KEY=STIHL - BRAXTON LILLY

Maggie and Pierre & the Duchess

Winner of the first Dora Mavor Moore Award for Outstanding New Play, Maggie and Pierre chronicles the public and private relationship between Pierre Trudeau and Margaret Trudeau from 1974-1980. In this mock epic tale three characters, Pierre, Margaret, and Henry, a newspaper reporter navigate the landscape of a changing nation and opposing ideals. The Duchess tells the story of Wallis Simpson, the infamous woman for whom Edward VIII abdicated his throne in 1936. Wallis was brazen and sexual, and unintentionally steered the course of British history as she captivated the king. An inspired epic, The Duchess traverses between a straightforward narrative and magic realism.

Before I Knew Him

Random House Leo Fisch is a young man with a brilliant future ahead of him. He is bright, sociable and on the verge of moving in with his beautiful girlfriend, Kathryn. Outwardly, at least, he seems happy. Then when a sinister discovery is made in a forest near Leo's home town, a figure from childhood re-enters his life. David Caldwell is tough and aggressive; the very opposite of the company Leo now keeps. Unlikely friends, they are bound by a shared summer - and a shared secret - they had promised to forget. As past and present begin to close in, the comfortable life Leo has created for himself starts to unravel. Their terrible truth begins to emerge and Leo must confront not only the awkward, fragile boy he once was, but the events of that summer which threaten to destroy them both.

Songs for a Savior

Sermons and Worship Services for Advent and Christmas

CSS Publishing This comprehensive resource of five sermons with complete worship services provides a solid, thematically integrated worship and preaching program for Advent and Christmas Eve. It celebrates the deep songs of faith that result from personal encounters with Jesus Christ. The four Advent messages examine biblical personalities,

revealing in their experiences real struggles as well as profound joy. You'll explore how Zechariah wrestled to believe what the angel told him concerning the birth of his son; how the prophets searched for God's Word of hope in times of personal and social ferment; how Mary was willing to sacrifice her life for God's purpose; and how the birth of Jesus, heralded by the angels and confirmed by the shepherds, combined fear and joy with divine music. In the final sermon (for Christmas Eve), Oliver links those accounts with our contemporary lives by asking what our personal response will be to the birth of the Savior. Will we allow a song of faith to arise in our lives, in our families, churches, and community? Illustrated with poignant stories and anecdotes, the sermons in "Songs For A Savior" invite us to hear again the truly good news -- that our song of faith is not so much what we create for God, as how we respond to meeting the Savior and receiving God's gift of salvation through Jesus. "Songs For A Savior" comes from the heart of one who knows the Savior. Oliver offers these worship resources from his years of helping persons discover the Savior. The liturgies develop a theme for each Sunday, and the sermons weave biblical truths into the complexities of our modern lives, enabling new insights and personal convictions. Congregations experiencing Songs For A Savior will grow in their commitment to love and serve the Savior!" William R. Harvey Pastor Emeritus, Church of the Savior Canton, Ohio David M. Oliver holds an M.Div. degree from Duke University Divinity School and a D.Min. degree in Spiritual Formation from Asbury Theological Seminary. Currently the pastor of First United Methodist Church in Dover, Ohio, Oliver has served churches in Ohio since 1980, and has participated in the Academy for Preaching. In addition, he is an adjunct professor at Malone College in Canton, Ohio, teaching in the field of spiritual growth and worship. He is the author of "Gifts We Bring To Honor The King" (CSS).

