FIXING HELL

AN ARMY PSYCHOLOGIST CONFRONTS ABU GHRAIB

Grand Central Publishing **This is the story of Abu Ghraib that you haven't heard, told by the soldier sent by the Army to restore order and ensure that the abuses that took place there**

never happen again. In April 2004, the world was shocked by the brutal pictures of beatings, dog attacks, sex acts, and the torture of prisoners held at Abu Ghraib in Iraq. As the story broke, and the world began to learn about the extent of the horrors that occurred there, the U.S. Army dispatched Colonel Larry James to Abu Ghraib with an overwhelming assignment: to dissect this catastrophe, fix it, and prevent it from being repeated. A veteran of deployments to Guantanamo Bay, Cuba, and a nationally well-known and respected Army psychologist, Colonel James's expertise made him the one individual capable of taking on this enormous task. Through Colonel James's own experience on the ground, readers will see the tightrope military personnel must walk while fighting in the still new battlefield of the war on terror, the challenge of serving as both a doctor/healer and combatant soldier, and what can-and must-be done to ensure that interrogations are safe, moral, and effective. At the same time, Colonel James also debunks many of the false stories and media myths surrounding the actions of American soldiers at both Abu Ghraib and Guantanamo Bay, and he reveals shining examples of our men and women in uniform striving to serve with honor and integrity in the face of extreme hardship and danger. An intense and insightful personal narrative, *Fixing Hell* shows us an essential perspective on Abu Ghraib that we've never seen before.

STALKING VICTIMIZATION IN THE UNITED STATES

[DIANE Publishing](#) This is a print on demand edition of a hard to find publication. Stalking is defined as a course of conduct directed at a specific person that would cause a reasonable person to feel fear. The Supplemental Victimization Survey identified seven types of harassing or unwanted behaviors consistent with a course of conduct experienced by stalking victims. The survey classified individuals as stalking victims if they responded that they experienced at least one of these behaviors on at least two separate occasions. In addition, the individuals must have feared for their safety or that of a family member as a result of the course of conduct, or have experienced additional threatening behaviors that would cause a reasonable person to feel fear. This report presents information on stalking victimization. Illustrations.

THE MIND WORKOUT

TWENTY STEPS TO IMPROVE YOUR MENTAL HEALTH AND TAKE CHARGE OF YOUR LIFE

[Hachette UK](#) It's well known that if you want to keep your body fit, you must do some regular exercise. But when it comes to our mental health, few of us take the time to maintain and improve it. For some reason, we expect to be in great mental shape without doing any work. And when we realise we're struggling, we look for a quick and easy fix instead of developing the skills that will help us in the future. Enter The Mind Workout - a home exercise programme for improving your mental health and fitness. Developed as a result of Mark Freeman's own recovery from mental illness, The Mind Workout combines mindfulness, Cognitive Behavioural Therapy (CBT) and Acceptance and Commitment Therapy (ACT). It outlines twenty easy-to-follow steps you can take to free yourself from the ways of thinking and behaving that cause mental health challenges in your life - from cutting out the compulsions that cause uncertainty, anxiety and distress to relieving stress and distraction. The Mind Workout is the key to making the switch from a frenetic, anxiety-driven life to one that's based on your core values. It will leave you feeling mentally stronger, fitter and better equipped to navigate the complexities of everyday life.

VISUAL BASIC 2008

HOW TO PROGRAM

[Prentice Hall](#) Appropriate for all basic-to-intermediate level courses in Visual Basic 2008 programming. Created by world-renowned programming instructors Paul and Harvey Deitel, Visual Basic 2008 How to Program, Fourth Edition introduces all facets of the Visual Basic 2008 language hands-on, through hundreds of working programs. This book has been thoroughly updated to reflect the major innovations Microsoft has incorporated in Visual Basic 2008 and .NET 3.5; all discussions and sample code have been carefully audited

against the newest Visual Basic language specification. The many new platform features covered in depth in this edition include: LINQ data queries, Windows Presentation Foundation (WPF), ASP.NET Ajax and the Microsoft Ajax Library, Silverlight-based rich Internet application development, and creating Web services with Windows Communication Foundation (WCF). New language features introduced in this edition: object anonymous types, object initializers, implicitly typed local variables and arrays, delegates, lambda expressions, and extension methods. Students begin by getting comfortable with the free Visual Basic Express 2008 IDE and basic VB syntax included on the CD. Next, they build their skills one step at a time, mastering control structures, classes, objects, methods, variables, arrays, and the core techniques of object-oriented programming. With this strong foundation in place, the Deitels introduce more sophisticated techniques, including inheritance, polymorphism, exception handling, strings, GUI's, data structures, generics, and collections. Throughout, the authors show developers how to make the most of Microsoft's Visual Studio tools. A series of appendices provide essential programming reference material on topics ranging from number systems to the Visual Studio Debugger, UML 2 to Unicode and ASCII.
