### **BRITAIN, THE BBC WORLD SERVICE AND THE COLD WAR**

---

*A&C Black* **From its inception in 1932, overseas broadcasting by the BBC quickly became an essential adjunct to British diplomatic and foreign policy objectives. For this reason, the World Service was considered the primary means of engaging with attitudes and opinions behind the Iron Curtain during the Cold War. Although funded by government Grant-in-Aid, the Service's editorial independence was enshrined in the BBC's Charter, Licence and Agreement. London Calling explores the delicate balance of power that lay in the relations between Whitehall and the World Service during the Cold War. This book also assesses the nature and impact of the World Service's programmes on listeners living in the Eastern bloc countries. In doing so, it traces the evolution of overseas broadcasting from Britain alongside the political, diplomatic and fiscal challenges that the country faced right up to the Suez crisis and the 1956 Hungarian uprising. These were defining experiences for the United Kingdom's international broadcaster that, as a consequence, helped shape and define the BBC World Service as we know it today. London Calling is an important study for anyone interested in the media and foreign policy histories of Great Britain or the history of the Cold War more generally. Winner of the Longman History Today Book of the Year Award 2015**

### **EVERYTHING YOU WANTED TO KNOW ABOUT THE SCIENCE OF RAISING CHILDREN BUT WERE TOO EXHAUSTED TO ASK**

---

*Simon and Schuster* **An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of Battle Hymn of the Tiger Mother). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously**

reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

## **CECIL RHODES AND THE CAPE AFRIKANERS**

---

### **THE IMPERIAL COLOSSUS AND THE COLONIAL PARISH PUMP**

---

*Psychology Press* This is an account of a fascinating alliance between two seemingly incompatible political partners. On the one side Cecil Rhodes, perhaps the greatest British imperialist of his time - on the other side the Cape Afrikaners, part of the ethnic community which was engaged in a major war with that very empire at the close of the nineteenth century. Rhodes skilfully courted the Cape Afrikaners, despite his ardent imperialism and their autonomous colonial intent. While the impact of British imperialism and capitalism set in motion a process of ethnic and political consciousness, it also engendered a desire to be associated with the British. Such was Rhodes's charm that to some Cape Afrikaners he became a political hero, even an idol. But all this came to an abrupt and dramatic end with the filibustering expedition of Rhodes's lieutenant Jameson into the Transvaal at the end of 1895. This act of aggression stood in total contradiction to an important element of the political outlook of Cape Afrikaners and, while unwavering in their loyalty to the British Empire, they began to show solidarity with their republican brethren. Tamarkin successfully shows that the disengagement of the Cape Afrikaners from Rhodes was neither immediate nor inevitable. It was a painful and long process which was driven not just by the Jameson Raid but by Rhodes's increasingly provocative conduct. This extraordinary relationship only finally finished in 1898 during the election campaign, in which Rhodes and the Afrikaner Bond fought tooth and nail for control of the Cape Colony.

### DIVERSITY HIGH

---

### CLASS, COLOR, CULTURE, AND CHARACTER IN A SOUTH AFRICAN HIGH SCHOOL

---

*University Press of Amer* **Diversity High** offers special insight into school change and social transition in racially divided communities. It underlines the obvious notion that change is difficult and confirms that leadership in an academic environment matters in changing schools. Vandeyar and Jansen provide a thorough investigation allowing readers to distinguish second-order changes (changes to curriculum, staffing, culture, and leadership), from first-order changes, (changes in student complexion in de-racializing schools). The study demonstrates the non-linearity of reforms by capturing the dynamism of change in powerful photographic records ranging from origins to change (demonstrated through black and white to color pictures). Conveying complexity through the ways in which race, class and culture intersect to produce unintended consequences; this book is concise and expertly researched. Ultimately, Vandeyar and Jansen celebrate human agency over determinist structures at the center of change through their in-depth analysis of a white South African high school that pursued transformation against the grain of its own racial biography.

**THE NEW PSYCHOLOGY OF SUCCESS**

---

*Random House* The updated edition of the bestselling book that has changed millions of lives with its insights into the growth mindset “Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life.”—Bill Gates, *GatesNotes* After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. *Mindset* reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives and your own.

---

*U of Nebraska Press* **This edition of A Description of New Netherland provides the first complete and accurate English-language translation of an essential first-hand account of the lives and world of Dutch colonists and northeastern Native communities in the seventeenth century. Adriaen van der Donck, a graduate of Leiden University in the 1640s, became the law enforcement officer for the Dutch patroonship of Rensselaerswijck, located along the upper Hudson River. His position enabled him to interact extensively with Dutch colonists and the local Algonquians and Iroquoians. An astute observer, detailed recorder, and accessible writer, Van der Donck was ideally situated to write about his experiences and the natural and cultural worlds around him. Van der Donck's Beschryvinge van Nieuw-Nederlantø was first published in 1655 and then expanded in 1656. An inaccurate and abbreviated English translation appeared in 1841 and was reprinted in 1968. This new volume features an accurate, polished translation by Diederik Willem Goedhuys and includes all the material from the original 1655 and 1656 editions. The result is an indispensable first-hand account with enduring value to historians, ethnohistorians, and anthropologists.**
