Music: Then and Now

AuthorHouse We tap our foot to a beat or love a favorite melody. It has been a part of human life since earliest times. Why music? It is the most direct means we have to communicate. Today it blares or whispers at us from a thousand venues: we have

Tchaikovsky, Tony Bennett, the Beatles, Elvis, and Carry Underwood. What will be the mainstay of musical taste in fifty years -- or even another ten? This is my seventh book. In ten years I will be writing another book, and I will bring you up-to-date on the latest musical tastes. See you then! Bernie Keating

Missing More Than Music

When Disputable Matters Eclipse

Worship and Unity

AuthorHouse We're missing out ... on hearing one another's songs, on worship in our daily lives, on passion in our praise, on the dance of David, on fellowship with Christians who disagree, on sharing testimony of God's work in our assemblies, on agreeing together, and more. In the Churches of Christ, some begin to broaden their experience in praise, wishing they could answer the questions of those who feel left behind. "Missing More than Music" understands why we look at the same evidence and disagree. There is hope for worship and unity. We're missing more than music. Let's have all that we've been missing ... together.

At the time of writing Rural Rides, in the early 1820s, Cobbett was a radical anti-Corn Law campaigner. He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions*

More than Music

Cultural Stirrings From Pink Floyd's 'The Dark Side of the Moon'

Algora Publishing Pink Floyd tapped into the deep roots people have in philosophy, psychology, religion, literature, and history, and their 1973 album *The Dark Side of the Moon* continues to appeal to people after almost fifty years. This book explains how the album evokes and resonates with so many cultural chords in all of us. "More Than Music is a rigorous examination of one of the most enduring records of all time, Pink Floyd's *The Dark Side of the Moon*. Analyzing the album from many different avenues, the book provides clear correlations of the music and lyrics to many aspects of human culture, from ancient times to the present. Each song is examined line by line to show how the album evokes and ties together themes from myriad philosophical, mythological, psychological, religious, historical, literary, and other cultural sources. The book shows how William James and Carl Jung, Ecclesiastes and Kierkegaard, D.H. Lawrence and T.S. Eliot, Horace and Orwell, Jesus and Buddha, Beethoven and Strauss, William Blake and Jean-Paul Sartre, The Beatles and Gilbert and Sullivan resonate throughout *The Dark Side of the Moon*. They are among the most powerful sources of who we are and why. Coming to see how the album knits together so many diverse elements into a seamless whole, the interplay of many factors that make up society is illuminated. This book will give readers a new way of looking at how the factors of philosophy, religion, psychology, mythology, literature and poetry, history and politics derive meaning and depth from each other. Readers will never listen to *The Dark Side of the Moon* the same way, but they'll never look at the underlying factors the same way again, either.

Winterhawk's Land

BearManor Media *Michael Dante played the title role in Winterhawk (1975), a Western about a legendary Blackfoot Chief's character and his principles. In this novella sequel, he pens an ageless saga about ruthless railroad executives trying to assassinate him in order to build their railroad directly through his territory, taking the Blackfoot land without provocation. Winterhawk and his tribe remain strong as long as they can, to protect the land of their people, the land they call home, before the invasion of progress imposes itself on America. This inspiring story of a brave man, who stands up to and fight against those who have their own agenda for his land, evokes the nostalgic atmosphere of Western series that Dante frequently appeared in during American television's Golden Era, such as Death Valley Days, The Big Valley, Daniel Boone, Custer, The Texan, Bonanza, Maverick, and Cheyenne.*

Music

A Subversive History

Basic Books "A dauntingly ambitious, obsessively researched" (Los Angeles Times) global history of music that reveals how songs have shifted societies and sparked revolutions. Histories of music overwhelmingly suppress stories of the outsiders and

rebels who created musical revolutions and instead celebrate the mainstream assimilators who borrowed innovations, diluted their impact, and disguised their sources. In *Music: A Subversive History*, Ted Gioia reclaims the story of music for the riffraff, insurgents, and provocateurs. Gioia tells a four-thousand-year history of music as a global source of power, change, and upheaval. He shows how outcasts, immigrants, slaves, and others at the margins of society have repeatedly served as trailblazers of musical expression, reinventing our most cherished songs from ancient times all the way to the jazz, reggae, and hip-hop sounds of the current day. *Music: A Subversive History* is essential reading for anyone interested in the meaning of music, from Sappho to the Sex Pistols to Spotify.

