Ammonia Plant Safety & Related Facilities

Amer Inst of Chemical Engineers Containing a collection of 29 papers presented at the 2002 AIChE Ammonia Safety Symposium, this volume covers safe manufacture, transportation and storage of ammonia and other chemicals, as well as actual case histories and industry needs.

Wireless Horizon

Strategy and Competition in the Worldwide Mobile Marketplace

Amacom Books Steinbock (a senior advisor for the Institute for Mobile Market Research) provides a global overview of successful strategies, policies, and innovations in the most developed (i.e. "globalized") wireless technologies markets since the 1980s. After identifying globalization drivers and technology innovators, he analyzes recent industry evolution. He discusses the strategies of the leading equipment manufacturers, as well as enablers and service providers. Annotation copyrighted by Book News, Inc., Portland, OR

Innovative Bridge Design Handbook

Construction, Rehabilitation and Maintenance

Elsevier Innovative Bridge Design Handbook: Construction, Rehabilitation, and Maintenance, Second Edition, brings together the essentials of bridge engineering across design, assessment, research and construction. Written by an international group of experts, each chapter is divided into two parts: the first covers design issues, while the second presents current research into the innovative design approaches used across the world. This new edition includes new topics such as foot bridges, new materials in bridge engineering and soil-foundation structure interaction. All chapters have been updated to include the latest concepts in design, construction, and maintenance to reduce project cost, increase structural safety, and maximize durability. Code and standard references have been updated. Completely revised and updated with the latest in bridge engineering and design Provides detailed design procedures for specific bridges with solved examples Presents structural analysis including numerical methods (FEM), dynamics, risk and reliability, and innovative structural typologies

Extrapolation Practice for Ecotoxicological Effect

Characterization of Chemicals

CRC Press A wide-ranging compilation of techniques, Extrapolation Practice for Ecotoxicological Effect Characterization of Chemicals describes methods of extrapolation in the framework of ecological risk assessment. The book, informally

known as EXPECT, identifies data needs and situations where these extrapolations can be most usefully applied, making

Mergent Industrial Manual

Scientific and Technical Acronyms, Symbols, and Abbreviations

Wiley-Interscience With 200,000 entries in over eighty different fields, Scientific and Technical Acronyms, Symbols, and Abbreviations is the most comprehensive reference of its type, covering more scientific and technical disciplines than any other available book. This invaluable resource will help scientists, engineers, and researchers understand and utilize current terminology in almost any field—from aeronautics to zoology. All accepted abbreviations, acronyms, and symbols are included, from the most obscure to the most common, as well as an appendix that provides important lists of units, systems of units, conversion factors, and prefixes. Science writers, journalists, translators, interpreters—anyone working in or around the sciences—will find this a helpful, easy-to-use guide to difficult technical jargon. Entries are listed in alphabetical order and are defined according to the field in which they are currently in use. Multiple definitions are listed for abbreviations and acronyms that may be in use in more than one field. For instance, the entry for the abbreviation "cb" would show several meanings: "CB" for Canada Balsam, "Cb" for cerebellum, and "c-B" for crystalline boron, among others. Entries for terms in languages other than English are included, as well as abbreviations for all known scientific and technical journals. Simple, comprehensive, and up-to-date, Scientific and Technical Acronyms, Symbols, and Abbreviations is a complete and vital reference for professionals in almost any scientific or technical discipline.