Wind & Solar Electricity

Low-Impact Living Initiative (Lili) The author has been generating his own electricity from wind and sun for several decades. In both edition one and two of Wind and Solar Electricity he shared his knowledge and experiences so that readers could do the same. Dramatic developments in technology and improved equipment availability in the last few years have meant that a third edition was thought appropriate, with new chapters, drawings, schematics, and photographs. The hands-on approach is retained in this edition, with lots of practical tips, as well as advice on using second-hand components where feasible. He provides practical advice on all aspects of building and maintaining a low-cost, low-carbon home-generation system. This book accompanies an online course - details in resources. Hawaiian Music and Musicians

An Encyclopedic History

Mutual Publishing Company **When George S. Kanahale founded the Hawaiian Music Foundation in 1971 he immediately saw the need for a systematic presentation of the whole tradition of Hawaiian music, from its origins in pre-Contact chant and hula, to the adaptation of other musical traditions and instruments, to the extraordinary spread of Hawaiian music as "world music," and finally to the Hawaiian Renaissance that saved the tradition from near-extinction. Compiled with the assistance of a hundred contributors and the research of many more, it was immediately recognized as the most ambitious book ever written about Hawaiian music. Organized like an encyclopedia, with entries in alphabetical order, the book presents the roots of Hawaiian music, from ancient chants to the flowering of the musical renaissance. There are biographies of musicians from every period of Hawaiian musical history from Henry Berger, David K Iakaua, Queen Lili'uokalani, and others of their time, to the great names of the 20th century.**

Veterinary Clinical Pathology

A Case-Based Approach

CRC Press Veterinary Clinical Pathology: A Case-Based Approach presents 200 cases with questions for those interested in improving their skills in veterinary clinical pathology. It emphasises an understanding of basic pathophysiologic mechanisms of disease, differential diagnoses and recognition of patterns associated with various diseases or conditions. Topics discussed include haematology, clinical chemistry, endocrinology, acid-base and blood gas analysis, haemostasis, urinalysis, biological variation and quality control. Species covered include the cat, dog and horse, with additional material on ruminants. Cases vary in difficulty, allowing beginners to improve their clinicopathologic skills while more complicated cases, or cases treating unfamiliar topics, are included for experienced readers. This book is a helpful revision aid for those in training as well as for those in practice who are pursuing continuing education. It is also a valuable resource for veterinary nurses and technicians.

Renegotiating Health Care

Resolving Conflict to Build Collaboration

John Wiley & Sons Renegotiating Health Care Since the first edition of *Renegotiating Health Care* was published in 1995, new treatments, technologies, business models, reimbursement methods, and regulations have tangibly transformed the substance of health care negotiation. This thoroughly revised and updated edition of *Renegotiating Health Care* offers a practical guide to negotiation and conflict resolution in the health care field. It explores why unresolved conflict can hamper any organization's ability to make timely, cost-effective decisions and implement new strategies. The book focuses on the complex interactions between those who deliver, receive, administer, and oversee health care. It defines negotiation techniques and conflict resolution approaches that can improve efficiency, quality of care, and patient safety. *Renegotiating Health Care* outlines strategies and methods to resolve the myriad thorny issues encompassing the health care enterprise. It should be required reading for students and professionals in health services management, clinicians, leaders, policy makers, and conflict resolution experts working in the health care field. Praise for *Renegotiating Health Care* "An outstanding book! I learned their principles of meta-leadership while at

Schooling and the Politics of Disaster

Routledge **Schooling and the Politics of Disaster is the first volume to address how disaster is being used for a radical social and economic reengineering of education. From the natural disasters of the Asian tsunami and the hurricanes in the Gulf Coast, to the human-made disasters in Iraq, Afghanistan, Haiti, Sudan, Indonesia, the United States and around the globe, disaster is increasingly shaping policy and politics. This groundbreaking collection explores how education policy is being reshaped by disaster politics. Noted scholars in education and sociology tackle issues as far-ranging as No Child Left Behind, the War on Terror, Hurricane Katrina, the making of educational funding crises in the US, and the Iraq War to bring to light a disturbing new phenomenon in educational policy.**

