#### ENVIRONMENTAL SCIENCE AND TECHNOLOGY

CRC Press This broad overview covers the four traditional spheres of the environment: water, air, earth, and life, and introduces a fifth sphere - the "anthrosphere" - which the author defines as the sphere of human activities, especially technology, that affect the earth. Environmental Science and Technology is organized into six major areas; one for each of the five spheres and one introductory section that explains the fundamentals of chemistry, biology, biochemistry, and environmental chemistry. Throughout the book, the relationships among the five spheres and their connections to the sciences are emphasized. For better or worse, technology is closely intertwined with the other four spheres. Humans utilize resources, manufacture goods, practice agriculture, and engage in other activities that have profound effects on the planet. This unique text/reference takes a realistic look at the environmental effects of human activities, and shows how constructively directed technology can have a beneficial effect on the Earth.

#### C. S. LEWIS AND THE CATHOLIC CHURCH

TAN Books C. S. Lewis, the great British novelist and Christian apologist, has been credited by many-including the author-for aiding their journey to the Catholic Church. For this reason, it is often perplexing that Lewis himself never became Catholic. In C. S. Lewis and the Catholic Church, Joseph Pearce delves into Lewis's life, writings, and spiritual influences to shed light on the matter. Although C. S. Lewis's conversion to Christianity was greatly influenced by J. R. R. Tolkien, a Catholic, and although Lewis embraced many distinctively Catholic teachings, such as purgatory and the sacrament of Confession, he never formally entered the Church. Meticulously researched and beautifully written, this book digs deep to present the facts of Lewis's life, to illuminate key points in his writings, and to ask the question: Was C. S. Lewis on the path to Rome? This revised and updated edition-with a new introduction by Father Dwight Longenecker-is a fascinating historical, biographical, theological, and literary account of a man whose writings have led scores to the Catholic Church, despite never having become a Catholic himself.

#### IF EVE ONLY KNEW

#### FREEING YOURSELF FROM BIBLICAL WOMANHOOD AND BECOMING ALL GOD MEANT FOR YOU TO BE

Chalice Press "She is a godly woman." "True love waits." Are these phrases and many others about gender truly based in scripture, or based on dusty, outdated stereotypes? And how do these perceptions repress people, especially women, from fully expressing their faith? If Eve Only Knew offers a fresh perspective on gender and the Bible, destroying trumped-up, captive-creating messages with the freeing proclamation grounded in Jesus' ministry and found everywhere in scripture: that we are all created in God's image, and by relying on our gifts and skills--rather than on gender-designed roles--we become all God means for us to be.

## HANDBOOK OF MEDIEVAL CULTURE

---

Medieval research has grown tremendously in depth and breadth over the last decades. The present, innovative handbook offers compact articles on essential topics, ideals, specific knowledge, and concepts defining the medieval world as comprehensively as possible. The topics covered in this new handbook pertain to issues such as love and marriage, belief in God, hell, and the devil, education, lordship and servitude, Christianity versus Judaism and Islam, health, medicine, the rural world, the rise of the urban class, travel, roads and bridges, entertainment, games, and sport activities, numbers, measuring, the education system, the papacy, saints, the senses, death, and money.

#### FRIENDS IN CO-INHERENCE

---

Oxford University Press This study of the literary relationship between Charles Williams and C. S. Lewis during the years 1936-1945 focuses on the theme of 'co-inherence' at the centre of their friendship. The idea of 'co-inherence' has long been recognized as an important contribution of Williams to theology, and had significant influence on the thought of Lewis. This account of the two writers' conviction that human persons 'inhere' or 'dwell' both in each other and in the triune God reveals many inter-relationships between their writings that would otherwise be missed. It also shows up profound differences between their world-views, and a gradual, though incomplete, convergence onto common ground. Exploring the idea of co-inherence throws light on the fictional worlds they created, as well as on their treatment (whether together or separately) of a wide range of theological and literary subjects: the Arthurian tradition, the poetry of William Blake and Thomas Traherne, the theology of Karl Barth, the nature of human and divine love, and the doctrine of the Trinity. This study draws for the first time on transcriptions of Williams' lectures from 1932 to 1939, tracing more clearly the development and use of the idea of co-inherence in his thought than has been possible before. Finally, an account of the use of the word 'co-inherence' in English-speaking theology suggests that the differences that existed between Lewis and Williams, especially on the place of analogy and participation in human experience of God, might be resolved by a theology of co-inherence in the Trinity.

