PARENTOLOGY

EVERYTHING YOU WANTED TO KNOW ABOUT THE SCIENCE OF RAISING CHILDREN BUT WERE TOO EXHAUSTED TO ASK

Simon and Schuster An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

THE LOCALIST

THINK INDEPENDENT, BUY LOCAL, AND RECLAIM THE AMERICAN DREAM

The Localist: Think Independent, Buy Local, and Reclaim the American Dream is the story of one girl's journey from buy-local blogger to woman entrepreneur and indie-shop advocate. When Carrie Rollwagen decided to give up corporate shopping for a year and instead shop local-only, she knew that she'd have to learn how to shop local, that she'd discover new indie businesses, and that she'd need to makeover her shopping habits. What she didn't know is that she'd save money, discover how to connect with her community, and learn to love indie business more than the big box stores she'd bought from all her life. She also didn't know that, before her buy-local year was over, she'd be the owner of her own independent business, a community coffee shop and indie bookstore in Birmingham, Alabama. In The Localist, we follow Carrie on her localist adventure as she embraces slow food, small business, the locavore movement, and many quirky indie shopkeepers and unique independent shops along the way. She tells the story of her year of blogging about buying local in Birmingham, Alabama, and she gives us an inside look at her experience as a new female entrepreneur opening a new neighborhood business: Church Street Coffee & Books, an independent bookshop and locally owned coffee shop. Part memoir, part manual on how to shop local, The Localist is pro-community, but it's not necessarily anti-corporate. Carrie doesn't attack all big business, but rather shows us what we create with our shopping dollars and helps us see new ways of making positive impact on our communities with our spending. Big box stores are convenient, but corporations are not people, and it's important that we shop local and support indie business to keep the scales balanced between Main Street and Corporate America. Carrie Rollwagen is a copywriter and independent business owner based in Birmingham, Alabama. The Localist: Think Independent, Buy Local, and Reclaim the American Dream, based on her year-long blog about choosing independent shops over big box stores, is her first book.

SCOOTERBOYS

THE LOST TRIBE

Carpet Bombing Culture **Scoterboys are the lost tribe of British youth culture. Unrecognised, uncelebrated and unwanted; misunderstood by a general public who mistook us for Mods. We weren't Mods though. By the 1980s myself and tens of thousands of scooter riders collectively rejected that label. Instead, we took the roadmap of British youth disaffection and carved a new bypass. This route took us beyond the UK's faded seaside resorts, allowing us to spread our creed across the continents. Tuned and customised Vespa and Lambretta scooters gave us freedom to roam; transport to live for the weekend. Shared experiences of riots, local hostility and police harassment built strong fraternal bonds that endure to this day. Despite decades of two-wheeled rebellion our threat level was never high enough to put us on the national security radar. This low profile has its benefits. We aren't doomed to follow the same cycle as Mods. First feared, then pilloried, accepted and finally adopted as part of UK's rich culture. As British as a vindaloo. The cult of Scooterboy has escaped death-by-public-acceptance, simply by remaining too underground. Too difficult to distinguish from what came before. And that's just perfect. You'll never see Scooterboys parodied in TV insurance adverts or low budget fly-on-the-walls. The poorly-rendered caricature is always some cliché Mod on a 'Christmas Tree' scooter. If you rode to rallies in the 80s and 90s then this book will mirror your experiences. If you've never had a scooter then it offers a rare glimpse of life inside the lost tribe of two-stroke terrorists.**
