Marcos Against the Church

Economic Development and Political Repression in the Philippines

*Cornell University Press The election of Ferdinand Marcos to the presidency of the Republic of the Philippines coincided with the conclusion of the work of Vatican II in 1965; and Marcos's dictatorial policies would inevitably clash with the Vatican's call for the clergy to advocate greater social justice for the poor. In this authoritative account of the role of the Catholic Church in the recent history of the Philippines, Robert L. Youngblood traces the political engagement of the Church over the twenty years between Marcos's election and his ouster from power in 1986. Drawing upon extensive research,*

*Youngblood explains how, although church and state professed to share the goal of improving the welfare of the poor, Marcos's economic development policies and oppressive rule created church opposition which helped accelerate the collapse of his regime. Youngblood considers the evolution of church programs from social action projects, such as the organization of cooperatives and credit unions, to the development of social justice programs that emphasized the creation of more democratic and caring communities. He examines the dynamics by which the leaders of the Philippine Roman Catholic and Protestant churches moved from a brief period of goodwill toward the Marcos dictatorship to considerable opposition by the late 1970s, as church-sponsored work among the poor was increasingly viewed by the regime as subversive. Youngblood shows that after the assassination of Benigno Aquino, Jr., in 1983, the deterioration of the standard of living of average Filipinos, along with Marcos's repressive policies toward the churches and other abuses in the name of national security, were factors which impelled powerful church figures to actively oppose the dictatorship. Tracing the internal deliberations of the Philippine churches as they came to take the lead in opposing human rights abuses, Marcos against the Church deepens our understanding of problematic relations between church and state. Historians and social scientists interested in the Philippines and modern Southeast Asia, historians of religion, political scientists working in comparative politics and political development, and others concerned with issues of human rights will want to read it.*

## Passionate Revolutions

### The Media and the Rise and Fall of the Marcos Regime

*Ohio University Press In the last three decades, the dictatorship of Ferdinand Marcos has commanded the close scrutiny of scholars. These studies have focused on the political repression, human rights abuses, debt-driven growth model, and crony capitalism that defined Marcos' so-called Democratic Revolution in the Philippines. But the relationship between the media and the regime's public culture remains underexplored. In *Passionate Revolutions*, Talitha Espiritu evaluates the role of political emotions in the rise and fall of the Marcos government. Focusing on the sentimental narratives and melodramatic cultural politics of the press and the cinema from 1965 to 1986, she examines how aesthetics and messaging based on heightened feeling helped secure the dictator's control while also galvanizing the popular struggles that culminated in "people power" and government overthrow in 1986. In analyzing news articles, feature films, cultural policy documents, and propaganda films as national allegories imbued with revolutionary power, Espiritu expands the critical discussion of dictatorships in general and Marcos's in particular by placing Filipino popular media and the regime's public culture in dialogue. Espiritu's interdisciplinary approach in this illuminating case study of how melodrama and sentimentality shape political action breaks new ground in media studies, affect studies, and Southeast Asian studies.*

## An Anarchy of Families

### State and Family in the Philippines

*Univ of Wisconsin Press Winner of the Philippine National Book Award, this pioneering volume reveals how the power of the country's family-based oligarchy both derives from and contributes to a weak Philippine state. From provincial warlords to modern managers, prominent Filipino leaders have fused family, politics, and business to compromise public institutions and amass private wealth—a historic pattern that persists to the present day. Edited by Alfred W. McCoy, *An Anarchy of Families* explores the pervasive influence of the modern dynasties that have led the Philippines during the past century. Exemplified by the Osmeñas and Lopezes, elite Filipino families have formed a powerful oligarchy—controlling capital, dominating national politics, and often owning the media. Beyond Manila, strong men such as Ramon Durano, Ali Dimaporo, and Justiniano Montano have used "guns, goons, and gold" to accumulate wealth and power in far-flung islands and provinces. In a new preface for this revised edition, the editor shows how this pattern of oligarchic control has continued into the twenty-first century, despite dramatic socio-economic change that has supplanted the classic "three g's" of Philippine politics with the contemporary "four c's"—continuity, Chinese, criminality, and celebrity.*

