Over the past decade, thousands of programmes and projects around the world have worked to open data and use it to address a myriad of social and economic challenges. Meanwhile, issues related to data rights and privacy have moved to the centre of public and political discourse. As the open data movement enters a new phase in its evolution, shifting to target real-world problems and embed open data thinking into other existing or emerging communities of practice, big questions still remain. How will open data initiatives respond to new concerns about privacy, inclusion, and artificial intelligence? And what can we learn from the last decade in order to deliver impact where it is most needed? The State of Open Data brings together over 60 authors from around the world to address these questions and to take stock of the real progress made to date across sectors and around the world, uncovering the issues that will shape the future of open data in the years to come. **Livestock Policy Analysis ILRI (aka ILCA and ILRAD)** Policy concepts; Identification of policy issues; Production systems, supply and demand; Market, price and trade policies; Marketing and distribution systems; Budget and manpower planning; Land tenure police for the livestock sector; Policy analysis report writing and communication; Livestock production and marketing in alphabeta - a case study. **Processes and Phenomena on the Boundary Between Biogenic and Abiogenic Nature Springer Nature** The book represents a collection of papers presented at VI International Symposium "Biogenic - abiogenic interactions in natural and anthropogenic systems" that was held on 24-27 September 2018 in Saint Petersburg (Russia). Papers in this book cover a wide range of topics connecting with interactions between biogenic and abiogenic components in lithosphere, biosphere and technosphere. The main regarding topics are following: methods for studying the interactions between biogenic and abiogenic components; geochemistry of biogenic-abiogenic systems; biomineralization and nature-like materials and technologies; medical geology; biomineralogy and organic mineralogy; biomineral interactions in soil; biodeterioration of natural and artificial materials; biomineral interactions in extreme environment. **Theological Ethics and Global Dynamics In the Time of Many Worlds John Wiley & Sons** The nature of ethics has been the subject of much controversy and argument in recent decades. Theological Ethics and Global Dynamics tackles these various debates, offering a wide-ranging, comprehensive, and provocative statement of the nature of theological ethics in global times. Offers an accessible, lively, and provocative statement of the nature of moral philosophy and theological ethics in contemporary times. Tackles various perspectives on debates about distinctly Christian ethics. Argues that we need to reframe the arena in which moral questions are asked. Engages a range of positions, exploring distinctively modern issues such as moral and cultural relativism, globalization, problems of consumption and violence, and religious pluralism. Addresses the complexity of certain ethical decisions, which are difficult and far from clear-cut, and yet presents an ethical understanding which is both humane and deeply religious. **Popular Science Monthly Organic Gardening and Farming A Frequency Dictionary of Contemporary American English Word Sketches, Collocates and Thematic Lists Routledge** First published in 2010 . City Directory Sugarcane-based Biofuels and Bioproducts John Wiley & Sons** Sugarcane has garnered much interest for its potential as a viable renewable energy crop. While the use of sugar juice for ethanol production has been in practice for years, a new focus on using the fibrous co-product known as bagasse for producing renewable fuels and bio-based chemicals is growing in interest. The success of these efforts, and the development of new varieties of energy canes, could greatly increase the use of sugarcane and sugarcane biomass for fuels while enhancing industry sustainability and competitiveness. Sugarcane-Based Biofuels and Bioproducts examines the development of a suite of established and developing biofuels and other renewable products derived from sugarcane and sugarcane-based co-products, such as bagasse. Chapters provide broad-ranging coverage of sugarcane biology, biotechnological advances, and breakthroughs in production and processing techniques. This text brings together essential information regarding the development and utilization of new fuels and bioproducts derived from sugarcane. Authored by experts in the field, Sugarcane-Based Biofuels and Bioproducts is an invaluable resource for researchers studying biofuels, sugarcane, and plant biotechnology as well as sugar and biofuels industry personnel. **Comprehensive Guideline for Procurement of Products Containing Recovered Materials DIANE Publishing**

That said, the region faces significant challenges over the medium to long term, including reducing poverty, overcoming infrastructure bottlenecks, enhancing productivity and skill levels, and improving the business climate, among others. The banking sector remains underdeveloped in SSA, thus reducing its contribution to growth, although its limited integration with global financial markets helped countries weather adverse effects of the global financial crisis. It is imperative that the banking sector plays a more active role in SSA, in order to achieve sustainable growth led by the private sector. This paper, building on the recent literature on SSA, discusses the main features of the region's growth and macroeconomic performance in recent years and the outlook for the coming years; it then reviews the main features of SSA banking systems and how they were affected by the global economic crisis, while flagging some factors that could influence financial sector developments in SSA in the period ahead. **Holding Company Act. It points to the major changes in recent years, highlighting the leading traders, the best-performing regions, the most traded goods and services, and the performance of least-developed countries. The publication also looks into the impact of COVID-19 on global trade and the outlook for 2021. In an introduction to the publication, Director-General Roberto Azevêdo says: "The WTO plays a critical role in compiling and analysing trade data. While the ongoing pandemic represents a dramatic break with nearly all recent economic trends, the fact remains that patterns in global trade offer useful insights for what the future may hold." The report looks into the shifting patterns in global trade across a range of sectors, pinpointing areas that have seen major changes in recent years. These include trade in renewable energy goods, such as solar panels and electric cars, and trade in plastics. It also focuses on the impact of trade tensions in sectors such as iron and steel and the effects of the COVID-19 pandemic in areas such as tourism. The report's analytical chapters are complemented by 65 tables providing a detailed breakdown of various aspects of merchandise trade and trade in commercial services. The merchandise trade data in the report was compiled in collaboration with the United Nations Conference on Trade and Development (UNCTAD) while commercial services data was jointly produced with UNCTAD and the International Trade Centre (ITC) in cooperation with the United Nations Statistics Division. **World Trade Statistical Review 2016** International Trade Statistics 2015 provides a detailed overview of the latest developments in world trade, covering both merchandise and services trade as well as trade measured in value-added terms. A overview section at the start of the publication looks back over 20 years, using charts and maps to illustrate the most important trends. More detailed data are provided in a variety of tables covering specific aspects of world trade up to the end of 2014. International Trade Statistics 2015 serves as an invaluable reference tool for researchers, policy makers and anyone
