*Penguin* “Stirring...Lithwick’s approach, interweaving interviews with legal commentary, allows her subjects to shine...Inspiring.”—*New York Times Book Review* “In Dahlia Lithwick’s urgent, engaging “Lady Justice,” Dobbs serves as a devastating bookend to a story that begins in hope.”—*Boston Globe* Dahlia Lithwick, one of the nation’s foremost legal commentators, tells the gripping and heroic story of the women lawyers who fought the racism, sexism, and xenophobia of Donald Trump’s presidency—and won After the sudden shock of Donald Trump’s victory over Hillary Clinton in 2016, many Americans felt lost and uncertain. It was clear he and his administration were going to pursue a series of retrograde, devastating policies. What could be done? Immediately, women lawyers all around the country, independently of each other, sprang into action, and they had a common goal: they weren’t going to stand by in the face of injustice, while Trump, Mitch McConnell, and the Republican party did everything in their power to remake the

judiciary in their own conservative image. Over the next four years, the women worked tirelessly to hold the line against the most chaotic and malign presidency in living memory. There was Sally Yates, the acting attorney general of the United States, who refused to sign off on the Muslim travel ban. And Becca Heller, the founder of a refugee assistance program who brought the fight over the travel ban to the airports. And Roberta Kaplan, the famed commercial litigator, who sued the neo-Nazis in Charlottesville. And, of course, Stacey Abrams, whose efforts to protect the voting rights of millions of Georgians may well have been what won the Senate for the Democrats in 2020. These are just a handful of the stories Lithwick dramatizes in thrilling detail to tell a brand-new and deeply inspiring account of the Trump years. With unparalleled access to her subjects, she has written a luminous book, not about the villains of the Trump years, but about the heroes. And as the country confronts the news that the Supreme Court, which includes three Trump-appointed justices, will soon overturn *Roe v. Wade*, Lithwick shines a light on not only the major consequences of such a decision, but issues a clarion call to all who might, like the women in this book, feel the urgency to join the fight. A celebration of the tireless efforts, legal ingenuity, and indefatigable spirit of the women whose work all too often went unrecognized at the time, *Lady Justice* is destined to be treasured and passed from hand to hand for generations to come, not just among lawyers and law students, but among all optimistic and hopeful Americans.

*Forgotten Books* Excerpt from *The Law and the Lady: A Novel* IN offering this book to you, I have no Preface to write. I

have only to request-that you will bear in mind certain established truths, which occasmally escape your memory when you are reading a work of fiction. Be pleased, then, to remember (first): that the actions of human beings are not invariably governed by the laws of pure reason. (secondly) that we are by no means always in the habit (especially when we happen to be women) of bestowing our love on the objects which are the most deserving of it, in the Opinions of our friends. (thirdly and Lastly): that Characters which may not have appeared, and Events which may not have taken place, Within the limits of our own individual experience, may nevertheless be perfectly natural Characters and perfectly probable Events, for all that. Having said these few words, I have said'all that seems to be necessary at the present time; and I bid you cordially farewell. **COMMON LAW AND MODERN SOCIETY**

---

---

**KEEPING PACE WITH CHANGE**

---

*Oxford University Press* Law is a lasting social institution, but it must also be open to change. How is law made, and what prompts change? How can society influence the law, and how does the law respond to societal change? The first volume of *Shaping Tomorrow's Law* examined human rights and European law. In this second volume Mary Arden turns her attention to domestic law, providing a judge's viewpoint on the roles of society, government, and the judiciary in the transformation and reform of the law. The first section of *Common Law and Modern Society* explains what we mean by judge-made law and shows how the law responds to the needs of a changing society. Adaptation may be in response to shifting values, or in response to constitutional change. This is demonstrated in chapters on assisted reproduction and assisted dying, both modern concerns, and a far older example, that of the law on water, which has been evolving over the centuries in response to society's changing demands. The law also needs to reflect constitutional change, as in the case of Welsh devolution. The second section of the book looks at the necessary simplification of the law and systematic legal reform. These tasks lie at the heart of the work of the Law Commission, which celebrated its 50th anniversary in 2015. Drawing on her own experience as former Chairman of the Law Commission, Mary Arden argues that statute law can be made simpler by codification, and that the success of codification may vary depending on the field of law. The final section looks ahead to tomorrow's judiciary. The accountability of judges is a continuing area of discussion, and this includes ensuring that the reasoning behind their decisions is understood by the relevant people. Mary Arden goes on to argue that the vision for the judiciary today and tomorrow should be one of greater diversity in the widest sense. This will help to ensure not only greater fairness and wider opportunity but also better decision-making. The book concludes with advice and encouragement for future legal professionals.

---

*Continuum* Crime and punishment, criminal law and its administration, are areas of ancient history that have been explored less than many other aspects of ancient civilizations. Throughout history women have been affected by crime both as victims and as offenders. Yet, in the ancient world customary laws were created by men, formal laws were written by men, and both were interpreted and enforced by men.

