Reportage Burma/Myanmar

Die Zukunft hat begonnen

Picus Verlag Christoph Hein und Udo Schmidt haben viele Wochen in Myanmar, dem "Goldenen Land" im politischen Umbruch verbracht und mit allen Handelnden gesprochen: von Aung San Suu Kyi, der Friedensnobelpreisträgerin und Hoffnungsträgerin des neuen Myanmar, über Mönche und Flüchtlinge bis hin zu Wirtschaftsführern und Drogendealern. So vermitteln sie ein profundes Porträt des einst reichsten Landes Südostasiens, das die Militärs mit ihrer grausamen Diktatur abgewirtschaftet hatten und das nun endlich Hoffnung schöpft. Hein und Schmidt haben das Buch vollständig aktualisiert und mit sechs neuen Kapiteln auf den neuesten Stand nach der Regierungsbildung von Aung San Suu Kyi gebracht.

Reportage Burma/Myanmar

Der steinige Weg zur Freiheit

Picus Verlag Birma, Burma, Myanmar - ein Land mit vielen Namen und vielen Gesichtern. Ein halbes Jahrhundert verschlossen, geknechtet unter einer brutalen Militärjunta, beginnt es sich in atemberaubendem Tempo zu öffnen. Christoph Hein und Udo Schmidt, Asien-Korrespondenten der "Frankfurter Allgemeinen Zeitung" beziehungsweise des ARD-Hörfunks, kennen Myanmar von innen. Sie haben die Oppositionsführerin und Friedensnobelpreisträgerin Aung San Suu Kyi getroffen, sprachen mit Drogenbossen und Straßenhändlern, Ministern und Investoren. In Reportagen und Porträts zeigen sie ein Land, das die Veränderungen herbeisehnt und an dessen Toren Glücksritter und Geldgeber rütteln. Ein Besuch im Hauptquartier der wichtigsten Oppositionspartei verdeutlicht, wie viel noch zu tun ist auf dem Weg zur Demokratie. Auf der Party eines neureichen Unternehmers treffen die beiden Autoren die Günstlinge des alten Regimes, die sich längst auf die neuen Zeiten eingestellt haben. Nach langen Jahren der Haft befreite Studentenführer erzählen ihnen von ihrem Leidensweg. So entsteht das lebendige Bild eines Landes im Umbruch.

The Shogun's Silver Telescope and the Cargo of the New Year's Gift

God, Art & Money in the English Quest for Japan, 1600-25

Oxford University Press The East India Company, founded in London in 1600, was originally a spice trading organisation. But its governors soon began to think bigger. After a decade, they started to plan voyages to more fabulous places, notably India and Japan. Rich in silver, Japan was a desirable trading partner; crucially, it was also cold in winter. England's main export was woollen cloth, which would not sell in hot places, so the Company envisaged adding to its spice runs by sailing back and forth to Japan, exchanging wool for silver. Maps suggested that this could be done quickly, above Russian. But these maps also made Japan twenty times too large, the size of India in fact. Knowing the Spanish and Portuguese had preceded them, the Company prepared a special present for its first extended sailing to India and Japan. In the end, the Company missed India, but got to Japan in 1613. The Shogun, the military dictator of Japan, was presented with a silver telescope in the name of King James. It was the first telescope ever to leave Europe and the first made as a presentation item. Before this initial ship had even returned, the Company dispatched another, named the New Year's Gift, with an equally stunning cargo: almost 100 oil paintings. These would be given and sold to the Indian and Japanese courts. This book looks at the formation and history of the Company, but mostly examines the meaning of these two extraordinary cargoes. What were they supposed to mean, and what effect did they have on quizzical Asian rulers?

The Shogun's Silver Telescope

God, Art, and Money in the English Quest for Japan, 1600-1625

Oxford University Press, USA The East India Company, founded in London in 1600, was the world's biggest trading organization until the twentieth century. It was originally a spice trading organization, and its existence was precarious in its early years. But its governors soon began to think bigger. A decade after its foundation, they started to plan voyages to more fabulous places, notably Japan. Japan had silver, was cold in winter, and had no sheep, so was a perfect market for England's main export, woollen cloth. The Company planned to add to its spice-runs, sailing back and forth to Japan, exchanging wool for silver. This could be done quickly and easily, over the top of Russia - or so the maps of the day suggested (these same maps also showed Japan twenty times too large, about the size of India). Knowing the Spanish and Portuguese had got there before them, the Company prepared a special present to impress and win over their Japanese hosts. They chose as their first gift a silver telescope. The expedition carrying the telescope departed in 1611, and the Shogun was finally presented with the telescope in the name of King James I in 1613. It was the first telescope ever to leave Europe, and the first made as a presentation item. Before this voyage had even returned, the Company had dispatched another with an equally stunning cargo: nearly a hundred oil paintings. This is the story of these two extraordinary cargoes: what they meant for the fortunes of the Company, what the choice of them says about the seventeenth century England from which they came, and what effect they had on the quizzical Asian rulers to whom they were given.

