Trieste Publishing Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. Forgotten Books Excerpt from d104 Book of Comparative General Pathology for Practitioners and Students of Veterinary Medicine The introduction of students of veterinary medicine to the study of pathology, because of the lack up to the present time of a German text book of general pathology adapted to diseases of animals, has depended chiefly upon works written for the practitioner of human medicine; the lectures of instructors in veterinary medicine and students' notes, made with more or less accuracy, supplying the necessary additions and explanations.
