiatry Association and Canadian Academy of Geriatric Psychiatry as well as other international postgraduate curricula. The book covers main topics within geriatric psychiatry, some such as substance use disorders and sexuality and sexual dysfunction in later life. As the Baby Boomers age, this reference will continue to be a valuable staple in geriatric workforce training. Geriatric Psychiatry Study Guide is the ultimate resource for students, residents, fellows, psychiatrists, psychologists, family practitioners, nurses, social workers, and all clinicians rising to the challenges of the mental health segment of the geriatric workforce.

Case Studies in Gerontological Nursing for the Advanced Practice Nurse

John Wiley & Sons As the fastest growing population sector worldwide, older adults are seen in almost every care setting in which clinicians practice. Developed as a resource for advanced practice nurses in any setting, Case Studies in Gerontological Nursing for the Advanced Practice Nurse presents readers with a range of both typical and atypical cases from real clinical scenarios. The book is organized into six units covering cases related to aging, common health challenges, health promotion, environments of care, cognitive and psychological issues, and issues relating to aging and independence. Each case follows a similar format including the patient's presentation, critical thinking questions, and a thorough discussion of the case resolution through which students and clinicians can enhance their clinical reasoning skills. Designed to promote geriatric clinical education through self-assessment or classroom use, Case Studies in Gerontological Nursing for the Advanced Practice Nurse is a key resource for all those dedicated to improving care for older adults.

Ebersole & Hess' Toward Healthy Aging - Binder Ready

Mosby Binder-Ready Edition: This loose-leaf copy of the full text is a convenient, accessible, and customizable alternative to the bound book. With this binder-ready edition, you can personalize the text to match your unique study needs! Ensure you thoroughly understand the intricate details of providing effective care for adults as they age. Ebersole & Hess' Toward Healthy Aging, 10th Edition is the only comprehensive gerontological nursing text that effectively communicates how to provide holistic care, promote healthy lives, and address end-of-life issues and concerns. Grounded in the core competencies recommended by the AACN in collaboration with the Hartford Institute for Geriatric Nursing, the tenth edition has been extensively revised and updated with shorter, more streamlined chapters and pedagogical features to facilitate learning. It covers the areas of safety and ethical considerations, genetics, communication with the patient and caregiver, promoting health in persons with conditions commonly occurring in later-life world-wide addressing loss and palliative care and much more. Special sections provide an honest look at the universal experience of aging and the nurse's role in the reduction of health disparities and inequities as a member of the global community. Plus, it contains a variety of new learning features that focus on applying research and thinking critically in when providing care to aging adults across the care continuum. UPDATED COPD guidelines ensure you understand the latest information used by clinicians. UPDATED Theories of Aging chapter discusses the latest covers current findings on this timely issue. UPDATED Information on medication use and misuse instructs you in what to look for when working with prescription medications. UPDATED chapters incorporate the latest information on timely topics such as Palliative Care and Sleep. UPDATED Wound care guidelines reflect nationally recognized standards. UPDATED Information on LGBT family relationships and sexuality in older adults. A Student Speaks and An Elder Speaks sections at the beginning of every chapter provide honest and candid thoughts from students and elders. Learning objectives found at the beginning of every chapter help you to identify the primary take away messages they should learn from the chapter. Promoting Healthy Aging: Implications for Gerontological Nursing sections provide best practice guidelines for management and promotion of wellness for older adults with chronic illness and those at the end of life. Key concepts are bulleted at the end of every chapter to provide a quick review of the most important concepts found in the chapter. Nursing Studies provide practice examples designed to assist you in assessment, planning, interventions, and outcomes to promote healthy aging Critical Thinking Questions and Activities assist you in developing critical thinking skills related to chapter and nursing study content and include suggestions for in-classroom activities to enhance learning. Content consistent with the core competencies for geriatric nursing incorporates the Recommended Baccalaureate Competencies and Curricular Guidelines for the Nursing Care of Older Adults, the Geriatric Nursing Education State of the Science Papers, and the Hartford Institute for Geriatric Nursing Best Practices in Nursing Care to Older Adults. The latest information on biological theories of aging and evolving genomic research covers current findings on these timely issues. Research Highlights Boxes highlight important research studies in the field of gerontology Research Questions found at the end of chapters gives you a chance to do further research outside of your book study to give you a better grasp of the field as a whole. Safety Alert Boxes emphasize important safety tips to consider while working in a clinical setting. Resources for Best Practice boxes contain suggestions for further information on various chapter topics and tools for practice. Tips for Best Practice boxes feature summarized lists of evidence-based nursing interventions for practice. Healthy People boxes reference the goals cited in Healthy People 2020. NEW! Additional coverage of frailty in older adults helps you to understand the precautions you need to take when working with this population. NEW! Increased information on Health Literacy assists you in learning the right terms to promote healthy aging. NEW! Added information on herbs/supplements includes essential oils and green tea.

Study Guide for Essentials of Nursing Research

Appraising Evidence for Nursing Practice

Lippincott Williams & Wilkins Study Guide for Essentials of Nursing Research, 8e augments the text and provides students with exercises for each text chapter that furthers their understanding and application of the text content. Critiquing opportunities abound in the Study Guide which includes eight full-length studies in their entirety representing a range of research types. Application Exercises are based on these studies and guide students in reading, understanding, and critiquing the studies. In addition, there are activities to support the learning of fundamental research terms and principles including fill in the blanks, matching exercises, and Study questions.

Lippincott's Nursing Guide to Expert Elder Care

Lippincott Williams & Wilkins **Focusing specifically on the needs of the aging adult population—from the so-called silent generation (Depression era babies) through the youngest of the baby boomers—this book provides comprehensive coverage of gerontological concepts, health promotion strategies, and practical information on nursing care for all major disorders that typically affect older adults. Each chapter starts with an interesting or inspiring quote to set the tone as well as a fact-filled, illustrated timeline of people, cultural events, and scientific advances germane to the topic at hand. Abundant photos and illustr**