For that reason it begins with a pink tea and among the mingled odors of many delicate perfumes and the hale, frank smell of Caroline Testout roses. There had been a great number of debutantes "coming out" that season in San Francisco by means of afternoon teas, pink, lavender, and otherwise. This particular tea was intended to celebrate the fact that Josie Herrick had arrived at that time of her life when she was to wear her hair high and her gowns long, and to have a "day" of her own quite distinct from that of her mother.

### MAKING THE LAW WORK FOR WOMEN

---

---

*Routledge Studies in Gender and Global Politics* The law is a well-known tool in fighting gender inequality, but which laws

actually advance women's rights? This book unpacks the complex nuances behind gender-responsive domestic legislation, from several of the world's leading experts on gender equality. Drawing on domestic examples and international law, it provides a primer of theory alongside tangible and practical solutions to fulfil the promise of the law to deliver equality between men and women. Part I outlines what progress has been made to date on eradicating gender inequality, and insights into the law's potential as one lever in the global struggle for equality. Parts II and III go on to explore concrete areas of law, with case studies from multiple jurisdictions that examine how well domestic legislation is working for women. The authors bring their critical lens to areas of law often considered from a gender perspective - gender-based violence, women's reproductive health, labour and gender equality quotas - while bringing much-needed analysis to issues often ignored in gender debates, such as taxation, environmental justice and good governance. Part IV seeks to move from a theoretical goal of greater accountability to a practical one. It explores both accountability for international women's rights norms at the domestic level and the potential of feminist approaches to legislation to deliver laws that work for women. Written for students, academics, legislators and policymakers engaged in international women's rights law, gender equality, government accountability and feminist legal theory, this book has tremendous transformative potential to drive forward legal change towards the eradication of gender inequality.

### **A HISTORY OF THE THOMAS JEFFERSON SCHOOL OF LAW**

---

"The Thomas Jefferson School of Law originated in the 1960s as the San Diego branch campus of a for-profit, non-ABA accredited Orange County law school that served principally part-time evening students. Although it was proud of educating working adults and produced some outstanding alumni, its attrition rates ranged between 50 and 75 percent and its pass rate on the California bar exam sometimes fell below 25 percent. In a half dozen years during the 1990s, the law school radically transformed itself. It separated from its parent, adopted a new name, became the first for-profit law school to gain ABA accreditation, and converted to a nonprofit. Admissions applications soared tenfold resulting in a nationally based student body second in California only to Stanford's for geographic diversity, the academic dismissal rate dropped below 10 percent and its California bar pass rate climbed above 75 percent. Graduates received offers from prestigious law firms in New York, Los Angeles and other cities. The law school was ranked 5th in the nation for the quality of academic life and 55th worldwide for the number of its faculty publications downloaded by scholars and practitioners. This story demonstrates what can be achieved through a commitment to excellence and a belief that people matter."--Page [4] of cover.

## **FEMINIST ADVOCACY, FAMILY LAW AND VIOLENCE AGAINST WOMEN**

---

### **INTERNATIONAL PERSPECTIVES**

---

*Routledge Studies in Development and Society* **Around the world, discriminatory legislation prevents women from accessing their human rights. It can affect almost every aspect of a woman's life, including the right to choose a partner, inherit property, hold a job, and obtain child custody. Often referred to as family law, these laws have contributed to discrimination and to the justification of gender-based violence globally. This book demonstrates how women across the world are contributing to legal reform, helping to shape non-discriminatory policies and to counter current legal and social justifications for gender-based violence. The book takes case studies from Brazil, India, Iran, Lebanon, Nigeria, Palestine, Senegal, and Turkey, using them to demonstrate in each case the varied history of family law and the wide variety of issues impacting women's equality in legislation. Interviews with prominent women's rights activists in three additional countries are also included, giving personal accounts of the successes and failures of past reform efforts. Overall, the book provides a complex global picture of current trends and strategies in the fight for a more egalitarian society. These findings come at a critical moment for change. Across the globe, family law issues are contentious. We are simultaneously witnessing an increased demand for women's equality and the resurgence of fundamentalist forces that impede reform, invoking rules rooted in tradition, culture, and interpretations of religious texts. The outcome of these disputes has enormous ramifications for women's roles in the family and society. This book tackles these complexities head on, and will interest activists, practitioners, students, and scholars working on women's rights and gender-based violence.**

This highly original study follows the dramatic variations in women's nationality rights, citizenship law, and immigration policy in the United States during the late Progressive and interwar years, placing the history and impact of "derivative citizenship" within the broad context of the women's suffrage movement. Making impressive use of primary sources, and utilizing original documents from many leading women's reform organizations, government agencies, Congressional hearings, and federal litigation involving women's naturalization and expatriation, Candice Bredbenner provides a refreshing contemporary feminist perspective on key historical, political, and legal debates relating to citizenship, nationality, political empowerment, and their implications for women's legal status in the United States.
