The book falls in two parts. Part I addresses central theoretical issues: How is the co-eventive interpretation of such adjuncts achieved? What is the internal syntax of participial and converb constructions? How do these constructions function at the discourse level, as compared to various finite structures that are available for co-eventive elaboration? Part II takes an empirical cross-linguistic perspective. It consists of five self-contained chapters that are based on parallel corpora and study either the use of a specific construction across at least two of the seven object languages, or how a specific construction is rendered in other languages. **Report of the Rhode Island Children's Law Commission, Submitted to the Governor and to the January Session of the General Assembly ... 1926 The Revised Laws of the Commonwealth of Massachusetts: Chapters 109-227 Illinois Attorney General's Report for the Biennium ...** Consists of the Report issued biennially and Opinions issued annually. It serves as a leading point of reference in the area relating to participation in crime and identifies the need for a consistent approach to the doctrinal and theoretical underpinnings of complicity liability. With a section on the UK analysing points of current interest, the book also has a large comparative section dealing with foreign jurisdictions and examines on the basis of a unified research grid how different legal systems treat core issues of participation in the context of criminal law. This book is a valuable reference resource for those in the criminal justice community in the UK and abroad and for academics, the judiciary and policy-makers. **The Pocket Code of Civil Procedure Containing Also the Debtors Act, the Civil Procedure Code Amendment Act, the Provincial Small Cause Courts Act, the Presidency Small Cause Courts Act, the Indian Registration Act, the Indian Limitation Act, the Stamp Act, the Court Fees' Act, the Suits Valuation Act; with Amendments Up to May, 1889 The Northwestern Reporter The Unrepealed General Acts of the Governor General in Council: 1882-84 United States Code 1970 Ed. Supplements I-V, Containing the General and Permanent Laws of the United States Enacted During the 92d and 93d Congresses and 94th Congress, First Session Report and Opinions of the Attorney General Acts, Resolutions, and Memorials Commentaries on European Contract Laws Oxford University Press** The book provides rule-by-rule commentaries on European contract law (general contract law, consumer contract law, the law of sale and related services), dealing with its modern manifestations as well as its historical and comparative foundations. After the collapse of the European Commission's plans to codify European contract law it is timely to reflect on what has been achieved over the past three to four decades, and for an assessment of the current situation. In particular, the production of a bewildering number of reference texts has contributed to a complex picture of European contract laws rather than a European contract law. The present book adopts a broad perspective and an integrative approach. All relevant reference texts (from the CISG to the Draft Common European Sales Law) are critically examined and compared with each other. As far as the *acquis commun* (ie the traditional private law as laid down in the national codifications) is concerned, the Principles of European Contract Law have been chosen as a point of departure. The rules contained in that document have, however, been complemented with some chapters, sections, and individual provisions drawn from other sources, primarily in order to account for the quickly growing *acquis communautaire* in the field of consumer contract law. In addition, the book ties the discussion concerning the reference texts back to the pertinent historical and comparative background; and it thus investigates whether, and to what extent, these texts can be taken to be genuinely European in nature, ie to constitute a manifestation of a common core of European contract law. Where this is not the case, the question is asked whether, and for what reasons, they should be seen as points of departure for the further development of European contract law. **Acts, Resolutions and Memorials of the Legislature of the Territory of Arizona The Principles of European Contract Law and Dutch Law:A Commentary Kluwer Law International B.V.** The topic of harmonisation of European private law, and European contract law in particular, is rapidly gaining in importance. The topic is not only widely studied by academics and students all over Europe (and even beyond), it is also on the political agenda of the European Parliament, the European Commission, and the European Council. The most important achievement in this field is no doubt the Principles of European Contract Law (PECL), drafted by the Commission on European Contract Law. The European Commission considers the PECL to be a serious option for further harmonisation of European contract law within the European Union. This publication is the first to provide a systematic overview of the PECL in comparison with Dutch contract law as a whole. The book is concise and because of its structure it is easily accessible. Amongst the contributors there are many highly distinguished contract law specialists. It may be used at universities in courses on Comparative Law, European Private Law, and European Contract Law. It may also be used by international practitioners, foreign students, and academics interested in Dutch contract law who do not have access to Dutch contract law because they have no knowledge of the Dutch language. Last but not least, the book will be of interest to all jurists interested in the harmonisation of the European Private Law. **Acts, Resolutions and Memorials of the Fifteenth Legislative Assembly of the Territory of Arizona Session Begun on the Twenty-first Day of January, A.D. 1889 The Revised Statutes of the State of Wisconsin Passed at the Annual Session of the Legislature Commencing Jan. 13, 1958, and Approved May 17, 1858.