Psychology of the Image

Routledge **Psychology of the Image outlines a theoretical framework bringing together the semiotic concepts developed by Charles Peirce, the sociological insights of Ervin Goffman and the psychoanalytic ideas of Jacques Lacan. Image studies in fashion, advertising, photography, film studies and psychology have been influenced by these theorists in significant ways. The framework presented helps the reader understand how these ideas relate to the study of different domains of the image: the internal imagery of dreams, external images such as the photograph and image processes which span both contexts, e.g., images we have about ourselves. The topics discussed are organised into three themes. The first considers mental imagery, including sound and dreams. The second addresses the interdependent nature of internal and external images, e.g., the gendered self and social identity. In the third theme,**

attention turns to external images including television, film, photography, the computer and the internet. Psychology of the Image will be of interest to undergraduates, postgraduates, lecturers and researchers in the fields of psychology, media studies and sociology.

Routledge **Universities and Engagement** is a timely and insightful book that examines what universities can contribute to their communities and economies through lifelong learning, a topic which is of increasing importance to Higher Education Institutions across the world. The book will offer an answer to the question 'What can be understood by University Lifelong Learning today?' by collating the work of specialists from across Europe and beyond who have first-hand experience in the field of university engagement through continuing education. With a diverse range of expertise from the UK, Ireland, Germany, Finland, Malta, Belgium, New Zealand, Austria and the USA, readers are guaranteed a varied and informative collection of perspectives on this important topic. Taken as a whole, the book provides a theoretical background for readers, drawing on recent research and practice examples from a variety of countries and institutional settings, as well as demonstrating a variety of conceptual approaches, confirming the diverse range of possible solutions. Key topics covered include: research into policy and practice; engaging with business and industry; engaging with communities; engaging with an ageing society; active citizenship and regional competitiveness. Developed in collaboration with the European University Continuing Education Network (EUCEN), **Universities and Engagement** is an invaluable contribution to research in the subject of lifelong learning. It will be of value to academics, practitioners and professionals with an interest in higher education and community management, and will

be particularly suited to those interested in lifelong learning, adult education and community development.

Sensitivity Analysis in Linear Regression

John Wiley & Sons Treats linear regression diagnostics as a tool for application of linear regression models to real-life data. Presentation makes extensive use of examples to illustrate theory. Assesses the effect of measurement errors on the estimated coefficients, which is not accounted for in a standard least squares estimate but is important where regression coefficients are used to apportion effects due to different variables. Also assesses qualitatively and numerically the robustness of the regression fit.

Sustainable Membrane Technology for Energy, Water, and Environment

John Wiley & Sons A detailed look at the most recent developments in sustainable membrane technology for use in energy, water, and the environment A collection of twenty-seven groundbreaking papers on important ideas about the development of membrane science and technology, Sustainable Membrane Technology for Energy, Water, and Environment brings together contributions from leading international experts in one comprehensive volume. Covering the latest developments and most innovative ideas in the field, this book is a unique resource for understanding the growing interest in using membranes across several industries. Divided into six chapters that cover new membrane materials and membrane development; membrane applications for gas and vapor separation; membrane applications in water treatment; environmental applications of membranes; energy applications of membranes;

and other industrial membrane applications, the book looks at the current and emerging applications for membrane science and technology in detail. As the Association of Southeast Asian Nations (ASEAN) and the Middle East emerge as the next generation of membrane research and development centers, in part due to their need for water and natural gas production technology, this book provides invaluable insights into the cutting-edge work taking place in these regions. Additional topics covered also include new membrane materials, membrane applications for food processing, and much more. Designed for engineers, scientists, professors, and graduate students who are engaged in membrane R&D activities, as well as for anyone interested in sustainable development, *Sustainable Membrane Technology for Energy, Water, and Environment* is a cutting-edge look at membrane applications.