## Things Fall Away

### Philippine Historical Experience and the Makings of Globalization

*Duke University Press* In *Things Fall Away*, Neferti X. M. Tadiar offers a new paradigm for understanding politics and globalization. Her analysis illuminates both the power of Filipino subaltern experience to shape social and economic realities and the critical role of the nation's writers and poets in that process. Through close readings of poems, short stories, and novels brought into conversation with scholarship in anthropology, sociology, politics, and economics, Tadiar demonstrates how the devalued experiences of the Philippines' vast subaltern populations—experiences that “fall away” from the attention of mainstream and progressive accounts of the global capitalist present—help to create the material conditions of social life that feminists, urban activists, and revolutionaries seek to transform. Reading these “fallout” experiences as vital yet overlooked forms of political agency, Tadiar offers a new and provocative analysis of the unrecognized productive forces at work in global trends such as the growth of migrant domestic labor, the emergence of postcolonial “civil society,” and the “democratization” of formerly authoritarian nations. Tadiar treats the historical experiences articulated in feminist, urban protest, and revolutionary literatures of the 1960s–90s as “cultural software” for the transformation of dominant social relations. She considers feminist literature in relation to the feminization of labor in the 1970s, when between 300,000 and 500,000 prostitutes were working in the areas around U.S. military bases, and in the 1980s and 1990s, when more than five million Filipinas left the country to toil as maids, nannies, nurses, and sex workers. She reads urban protest literature in relation to authoritarian modernization and crony capitalism, and she reevaluates revolutionary literature's constructions of the heroic revolutionary subject and the messianic masses, probing these social movements' unexhausted cultural resources for radical change.

### The Constitutional Foundations of World Peace

*SUNY Press* This book shows how significant a worldwide constitutional framework can be, both analytically and politically, in efforts to achieve a just and lasting peace. The authors are careful to avoid the pitfalls of legalism and moralism that have often afflicted discussion of world governance in the past, and their analyses are rooted directly within contemporary human struggles for peace, justice, prosperity, and environmentally sustainable societies. The authors demonstrate that when these struggles are examined in light of the planet's changing constitutional framework, their origins and future trajectories are more fathomable intellectually. By examining alternative images of world order, these authors uncover an abundance of practical yet bold policy recommendations for addressing and solving global problems. They also demonstrate that implementing desirable policies can indeed become politically feasible. This book is a compendium of new ideas for managing threats to peace, enhancing U. N. peacekeeping, establishing an effective global environmental authority, aiding the faltering global economy, nurturing the growth of democracy both locally and globally, protecting human rights and ethnic diversity, holding governments and intergovernmental organizations accountable to those they govern, and nurturing humanitarian values among all people.

*WildBlue Press* Three bestselling true crime books for the price of one—from the Steven Avery case to a brother's quest for justice to an international conspiracy. *Wrecking Crew*: While working for USA Today's Investigative Team, John Ferak wrote dozens of articles on Steven Avery, who was charged with the murder of Teresa Halbach. In *Wrecking Crew*, Ferak lays out high-profile lawyer Kathleen Zellner's post-conviction strategy to free Avery. “Whatever you thought you believed about this infamous case, get ready to change your mind or be more convinced than ever . . . Fascinating.” —Steve Jackson, *New York Times* bestselling author *My Brother's Keeper*: The moment he found out his brother Gary was missing and presumed dead, Ted Kergan launched a relentless effort to bring two suspected killers to justice and find Gary's body. Little did he know his quest would consume a fortune and take thirty years to reach its dramatic conclusion. But the victims' families and friends suspected they were considered a threat to Philippines dictator Ferdinand Marcos and his regime's relationship to the United States. “Remarkable . . . The story has so many twists—as well as amazing turns—that prove the point that conspiracy theories aren't necessarily fiction.” —Eric Nalder, Pulitzer Prize-winning investigative journalist

### Dictators and their Secret Police

### Coercive Institutions and State Violence

*Cambridge University Press* How do dictators stay in power? When, and how, do they use repression to do so? *Dictators and their Secret Police* explores the role of the coercive apparatus under authoritarian rule in Asia - how these secret organizations originated, how they operated, and how their violence affected ordinary citizens. Greitens argues that autocrats face a coercive dilemma: whether to create internal security forces designed to manage popular mobilization, or defend against potential coup. Violence against civilians, she suggests, is a byproduct of their attempt to resolve this dilemma. Drawing on a wealth of new historical evidence, this book challenges conventional wisdom on dictatorship: what autocrats are threatened by, how they respond, and how this affects the lives and security of the millions under their rule. It offers an unprecedented view into the use of surveillance, coercion, and violence, and sheds new light on the institutional and social foundations of authoritarian power.