Beethoven, Then and Now

Xlibris Corporation I have often heard people express their wish that someone who has died would return to us and relate what the life-death-rebirth experience is really like. Well, someone has! This is exactly what Beethoven does in my third novel, *Beethoven, Then and Now*. Like Beethoven, each one of us is the proud possessor of a human soul. This clearly defined object is none other than our very own spiritual subelectron. Our physical hulk is only a pile of ashes; but our soul (spiritual subelectron) is unique, eternal, indestructible. Because of its high vibrations, Beethoven's soul is immediately attracted to the third subelectronic ring of our First-Second-Order universe. Here it awaits rebirth via fusion with the spiritual subelectron of a Major-Order being within our Second-Order-Major universe. Paul Rezler (age seventeen) is the fortunate recipient of this unbelievable prize. He had awakened to the day at hand with his usual zero interest in music. Now (1827 Earth-time) he is the greatest Earth-musician yet to live. Try as Beethoven does, he cannot adjust to the Second-Order reality of corporate composers, not even to being the absolute leader of the Beethoven Corporation. He must be entirely on his own-- a single man vs. the world! Counselor Robinson does his best in selecting a Subsidiary culture which contains a Vienna as close as possible to the one which Beethoven had left behind upon his Earthly death. Within a month, our hero makes his translation and enjoys living where there's not the trace of anything resembling a musical corporation. Sketches for new third-period works begin to flow: a piano sonata, a string quartet, a piano trio, a violin concerto, even some encouraging vibrations of Symphony 10. A handful of piano and violin students emerges, including an exceptional young lady named Anna Rosecranz, who is already a master of these instruments. Her musicianship is so strong that they soon fall in love and are married. How they enjoy performing concerts together! In time, as Beethoven works at his composers desk, she starts peering over his shoulder. She begs him for lessons in composition. He replies, I compose, and AM NOT a teacher of composition! This declaration does not frighten her away. As Beethoven fumbles and bumbles his way from sketchbook to finished score, Anna carefully watches each step of the process. Her comments are invaluable: Use a pedal-point here. Not so dissonant a chord.. Pure melody would fit here. Please, not so sustained. Too many notes in the melody. Avoid more of this rhythm. Two-voice counterpoint would do. Too much for the brass here. This use of strings is perfect. Thanks to Anna, Beethoven accomplishes the impossible. He realizes that he works far better with her help than without it. He now loves to share the very process which only yesterday had demanded his total aloofness. As if by magic, he is now prepared to return to Major-Order life as managing partner in charge of the Beethoven Corporation. But considering all that Anna has done for him, he cannot now simply go his own way. As a Subsidiary being, her lifespan is a mere 100 years, compared to his Second-Order-Major span of 1000 years. Being happily married, he plans to share life for the balance of her days. But Fate has his own plan for their lives. After all their years of loving and sharing, Anna is killed in an automobile accident. When Beethoven returns to the Major Order, a super surprise awaits him. There stands Anna

Rosecranz, a full Major-Second-Order being, with whom he can share the rest of their 1000 years in joyful creative activity. His first question: On Earth, who were you, my dear? Her reply causes our hero to faint for the second time in his entire Second-Order life!

The Music of Gilbert Artman & Urban Sax

Eurock

Createspace Independent Publishing Platform *The Music of Gilbert Artman & Urban Sax* The new Eurock book tells a story about music, which became a youthful passion for me very early in life. Officially, Eurock began in 1971 as a radio program featuring Experimental European Rock. What followed was a lifelong adventure into the weird and wonderful world of musical innovation. I had no idea in the beginning that a world filled with far away artists would open up for me and some of the new friends & partners I made all around the globe would still be with me in my 68th year. A trip to Europe in 2015 took me to France. In Paris, I met some of today's most innovative creators of art and music. I saw historic places, met people and experienced a culture that opened my eyes. Outside the small places we inhabit in our daily lives, there exists people filled with a warmth of human spirit & wellspring of creativity that transcends the mindset of self-gratification and absorption present today in my homeland. Previous Eurock books have dealt extensively with the impact of music on culture, its effect and evolution. For this book, I wanted to convey what I experienced on my trip, while at the same time focusing more on a specific topic. *The Music of Gilbert Artman & Urban Sax* documents the creative journey and music of one of our generation's greatest artists and musical innovators Gilbert Artman. The book is not intended to be an academic history per se, but instead more like a listener's guide exploring his diversity of artistic ideas and concepts as well as chronicling the excellence of his work through its various musical incarnations. I hope it ultimately succeeds in offering readers a perspective about what constitutes a truly experimental creative process. In my mind, it certainly offers ample evidence that Gilbert has been the catalyst for some of the most incredible musical creativity in France, as well as International contemporary music history.

Classical Music Criticism

With a Chapter on Reviewing Ethnic Music

Psychology Press *The first new survey of the field in more than 60 years, this study concentrates on the basics of music criticism. Because it focuses on core issues and proven principles, the book is likely to become the standard work on the subject. It is written for the audience that reads music criticism in newspapers and popular journals: professional and amateur musicians, scholars, teachers, researchers, librarians, students, music lovers, journalists, and critics. The topics are covered in depth and observations are thoroughly documented, yet the material is enjoyable to read because the writing is easy to understand and special terminology is held to an absolute minimum. The commentary addresses the function of music criticism, the qualifications and training of a critic, the relationship between music criticism and other aspects of journalism, and the principles behind value judgments. Three chapters are devoted to the concert and opera review, one to reviewing recordings, another to radio and television criticism, and one to reviewing ethnic music. Thirty-eight reviews are quoted and analyzed, and 13 are presented in their entirety, along with critical commentary. Index. Appendix. Bibliography*

Dialogue on Ancient and Modern Music

Yale University Press *Vincenzo Galilei, the father of the astronomer Galileo, was a guiding light of the Florentine Camerata. His Dialogue on Ancient and Modern Music, published in 1581 or 1582 and now translated into English for the first time, was among the most influential music treatises of his era. Galilei is best known for his rejection of modern polyphonic music in favor of Greek monophonic song. The*

treatise sheds new light on his importance, both as a musician who advocated a new philosophy of music history and theory based on an objective search for the truth, and as an experimental scientist who was one of the founders of modern acoustics.
