## **BROADBANDITS**

---

---

### **INSIDE THE \$750 BILLION TELECOM HEIST**

---

Wiley Investigating the financial fraud and misguided power plays that brought down the telecom industry Once the foundation of the Dow and NASDAQ, the telecom industry has eaten up more capital than any other industry in recent

history and has nothing to show for it. Today, it is by far the worst culprit in the spate of financial dirty dealings that have been splashed across the business pages, and yet the rewards reaped by top executives at many of these failed or failing companies have been inversely proportionate to their decline. **Broadbandits** takes readers behind the scenes to get the story they won't get in the media. Investigative reporter Om Malik follows the money trail and deciphers the actions and motivations of a generation of new economy "barbarians" that brought down this once lucrative industry. This intriguing book offers an inside look into the telecom bubble, with tales and anecdotes about mavericks who turned simple light and glass fibers into veins of gold, financiers who got greedy and fleeced unsuspecting millions, clueless venture capitalists who thought they'd tapped into the mother lode, hapless entrepreneurs who believed that they were changing the world, and self-proclaimed pundits who were cheering it all on from the sidelines. **Broadbandits** is a compelling account of the downfall of telecom giants such as WorldCom and Global Crossing, and will show readers how many telecom upstarts and veterans alike became victims of what one chief executive aptly described as "high-yield heroin." Om Malik (New York, NY) is a Senior Writer for Red Herring who focuses on the telecommunications sector. Prior to joining Red Herring in July 2000, he was senior editor at Forbes.com. His work has also been published in newspapers and magazines such as The Wall Street Journal, Business 2.0, Brandweek, and Crain's New York Business. For a very brief while, he was a venture capitalist.

John Wiley & Sons Build your strongest-ever portfolio from anywhere in the world Millionaire Expat is a handbook for smart investing, saving for retirement, and building wealth while overseas. As a follow-up to The Global Expatriate's Guide to Investing, this book provides savvy investment advice for everyone—no matter where you're from—to help you achieve your financial goals. Whether you're looking for safety, strong growth, or a mix of both, index funds are the answer. Low-risk and reliable, these are the investments you won't hear about from most advisors. Most advisors would rather earn whopping commissions than follow sound financial principles, but Warren Buffett and Nobel Prize winners agree that index funds are the best way to achieve market success—so who are you ready to trust with your financial future? If you want a better advisor, this book will show you how to find one; if you'd rather go it alone, this book gives you index fund strategies to help you invest in the best products for you. Learn how to invest for both safety and strong returns Discover just how much retirement will actually cost, and how much you should be saving every month Find out where to find a trustworthy advisor—or go it alone Take advantage of your offshore status to invest successfully and profitably Author Andrew Hallam was a high school teacher who built a million-dollar portfolio—on a teacher's salary. He knows how everyday people can achieve success in the market. In Millionaire Expat, he tailors his best advice to the unique needs of those living overseas to give you the targeted, real-world guidance you need.

## **AUTO REPAIR FOR DUMMIES**

---

**John Wiley & Sons Auto Repair For Dummies, 2nd Edition (9781119543619)** was previously published as **Auto Repair For Dummies, 2nd Edition (9780764599026)**. While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author **Deanna Sclar** has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. **Deanna Sclar (Long Beach, CA)**, an acclaimed auto repair expert and consumer advocate, has contributed to the **Los Angeles Times** and has been interviewed on the **Today** show, **NBC Nightly News**, and other television programs.

## **HYDROGEN AND FUEL CELLS**

---

**Simon and Schuster Hydrogen and fuel cells are vital technologies to ensure a secure and CO2-free energy future. Their development will take decades of extensive public and private effort to achieve technology breakthroughs and commercial maturity. Government research programmes are indispensable for catalysing the development process. This report maps the IEA countries current efforts to research, develop and deploy the interlocking elements that constitute a hydrogen economy, including CO2 capture and storage when hydrogen is produced out of fossil fuels. It provides an overview of what is being done, and by whom, covering an extensive complexity of national government R&D programmes. The survey highlights the potential for exploiting the benefits of the international co-operation. This book draws primarily upon information contributed by IEA governments. In virtually all the IEA countries, important R&D and policy efforts on hydrogen and fuel cells are in place and expanding. Some are fully-integrated, government-funded programs, some are a key element in an overall strategy spread among multiple public and private efforts. The large amount of information provided in this publication reflects the vast array of technologies and logistics required to build the hydrogen economy.**

### **50 YEARS OF THE MINI IN NEW ZEALAND**

---

---

Penguin Books Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century.