Social Isolation in Modern Society

Routledge Social isolation has serious repercussions for people and communities across the globe, yet knowledge about this phenomenon has remained rather limited - until now. The first multidisciplinary study to explore this issue, *Social Isolation in Modern Society* integrates relevant research traditions in the social sciences and brings together sociological theories of social networks and psychological theories of feelings of loneliness. Both traditions are embedded in research, with the results of a large-scale international study being used to describe the extent, nature and divergent manifestations of social isolation. With a new approach to social inequality, this empirically based study includes concrete policy recommendations, and presents a clear insight into personal, social and socio-economic causes and the consequences of social isolation.

Introduction to Health Information Technology

W B Saunders Company This introductory textbook addresses the basic information and skills that are essential to Health Information Technology (HIT). Material presented in the text is designed to reflect the core competencies defined by the American Health Information Management Association (AHIMA), focusing on the practical aspects of health information technology. Each chapter deals directly with national, work-based skills and takes the reader from basic knowledge to practical applications at every step. It serves as an excellent link between the basic foundations such as what is contained in a health record, and the more advanced topics such as how to abstract the contents of a health record for coding purposes.

Schooling for Sustainable Development in South America Policies, Actions and Educational Experiences

Springer Science & Business Media This book supplies both empirical evidence and scholarly analysis that exemplify successful innovation in South America in the field of sustainability education. Examining the issues from a three-fold perspective, of national policy, regional planning and grassroots projects in schools and communities, the volume offers a comprehensive overview of the contemporary situation in Brazil, Chile, Bolivia, Argentina and Venezuela. It provides case studies as detailed illustrations of the recipe for success as well as to inform researchers and practitioners of the kinds of obstacles and challenges they might face in seeking to manifest sustainability. A good deal of the research and scholarly studies in the field of education for sustainability and sustainable development is

underpinned by 'Western' norms and culture. This book draws on that literature, yet also teases out features in the case studies that are particular to the region. South America itself encompasses a rich variety of natural and cultural environments—within individual nations as much as continent-wide. This diversity is a recurring theme in the book. The volume's three sections provide first a general survey, enriched with material from studies conducted in a number of different polities. The second section covers developments in Brazil, South America's largest nation and one that exhibits many of the features of education for sustainability found across the continent. Part three sets out and explores future trends. As with other books in the *Schooling for Sustainable Development* series, this volume will add impetus to scholarly exchange as well as contributing insights on education policy and curriculum changes across South American communities that exist in an increasingly globalized world.

Social Network Analysis in Construction

John Wiley & Sons The objective of the book is to make accessible the ways in which social network analysis (SNA) may be used to observe, monitor and analyse systems and relationships in major construction project coalitions. Although this has been an established analytical technique in the US for some time, it is only now being developed in the UK. Having spent nearly two decades investigating major project relationships using SNA, the author has brought together mathematical and sociological methods, and major project relationships in a manner that will inspire both academic interest and a desire to apply these concepts and techniques to live construction projects. Case studies include projects from two of the UK's largest property developers, the UK Ministry of Defence and a County Council. SNA is innovative - but potentially inaccessible to project management analysts and practitioners. This book will provide clear and relevant explanation and illustration of the possibilities of using SNA in a major project environment. In addition to offering the potential; for sophisticated retrospective analysis of a wide range of systems associated with construction and engineering project coalitions, the author looks at how we might apply the network analysis findings to the design and management of project and supply chain networks.

Qualitative Studies in Quality of Life

Methodology and Practice

Springer This volume explores the use and relevance of qualitative methods for the study of quality of life. It analyzes the role of qualitative researcher and the role of the context and the culture in quality of life studies. It presents the use of qualitative methods in real projects carried out in specific fields: geography, health, community studies, labor life and yoga. Finally, the book proposes the use of mixed methods that are considered as the third methodological approach in social research. The main purpose of using qualitative methods is to understand what it means for participants to be involved in certain events, situations and actions. Such methods help understand the context in which participants act and the influence of that context on their actions. The decision to use a particular methodology implies a philosophic, theoretical and political decision. Qualitative methodology constitutes an approach that is essential for understanding people's experiences of well-being and discovering new issues related to quality of life.
