## Parentology

## Everything You Wanted to Know about the Science of Raising Children but Were Too Exhausted to Ask

**Simon and Schuster** An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of Battle Hymn of the Tiger Mother). If you're like many parents, you might ask family and friends for advice when faced with important

choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

## Sacred Games

**Faber & Faber** An enormously satisfying, exciting and enriching book, Vikram Chandra's novel draws the reader deep into the lives of detective Sartaj Singh and Ganesh Gaitonde, the most wanted gangster in India. # The Recognitions

**Deep Vellum Publishing** The book Jonathan Franzen dubbed the "ur-text of postwar fiction" and the "first great cultural critique, which, even if Heller and Pynchon hadn't read it while composing Catch-22 and V., managed to anticipate the spirit of both"—The Recognitions is a masterwork about art and forgery, and the increasingly thin line between the counterfeit and the fake. Gaddis anticipates by almost half a century the crisis of reality that we currently face, where the real and the virtual are combining in alarming ways, and the sources of legitimacy and power are often obscure to us.

# American Cars, 1946Ð1959

## Every Model, Year by Year

**McFarland** From the resumption of automobile production at the close of World War II through the 1950s, the American auto industry would see the births and deaths of several manufacturers, great technological advances, and an era of dramatic styling as a prospering nation asserted its growing mobility. Cars of this period are among the most iconic vehicles ever built in the United States: the 1949 Ford, the remarkable Studebaker designs of 1950 and 1953, the 1955-1957 Chevrolets, the "Forward Look" Chrysler products, the ill-fated Edsel and many others. This comprehensive reference book details every model from each of the major manufacturers (including independents such as Kaiser-Frazer and Crosley but excluding very low-volume marques such as Tucker) from model years 1946 through 1959. Year by year, it provides an overview of the industry and market, followed by an individual report on each company: its main news for the year (introductions or cancellations of models, new engines and transmissions, advertising themes, sales trends etc.); its production figures and market status; and its powertrain offerings, paint colors and major options. The company's models are then detailed individually with such information as body styles, prices, dimensions and weights, standard equipment and production figures. Nearly 1,000 photographs are included.

## Half of a Yellow Sun

**Vintage Canada** With her award-winning debut novel, Purple Hibiscus, Chimamanda Ngozi Adichie was heralded by the Washington Post Book World as the “21st century daughter” of Chinua Achebe. Now, in her masterly, haunting new novel, she recreates a seminal moment in modern African history: Biafra’s impassioned struggle to establish an independent republic in Nigeria during the 1960s. With the effortless grace of a natural storyteller, Adichie weaves together the lives of five characters caught up in the extraordinary tumult of the decade. Fifteen-year-old Ugwu is houseboy to Odenigbo, a university professor who sends him to school, and in whose living room Ugwu hears voices full of revolutionary zeal. Odenigbo’s beautiful mistress, Olanna, a sociology teacher, is running away from her parents’ world of wealth and excess; Kainene, her urbane twin, is taking over their father’s business; and Kainene’s English lover, Richard, forms a bridge between their two worlds. As we follow these intertwined lives through a military coup, the Biafran secession and the subsequent war, Adichie brilliantly evokes the promise, and intimately, the devastating disappointments that marked this time and place. Epic, ambitious and triumphantly realized, Half of a Yellow Sun is a more powerful, dramatic and intensely emotional picture of modern Africa than any we have had before.

## Financial Capability and Asset Building in Vulnerable Households

### Theory and Practice

**Oxford University Press** Financial struggles of American families are headline news. In communities across the nation, families feel the pinch of stagnant and sometimes declining incomes. Many have not recovered from the Great Recession, when millions lost their homes and retirement savings. They are bombarded daily with vexing financial decisions: Which bills to pay? Where to cash checks? How to cover an emergency? How to improve a credit report? How to bank online? How to save for the future? Low- and moderate-income families have few places to turn for guidance on financial matters. Not many can afford to pay a financial advisor to help navigate an increasingly complex financial world. They do their best with advice from family and trusted individuals. Social workers, financial counselors, and human services professionals can help. As "first responders," they assist families and help in finding financial support from public and private sources. But these professionals are too often unprepared to address the full range of financial troubles of ordinary working families. Financial Capability and Asset Building in Vulnerable Households prepares social workers,

financial counselors, and other human service professionals for financial practice with vulnerable families. Building on more than 20 years of research, the book sets the stage with key concepts, historical antecedents, and current financial challenges of families in America. It provides knowledge and tools to assist families in pressing financial circumstances, and offers a lifespan perspective of financial capability and environmental influences on financial behaviors and actions. Furthermore, the text details practice principles and skills for direct interventions, as well as for designing financial services and policy innovations. It is an essential resource for preparing the next generation of practitioners who can enable families to achieve economic security and development.

## Life

**Little, Brown** As lead guitarist of the Rolling Stones, Keith Richards created the riffs, the lyrics, and the songs that roused the world. A true and towering original, he has always walked his own path, spoken his mind, and done things his own way. Now at last Richards pauses to tell his story in the most anticipated autobiography in decades. And what a story! Listening obsessively to Chuck Berry and Muddy Waters records in a coldwater flat with Mick Jagger and Brian Jones, building a sound and a band out of music they loved. Finding fame and success as a bad-boy band, only to find themselves challenged by authorities everywhere. Dropping his guitar's sixth string to create a new sound that allowed him to create immortal riffs like those in "Honky Tonk Woman" and "Jumpin' Jack Flash." Falling in love with Anita Pallenberg, Brian Jones's girlfriend. Arrested and imprisoned for drug possession. Tax exile in France and recording Exile on Main Street. Ever-increasing fame, isolation, and addiction making life an ever faster frenzy. Through it all, Richards remained devoted to the music of the band, until even that was challenged by Mick Jagger's attempt at a solo career, leading to a decade of conflicts and ultimately the biggest reunion tour in history. In a voice that is uniquely and unmistakably him--part growl, part laugh--Keith Richards brings us the truest rock-and-roll life of our times, unfettered and fearless and true. Richards' rich voice

introduces the audiobook edition of LIFE and leads us into Johnny Depp's performance, while fellow artist Joe Hurley bridges the long road traveled before Richards closes with the final chapter of this incredible 23-hour production, which includes a bonus PDF of photos.
