Troubleshooting Cisco IP Telephony [Cisco Press](#)

In The Implosion of Capitalism world-renowned political economist Samir Amin connects the key events of our times - financial crisis, Eurozone implosion, the emerging BRIC nations and the rise of political Islam - identifying them as symptoms of a profound systemic crisis. In light of these major crises and tensions, Amin updates and modifies the classical definitions of social classes, political parties, social movements and ideology. In doing so he exposes the reality of monopoly capitalism in its contemporary global form. In a bravura conclusion, Amin argues that the current capitalist system is not viable and that implosion is unavoidable. **The Implosion of Capitalism** makes clear the stark choices facing humanity - and the urgent need for a more humane global order.

American Saint The Life of Elizabeth Seton [Macmillan](#)

In this riveting biography of Elizabeth Seton critically acclaimed and bestselling author Joan Barthel tells the mesmerizing story of a woman whose life featured wealth and poverty, passion and sorrow, love and loss. Elizabeth was born into a prominent New York City family in 1774. Her father was the chief health officer for the Port of New York and she lived down the block from Alexander Hamilton. She danced at George Washington's sixty-fifth Birthday Ball wearing cream slippers, monogrammed. Catholicism was illegal in New York when she was born; Catholic priests

seen in the city were arrested, sometimes hung. When Elizabeth and her wealthy husband Will sailed to Italy in a doomed attempt to cure his tuberculosis, she and her family were quarantined in a damp dungeon. And when Elizabeth later became a Catholic, she was so scorned that people talked of burning down her house. **American Saint** is the inspiring story of a brave woman who forged the way for the other women who followed and who made a name for herself in a world entirely ruled by men. Elizabeth resisted male clerical control of her religious order, as nuns are doing today, and the publication of her story could not be more timely. Maya Angelou has contributed the foreword.

Four Fish The Future of the Last Wild Food [Penguin](#) “A necessary book for anyone truly interested in what we take from the sea to eat, and how, and why.” —Sam Sifton, The New York Times Book Review Acclaimed author of *American Catch* and *The Omega Principle* and life-long fisherman, Paul Greenberg takes us on a journey, examining the four fish that dominate our menus: salmon, sea bass, cod, and tuna. Investigating the forces that get fish to our dinner tables, Greenberg reveals our damaged relationship with the ocean and its inhabitants. Just three decades ago, nearly everything we ate from the sea was wild. Today, rampant overfishing and an unprecedented biotech revolution have brought us to a point where wild and farmed fish occupy equal parts of a complex marketplace. *Four Fish* offers a way for us to move toward a future in which healthy and sustainable seafood is the rule rather than the exception.

Stalin and His Hangmen The Tyrant and Those Who Killed for Him [Random House](#) **Stalin did not act alone.** The mass executions, the mock trials, the betrayals and purges, the jailings and secret torture that ravaged the Soviet Union during the three decades of Stalin's dictatorship, were the result of a tight network of trusted henchmen (and women), spies, psychopaths, and thugs. At the top of this pyramid of terror sat five indispensable hangmen who presided over the various incarnations of Stalin's secret police. Now, in his harrowing new book, Donald Rayfield probes the lives, the minds, the twisted careers, and the unpunished crimes of Stalin's loyal assassins. Founded by Feliks Dzierzynski, the Cheka-the Extraordinary Commission-came to life in the first years of the Russian Revolution. Spreading fear in a time

of chaos, the Cheka proved a perfect instrument for Stalin's ruthless consolidation of power. But brutal as it was, the Cheka under Dzierzynski was amateurish compared to the well-oiled killing machines that succeeded it. Genrikh lagoda's OGPU specialized in political assassination, propaganda, and the manipulation of foreign intellectuals. Later, the NKVD recruited a new generation of torturers. Starting in 1938, terror mastermind Lavrenti Beria brought violent repression to a new height of ingenuity and sadism. As Rayfield shows, Stalin and his henchmen worked relentlessly to coerce and suborn leading Soviet intellectuals, artists, writers, lawyers, and scientists. Maxim Gorky, Aleksandr Fadeev, Alexei Tolstoi, Isaak Babel, and Osip Mandelstam were all caught in Stalin's web-courted, toyed with, betrayed, and then ruthlessly destroyed. In bringing to light the careers, personalities, relationships, and "accomplishments" of Stalin's key henchmen and their most prominent victims, Rayfield creates a chilling drama of the intersection of political fanaticism, personal vulnerability, and blind lust for power spanning half a century. Though Beria lost his power-and his life-after Stalin's death in 1953, the fundamental methods of the hangmen maintained their grip into the second half of the twentieth century. Indeed, Rayfield argues, the tradition of terror, far from disappearing, has emerged with renewed vitality under Vladimir Putin. Written with grace, passion, and a dazzling command of the intricacies of Soviet politics and society, Stalin and the Hangmen is a devastating indictment of the individuals and ideology that kept Stalin in power.
