Pass With Distinction Mathematics Book 1

Express

Shing Lee Publishers Pte Ltd Pass with Distinction Secondary 1 Express Mathematics (By Topic) is specially written for students who wish to score excellent grades in their examinations. Based on the latest 2013 syllabus, it contains topical tests that serve to reinforce students' understanding of concepts and their ability to apply them to solve mathematical problems and problems in real-world contexts. There are six tests in each topic and the number of marks for each question is included as a guide to the amount of time that a student should spend on each question, approximately 1.5 minutes for each mark. Answers are provided at the end of the book. Step-by-step solutions are included in a separate booklet. We believe that the tests in this book serve as assessments as learning where students think strategically, consciously reflecting on their thinking processes and developing confidence in mathematics. It is hoped that this book will give students an edge in their forthcoming examinations.

Pass With Distinction Mathematics Book 4 by Paper

Shing Lee Publishers Pte Ltd PREFACE This book is specially written for students preparing for the GCE O Level Examination in Mathematics Syllabus (4016). It consists of 10 revision exercises, each comprising Paper 1 and Paper 2, based on the LATEST syllabus. The format and weightage of the questions follow those of the specimen examination papers issued by the Examination Board closely. Investigative and problem-solving questions are included. New Examination Format Paper 1 consists of about 21 to 26 compulsory short questions worth a total of 80 marks. The duration of the paper is 2 hours. Paper 2 consists of 10 to 11 questions of varying marks and lengths testing more on higher order thinking skills. Candidates must answer ALL questions. Calculators may be used in both papers. The weightage for both papers, however, will be equal, each accounting for 50% of the examination. It is hoped that this book will help students to gain confidence and be fully equipped for their forthcoming examinations.

IP Mathematics Book 2

Integrated Programme

Shing Lee Publishers Pte Ltd Mathematics in schools offering the Integrated Programme is usually taught as an integrated subject, so that students will be able to better relate learnt knowledge to new knowledge and transfer conceptual understanding to application, as many mathematical concepts are interconnected. One driving force to write the series is to provide a guidebook especially for students in the Integrated Programme. The other is to share teaching ideas with other Mathematics teachers who love the subject as much as I do. Features: ♦ Each topic begins with a recap of key mathematical concepts to help students consolidate learning. ♦ Worked examples are included to enhance understanding and application of key concepts, with side notes explaining some of the working. ♦ Practice questions are tiered into three levels of difficulty. Level 1 aims to provide students with the necessary practice; Level 2 to further build the confidence and test students' understanding; Level 3 to challenge students with higher order thinking questions. ♦ ♦ Math Wonderland ♦ is one highlight of the book. Activities include extension of the topic, suggested alternative assessment and questions to stretch mathematical thinking. The primary purpose of the Wonderland is to allow students to think deeply about what they have learnt and to appreciate the learning of Mathematics beyond classroom. ♦ Step-by-step solutions to all questions are provided as an additional resource to students' problem solving process. I hope this book will benefit students studying Integrated Mathematics, as well as those with aptitude for the subject who are preparing for the GCE O Level Mathematics and Additional Mathematics examinations.

New Syllabus Additional Mathematics Workbook

9th Edition

Shing Lee Publishers Pte Ltd New Syllabus Additional Mathematics (NSAM) is a series of textbooks and workbooks designed to prepare students for the Singapore-Cambridge GCE O-level examination in Additional Mathematics. Together with the textbook, the workbook will provide students with ample practice to apply the various skills and concepts learnt to solving problems in both examination and real-life situations. The workbook contains the following features: REVISION NOTES Revision Notes are found at the start of each chapter. They emphasise the important concepts and formulae in the chapter. PRACTICE QUESTIONS Practice Questions provide students with a wide range of questions for further practice. The questions are classified into three levels of difficulty. ♦ questions require students to use specific skills and concepts in the chapter directly to solve problems. ♦ questions require students to apply their skills and concepts to solve problems. ♦ questions require students to apply various skills and concepts, including the use of problem-solving skills, to solve problems. Revision Exercise The Revision Exercise is found after every few chapters to help students to recall and consolidate all the concepts learnt in these chapters. Mid-Year Specimen Papers and End-of-Year Specimen Papers The Mid-Year Specimen Papers and End-of-Year Specimen Papers have been written to follow closely to the format of school's Mid-Year and End-of-Year examinations. It is hoped that when students use this book, to reinforce the concepts that they are weak in, they will eventually gain success in Additional Mathematics.
