McGraw-Hill Humanities, Social Sciences & World Languages **READING AND STUDY SKILLS, Fifth Edition, Form B**, is the alternate version of the Fifth Edition, Form A. It provides students with the essential reading and study skills they need to become independent learners in college. The book is also a brief guide to important word skills, and it includes coverage of motivational skills that help students approach their courses with the right attitudes. Students learn by doing, and so the book offers an abundance of practice activities. In all, there are over 200 exercises that help students learn key comprehension skills. The latest edition contains a complete chapter taken from an introductory sociology text, with which students can practice their reading and study skills. Form B differs from Form A in its reading selections and activities. Instructors, thus, can separate forms of the book from one semester to the next, or from one class to the next.

OUTLIERS

THE STORY OF SUCCESS

Penguin UK **From the bestselling author of Blink and The Tipping Point, Malcolm Gladwell's Outliers: The Story of Success overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. Outliers will change the way you think about your own life story, and about what makes us all unique.