### EVE BABITZ AND THE SECRET HISTORY OF L.A.

---

Simon and Schuster The quintessential biography of Eve Babitz (1943-2021), the brilliant chronicler of 1960s and 70s Hollywood hedonism and one of the most original American voices of her time. “I practically snorted this book, stayed up all night with it. Anolik decodes, ruptures, and ultimately intensifies Eve’s singular irresistible glitz.” —Jia Tolentino, *The New Yorker* “The Eve Babitz book I’ve been waiting for. What emerges isn’t just a portrait of a writer, but also of Los Angeles: sprawling, melancholic, and glamorous.” —Stephanie Danler, author of *Sweetbitter* Los Angeles in the 1960s and 70s was the pop culture capital of the world—a movie factory, a music factory, a dream factory. Eve Babitz was the ultimate factory girl, a pure product of LA. The goddaughter of Igor Stravinsky and a graduate of Hollywood High, Babitz, age twenty, posed for a photograph with French artist Marcel Duchamp in 1963. They were seated at a chess board, deep in a game. She was naked; he was not. The picture, cheesecake with a Dadaist twist, made her an instant icon of art and sex. She spent the rest of the decade on the Sunset Strip, rocking and rolling, and honing her notoriety. There were the album covers she designed: for Buffalo Springfield and the Byrds, to name but a few. There were the men she seduced: Jim Morrison, Ed Ruscha, Harrison Ford, to name but a very few. Then, at nearly thirty, her *It Girl* days numbered, Babitz was discovered—as a writer—by Joan Didion. She would go on to produce seven books, usually billed as novels or short story collections, always autobiographies and confessionals. Her prose achieved that American ideal: art that stayed loose, maintained its cool; art so sheerly enjoyable as to be mistaken for simple entertainment. Yet somehow the world wasn’t paying attention. Babitz languished. It was almost twenty years after her last book was published, and only a few years before her death in 2021 that Babitz became a literary star, recognized as not just an essential L.A. writer, but the essential. This late-blooming vogue bloomed, in large part, because of a magazine profile by Lili Anolik, who, in 2010, began obsessively pursuing Babitz, a recluse since burning herself up in a fire in the 90s. Anolik’s elegant and provocative book is equal parts biography and detective story. It is also on dangerously intimate terms with its subject: artist, writer, muse, and one-woman zeitgeist, Eve Babitz. “A dazzling, gossip-filled biography of the wayward genius who knew everyone in Seventies LA.” —*The Telegraph* (UK)

## NEW MAKERS OF MODERN CULTURE

---

Routledge New Makers of Modern Culture is the successor to the classic reference works Makers of Modern Culture and Makers of Nineteenth-Century Culture, published by Routledge in the early 1980s. The set was extremely successful and continues to be used to this day, due to the high quality of the writing, the distinguished contributors, and the cultural sensitivity shown in the selection of those individuals included. New Makers of Modern Culture takes into full account the rise and fall of reputation and influence over the last twenty-five years and the epochal changes that have occurred: the demise of Marxism and the collapse of the Soviet Union; the rise and fall of postmodernism; the eruption of Islamic fundamentalism; the triumph of the Internet. Containing over eight hundred essay-style entries, and covering the period from 1850 to the present, New Makers of Modern Culture includes artists, writers, dramatists, architects, philosophers, anthropologists, scientists, sociologists, major political figures, composers, film-makers and many other culturally significant individuals and is thoroughly international in its purview. Next to Karl Marx is Bob Marley, next to John Ruskin is Salman Rushdie, alongside Darwin is Luigi Dallapiccola, Deng Xiaoping runs shoulders with Jacques Derrida as do Julia Kristeva and Kropotkin. Once again, Wintle has enlisted the services of many distinguished writers and leading academics, such as Sam Beer, Bernard Crick, Edward Seidensticker and Paul Preston. In a few cases, for example Michael Holroyd and Philip Larkin, contributors are themselves the subject of entries. With its global reach, New Makers of Modern Culture provides a multi-voiced witness of the contemporary thinking world. The entries carry short bibliographies and there is thorough cross-referencing. There is an index of names and key terms.