### The Conjugal Dictatorship of Ferdinand and Imelda Marcos

Primitivo "Tibo" Mijares was Ferdinand Marcos's prized "media czar" and chief propagandist until his defection in 1975. In 1972, Tibo moved to the Marcos-controlled *Daily Express* and assumed the presidency of the National Press Club of the Philippines and chairperson of the Media Advisory Council, effectively becoming—in his own words—"the sole conduit between the military government and the practicing media." In 1975, Tibo defected. He knew too much and so informed a Congressional Committee in the United States, in June 1975. Despite Marcos's efforts to stop its publication, *The Conjugal Dictatorship* was published in 1976. A year after the publication of the book, Tibo was never heard from again and was declared legally dead years later. Tibo's youngest son, Luis Manuel, was abducted, tortured, and later found murdered and mutilated in 1977, as a result of the publication of *The Conjugal Dictatorship*. He was 16 years old.

## Human Rights in Asia

*Edward Elgar Publishing* Does the increasing prominence of Asia also mark a new era for human rights in the region? This timely book uncovers the political drivers behind both recent regional and country-based changes to the recognition, promotion, and protection of rights. *Human Rights in Asia* focuses on the relationships between political regimes, institutions and cultures, and external actors, such as international organisations, NGOs, and business. The contributing authors provide important discussions on Burma, Cambodia, China, India, Indonesia, Malaysia, Singapore, Thailand, and the Philippines. Thematic chapters then go on to frame these individually focused contributions, by examining the international pressure to 'normalise' rights regimes, and the relationship between Islam and rights in the region. Providing a unique combination of country-specific and thematic analysis, this book will be a fascinating and beneficial read for postgraduate and undergraduate students in human rights and international relations, as well as scholars in politics, human rights, international relations and government and NGO analysts.

## Subversive Lives

## A Family Memoir of the Marcos Years

*Ohio University Press* From the 1960s to the 1990s, seven members of the Quimpo family dedicated themselves to the anti-Marcos resistance in the Philippines, sometimes at profound personal cost. In this unprecedented memoir, eight siblings (plus one by marriage) tell their remarkable stories in individually authored chapters that comprise a family saga of revolution, persistence, and, ultimately, vindication, even as easy resolution eluded their struggles. *Subversive Lives* tells of attempts to smuggle weapons for the New People's Army (the armed branch of the Communist Party of the Philippines); of heady times organizing uprisings and strikes; of the cruel discovery of one brother's death and the inexplicable disappearance of another (now believed to be dead); and of imprisonment and torture by the military. These stories show the sacrifices and daily heroism of those in the movement. But they also reveal its messy legacies: sons alienated from their father; daughters abused by the military; friends betrayed; and revolutionary affection soured by intractable ideological differences. The rich and distinctive contributions span the martial law years of Ferdinand Marcos's rule. *Subversive Lives* is a riveting and accessible primer for those unfamiliar with the era, and a resonant history for those with a personal connection to what it meant to be Filipino at that time, or for anyone who has fought political repression.

## Populism Around the World

## A Comparative Perspective

*Springer* This book provides a global overview of populist actors and strategies around the globe from a comparative perspective. By presenting six country studies on the United States, France, Poland, Turkey, the Philippines and Argentina, the contributors analyze how parties from both the radical left and right use a populist discourse combining people-centrism, anti-elitism, and the exclusion of certain population cohorts from the national community. They illustrate how populist actors mobilize and persuade citizens by using simple and slogan-based language and charismatic leadership while offering simple solutions to complex problems. Each case study describes the history of populism in the respective country, current populist actors, the strategies these parties and movements employ, and how successful these tactics are within the population. These case studies are embedded within

two theoretical chapters that link the cases to the theoretical and empirical literature on populism. This timely book will appeal to anyone interested in understanding the current enormous appeal of populist movements around the globe.