The Lizard Cage

Random House Beautifully written and taking us into an exotic land, Karen Connelly's debut novel The Lizard Cage is a celebration of the resilience of the human spirit. Teza once electrified the people of Burma with his protest songs against the dictatorship. Arrested by the Burmese secret police in the days of mass protest, he is seven years into a twenty-year sentence in solitary confinement. Cut off from his family and contact with other prisoners, he applies his acute intelligence, Buddhist patience, and humor to find meaning in the interminable days, and searches for news in every being and object that is grudgingly allowed into his cell. Despite his isolation, Teza has a profound influence on the people around him. His very existence challenges the brutal authority of the jailers, and his steadfast spirit inspires radical change. Even when Teza's criminal server tries to compromise the singer for his own gain, Teza befriends him and risks falling into the trap of forbidden conversation, food, and the most dangerous contraband of all: paper and pen. Yet, it is through Teza's relationship with Little Brother, a twelve-year-old orphan who's grown up inside the walls, that we ultimately come to understand the importance of hope and human connection in the midst of injustice and violence. Teza and the boy are prisoners of different orders: only one of them dreams of escape and only one of them will achieve it—their extraordinary friendship frees both of them in utterly surprising ways.

The Making of Champions

Roots of the Sporting Mind

Macmillan Science "While for the most part we are able to quantify the physical aspects of an elite athlete's performance, such as great strength, flexibility, or stamina, frequently we are unable to do the same for the elite athlete's psychological attributes. We instinctively know that the psychology of an athlete is important for achieving success at the highest levels, yet all too often we don't know why, or indeed how, this is so. Is it a matter of superior concentration and focus, a magic 'eye' for the ball or opponent, or simply a higher threshold to hardships that allows some to break through the proverbial pain barrier? In this fascinating new book Gary Lewis examines what makes a champion mind."--BOOK JACKET.

Nineteen Eighty-Four

epubli "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

Turmoil in Burma

Contested Legitimacies in Myanmar

Signature Books Few states in the contemporary world present the complexities that characterize Burma/Myanmar at present. On the one hand, it has been under military rule for some forty-four years at this point, with many traditional factors in operation: an high degree of authoritarianism; the dominance of personalization over institutions; powerful centrism, but with a progressive weakening as the distance from the center lengthens; and the importance of religion as a source of identity. Those who govern Myanmar have given ample indication in recent times of a desire to interact with diverse international bilateral and multilateral operations. Yet Burma/Myanmar nationalism has contained a xenophobic quality emphasized on occasion, a proclivity that is more conducive to isolation than to cooperation. In this context, the movement of the capitol from Rangoon to Pyinmana in the interior, while proclaimed as a move to provide easier access to all parts of Myanmar raises questions. Moreover, as was demonstrated recently, in the face of strong opposition, Myanmar was prepared to give up its scheduled chairmanship of ASEAN rather than to change its domestic political

policies. Under the circumstances, it is fortunate to have a highly regarded scholar who has spent many years undertaking in-depth studies of Burma/Myanmar as well as other parts of East Asia, with a history of friendships and research in the region, provide us with an up-to-date analysis. David Steinberg presents a broad picture of the complex scene, commencing with a presentation of key theoretical and historical considerations, and proceeding to an analysis of various specifics relating to the current Burma/Myanmar society and state. His analysis is comprehensive and balanced, taking into account the many complexities and uncertainties of this troubled state. We are indeed fortunate to have this work available. from the Foreword by Robert A. Scalapino

All those mornings . . . at the Post

The 20th Century in Sports from Famed Washington Post Columnist Shirley Povich

PublicAffairs Shirley Povich was the Dean of American sportswriters. As a columnist for The Washington Post for more than seventyfive years, he was an eyewitness to the most thrilling moments in American sports, including: the legendary 1927 Dempsey-Tunney "long count"; the celebrated 1938 race between Seabiscuit and War Admiral; the 1946 signing of Jackie Robinson by the Brooklyn Dodgers; Don Larsen's perfect game in the 1956 World Series; the Ali-Frazier fight of 1971; and the murder of eleven Israeli athletes at the 1972 Munich Olympics. But Povich's columns were about more than sports; they reflected the dramatic changes in American society over the course of the 20th Century. Driven by a strong sense of social justice, Povich called for the integration of major league baseball in 1939, and twenty years later he was still at it, attacking Washington Redskins owner George Preston Marshall for having an

all-white team. For the 100th anniversary of his birth, Povich's children— David, Maury, and Lynn — and his colleague at the Post, former sports editor George Solomon, have pulled together this panoramic collection of Povich's most beloved columns. The result is a front-row seat to the most awe-inspiring sports moments of our American Century.

