The Black Panther Party Service to the People Programs [UNM Press](#) The Black Panther Party represents Black Panther Party members' coordinated responses over the last four decades to the failure of city, state, and federal bureaucrats to address the basic needs of their respective communities. The Party pioneered free social service programs that are now in the mainstream of American life. The Party's Sickle Cell Anemia Research Foundation, operated with Oakland's Children's Hospital, was among the nation's first such testing programs. Its Free Breakfast Program served as a model for national programs. Other initiatives included free clinics, grocery giveaways, school and education programs, senior programs, and legal aid programs. Published here for the first time in book form, The Black Panther Party makes the case that the programs' methods are viable models for addressing the persistent, basic social injustices and economic problems of today's American cities and suburbs. The objective of the Driver Behaviour and Training volumes, and of the conference on which they are based, is to describe and discuss recent advances in the study of this important area. It bridges the gap between practitioners in road safety and theoreticians investigating driving behaviour, from a number of different perspectives and related disciplines. Educating drivers to be safe for life means a shift in focus from simply developing vehicle-handling skills towards ensuring that drivers are aware of how goals and motivations can influence decision-making throughout their driving career. A major focus within this fourth volume is to consider how driver training needs to be adapted in order to raise awareness of how human factors contribute to unsafe driving behaviour. From this it goes on to promote the development of driver education that considers all the skills that are essential for road safety. The readership will include road safety researchers from a variety of different academic backgrounds, senior practitioners in the field of driver training from regulatory authorities and professional driver training organisations such as the police service, and private and public sector personnel.
