### The Secret

**ibooks** The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of *THE SECRET*. Are you smart enough? *THE SECRET: A TREASURE HUNT* was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum.

## The Quit Smoking Answer

**CreateSpace** "The Quit Smoking Answer" is structured in such a way that all readers follow a process of "cold turkey" cessation through a step-by-step system to become nicotine free. The system shared is quick, easy, and proven, regardless of a person's dependency on nicotine. If you have ever thought, "wouldn't it be nice to quit smoking" than you've set the mood and you're ready to begin. It's easier to quit nicotine than you think! JW Smith, a smoker for 40 years, wrote this book after ending his vicious cycle of numerous failed attempts to quit. His system for nicotine cessation evolved over a subsequent six-week period of preparation to quit. He shares his story about a conversation with his nine year-old granddaughter that finally set the wheels in motion to find a better way - one that works. JW researched smoking cessation methods and used his own experience to forge a new path. This book may very well be destined to be in a category by itself in the nicotine cessation world of recommendations and advice. Why? Because it works! JW makes the case that smoking cessation is not an event, but rather a process. His book will teach you the key cognitive techniques he used to end both the physical and psychological addictions to nicotine. It debunks myths about nicotine replacement therapy products and instead lays out a natural progression of steps for becoming a nonsmoker. The premise of the book is based on this famous quote; "When you change the way you look at things, the things you look at change." In the beginning of the book it is recommended to establish an environment and path of least resistance. Less resistance to quit is the first key step to becoming nicotine free. It is recommended that readers continue the use tobacco products including e-cigarettes while reading the book over a two or three day period of time- helping again to establish less resistance to quit. He additionally recommends as a first step that you tell no one of your desire to quit - preventing anyone including yourself of sabotaging your intention. As you apply the techniques and methods written about it becomes a natural procession leading up to your very last cigarette or use of chewing tobacco. A transformation of your thinking takes place and ending your addiction will seem like an "almost non-event" - as something just happens to you as you read this book. You will be physically and mentally prepared to end your addiction after reading this one of a kind book. Free from nicotine for life - and all the great rewards that come with it!