Contributions to The Champion and Related Writings

Oxford University Press This volume, which completes the edition's coverage of Henry Fielding's journalism, provides a view of eighteenth-century journalism very different from the more genteel Tatler-Spectator tradition, and complicates the familiar image of Fielding the moralist. Fielding's contributions to The Champion are not only among his most energetic and intriguing works in the genre; they also have a dense political background, of interest to historians studying the interface between journalism and politicians of the time, as well as the role of newspaper publishers.

Ball, Bat, and Bishop

The Origin of Ball Games

"Step aside, Abner Doubleday! In this impeccably researched history, Robert W. Henderson uncovers the true origins not only of baseball but of a score of related sports involving hitting, catching, throwing, or kicking a ball. Henderson traces the origins of ball sports to religious rites in ancient Egypt, where the ball (perhaps a shrunken head) represented a fertility symbol and opposing teams engaged in mock combat signifying the struggle of good against evil. Centuries later, pagan fertility rites featuring the ball were adapted by the Christian church as rituals symbolic of Easter and the Resurrection. Court tennis was also firmly rooted in the church, the earliest players being the bishops, canons, and clerics who played it in their cloistered courtyards. Henderson overturns the popular belief that the game of racquets originated in the debtors' prison on Fleet Street in the early nineteenth century. He also notes that polo, the most ancient of games played with stick and ball, originated in Persia and migrated to China and India, where it was eventually embraced by English imperialists. Other sports discussed include football, lawn tennis, cricket, and golf. The most substantial portion of Henderson's study is devoted to the game of baseball. Providing copious evidence of early forms of baseball played in England and the United States before 1829, he offers a meticulous account of the legerdemain by which Abner Doubleday, the famous Civil War general, came to be identified as the inventor in 1839 of a game that was already at least two centuries old. The new foreword by Leonard Koppett affirms the significance of this classic work of sports history, which was the first to dismantle the Doubleday/Cooperstown myth."

Unearthing Gotham

The Archaeology of New York City

"Under the teeming metropolis that is present-day New York City lie the buried remains of long-lost worlds. The remnants of nineteenth-century New York reveal much about its inhabitants and neighborhoods, from fashionable Washington Square to the notorious Five Points. Underneath are traces of the Dutch and English colonists who arrived in the area in the seventeenth century, as well as of the Africans they enslaved. And beneath all these layers is the land that Native Americans occupied for hundreds of generations from their first arrival eleven thousand years ago. Now two distinguished archaeologists draw on the results of more than a century of excavations to relate the interconnected stories of these different peoples who shared and shaped the land that makes up the modern city."--BOOK JACKET. Brief Encounters with Che Guevara Stories

Harper Collins The well-intentioned protagonists of Brief Encounters with Che Guevara are caught -- to both disastrous and hilarious effect -- in the maelstrom of political and social upheaval surrounding them. In "Near-Extinct Birds of the Central Cordillera," an ornithologist being held hostage in the Colombian rain forest finds that he respects his captors for their commitment to a cause, until he realizes that the Revolution looks a lot like big business. In "The Good Ones Are Already Taken," the wife of a Special Forces officer battles a Haitian voodoo goddess with whom her husband is carrying on a not-entirely-spiritual relationship. And in "The Lion's Mouth," a disillusioned aid worker makes a Faustian bargain to become a diamond smuggler for the greater good. With masterful pacing and a robust sense of the absurd, each story in Brief Encounters with Che Guevara is a self-contained adventure, steeped in the heady mix of tragedy and danger, excitement and hope, that characterizes countries in transition. Through Fountain's rounded and novelistic prose, these intelligent and keenly observed stories are painted in provocative and vibrant detail across a global canvas. Brief Encounters with Che Guevara marks the arrival of a striking and resonant new voice that speaks adeptly to the intimate connection between the foreign, the familiar, and the inescapably human.
