Diamonds

John Wiley & Sons **Diamonds are a multi-billion dollar business involving some of the world's largest mining companies, a million and a half artisanal diggers, more than a million cutters and polishers and a huge retail jewellery sector. But behind the sparkle of the diamond lies a murkier story, in which rebel armies in Angola, Sierra Leone and the Congo turned to diamonds to finance their wars. Completely unregulated, so-called blood diamonds became the perfect tool for money laundering, tax evasion, drug-running and weapons-trafficking. Diamonds brings together for the first time all aspects of the diamond industry. In it, Ian Smillie, former UN Security Council investigator and leading figure in the blood diamonds campaign, offers a comprehensive analysis of the history and structure of today's diamond trade, the struggle for effective regulation and the challenges ahead. There is, he argues, greater diversification and competition than ever before, but thanks to the success of the Kimberley Process, this coveted and prestigious gem now represents a fragile but renewed opportunity for development in some of the world's poorest nations. This part of the diamond story has rarely been told.**

Discourse in Context: Contemporary Applied Linguistics

Volume 3

A&C Black **Featuring internationally renowned academics, this volume provides a snapshot of the field of applied linguistics, and illustrates how linguistics is engaging with the idea of 'context'. The book treats discourse as language in the contexts of its use in and above the level of the sentence and as systems of knowledge and beliefs. In using the term context(s), the book understands this as different situations in which discourse is produced and, on the other, how analysts construe context in their work. The volume is thus concerned with language in its context of use (little d discourse), but at the same time, more specifically, in individual chapters, with particular discourses as they are manifested in particular contexts (big D discourses). Well known discourse analysts contribute chapters focussing on different contexts with which they are familiar, viz. business, education, ethnicity and race, gender and sexuality, history, intercultural contexts, lingua franca contexts, media, place, politics, race, and the virtual world. It brings together researchers from different approaches, but all with a commitment to the study of language in context. The contributors themselves represent different approaches to discourse analysis: conversation analysis, corpus linguistics, critical discourse analysis, ethnographic discourse analysis, mediated discourse analysis, multimodal discourse analysis, systemic functional linguistics. Readers are invited to compare and contrast these different contexts and approaches.**

And you certainly don't fall in love... Once upon a time, Cutter Comstock was the hot older boy who tormented me in high school. Fast forward thirteen years and I find myself in his bed, riding him like the last stud at the sex rodeo... Needless to say, mistakes have been made... But as a chef, I turn food flops around all the time. I can turn this around, too. All I have to do is ignore the insufferably gorgeous (and generally insufferable) Cutter until he goes on tour. Too bad my nemesis has other plans. Cutter wants my help winning back the one who got away and he knows just the bait to dangle—the chance to open my own restaurant in a dream location. I can pull off pretending to be the devil's devoted girlfriend in order to make my dreams come true. Right? But what happens when my dreams start to include the clever, funny, unexpectedly sweet man Cutter has become?
